The Weather.
U. S. WEATHER BUREAU, DULUTH, MINN.,
March 12.—The barometer is highest in the Gulf
state. A slight disturbance is central over
Lake Superior and an area of low pressure is
also central north of Montana.
A cloudy weather prevails this morning in the
Dakotas and cloudiness with snow over the
Lake Superior. Fair weather is generally re-
ported in other sections.
The temperature is above freezing in all sec-
tions from the Rocky mountains eastward to the
lake region, except in Northern Minnesota.
North Dakota and over Eastern Lake Superior.
A temperature of 4 degrees below zero is re-
ported from Manitoba.

Duluth temperature at 7 a. m. today,
34 degrees, maximum 43 degrees, minimum
27 degrees.
DULUTH, March 12.—Local forecast until 8
p. m. tomorrow: Fair, followed by increasing
cloudiness; probably colder tonight; northwest
winds backing southeasterly.

Local Forecast Officer.

WASHINGTON, March 12.—Forecast till 3 p. m.
tomorrow: Fair, followed by increasing
cloudiness; probably colder tonight; northwest
winds backing southeasterly.

Real Estate the Ideal Asset.
Most of the fortunes of this generation
have been based upon investments in
real estate. It is also true that many
thousands of dollars have been lost in
similar investments, and thus many peo-
ple have been led to doubt the truth of
the proposition that "real estate is the
ideal asset." Yet this statement is as
true today as it ever was. In this case,
as in others, the exception proves the
rule. Those who have made foolish in-
vestments in real estate of course have
suffered for their folly. Men who lead
themselves with property in "boom
towns" that have no solid reason for their
existence—nothing to ensure their
growth in population or advancement in
volume of trade—have naturally ex-
pected losses. They have been taught
the lesson that real estate is the ideal
asset, when the real estate is properly lo-
cated.

In an article on this subject in Dona-
hoo's Magazine, William E. Harmon
points out that it would be unsafe to ac-
cept the history of the vast accumula-
tions of the Astors in New York, Mar-
shall Field in Chicago, and Nicholas
Longworth in Cincinnati as representa-
tive or as proper ones on which to base
hopes of even a much less profit through
realty investment; for in neither case do
the results be credited in any great
measure to the far-sightedness of the in-
vestors. Peculiar conditions came into
existence in the localities where these
holdings chanced to be situated—condi-
tions, in fact, which could not have been
foreseen, but which brought enormous
increase, far beyond that of other in-
vestments made with equal discrimination
and judgment.

Residential property is open to the
consideration of nearly all of us. The
facilities for obtaining money from sav-
ings and co-operative banks have put
within the reach of the smallest wage-
earner the opportunity of owning this
form of "the ideal asset, and to the home-
owner it does indeed become the ideal
way in which to place one's savings. The
educational influences of the home, the
subjective growth that comes from the
necessary application of savings toward
its payment, need not be elaborated.
From that point of view there can be no
question of its worth in the quickening
of our better consciousness and the de-
velopment of our manhood and woman-
hood.

In considering it, however, from a
money making point of view, care should
be taken in its selection. Locality and
the prospective development of that
portion of the city or town in which it is
situated, should be carefully studied.
Money invested in our best securities
earns from a per cent to 5 per cent;
therefore no one is justified in investing
in the form of realty now under considera-
tion, with its necessary concomitant of
risk, without a reasonable assurance of
an equal yield; and this income should
be exclusive of a sinking fund, to be set
aside to take care of the depreciation of
buildings and other incidental expenses.

When localities are selected with rea-
sonable care and in the line of general
improvements, Mr. Harmon concludes,
the increase in the value of land will
usually be enough to make this asset a
thoroughly satisfactory one; and the com-
fortable sense of security an owner feels
when his surplus is invested in realty
good, improved property makes it very
easy to grant this the title of "the ideal
asset." At the present time, when so
much money is locked up in banks and
must soon seek investments, many
capitalists and investors are turning
their attention to the opportunities
for investing in good real estate. In the
selection of localities where such invest-
ments would be certain to make a good
return, the opportunities presented in
Duluth will not be overlooked. Here is
a place where the peculiar conditions,
which caused the vast accumulations of
wealth from investing in Chicago real
estate, are repeated. No one can study
Duluth's geographical position and the
vast and valuable resources of its tribu-

tary territory without arriving at the con-
clusion that Duluth real estate is the
ideal asset today.

The Iron Ore Duty.
When Maj. Baldwin was defending his
course in advocating free iron ore, one
of his principal assertions was that the
removal of the duty would result in Du-
luth becoming a center of iron and steel
manufacturing on a large scale. Accord-
ing to his speech in congress, Duluth
would be "the Pittsburgh of the West."
The Eastern manufacturers, according
to his wonderful argument, would be
compelled to remove their plants to Du-
luth.

The Boston Herald is a Democratic
paper and a strong advocate of the free
trade principles represented in the Wil-
son tariff bill, as it passed the house of
representatives, but it does not agree
with Maj. Baldwin on this question. In
fact, it has been advocating free iron ore
for the exactly opposite reason, believing
that Eastern iron manufacturers would
be benefited, at the expense of Western
mine owners, by the removal of the ex-
isting tariff. Here is what it said in a
recent editorial article on this subject:

"Those interested in the removal of
the duty are the great steel plants of
Pennsylvania, Maryland and New Jer-
sey, that are located on the east side of
the Allegheny mountains. The individ-
uals and corporations that have con-
trolled these steel manufacturing have
been compelled to pay large amounts of
money for the transportation of Bessemer
steel ore from Lake Superior. The price
of transportation has been so high that
with many of them it has been cheaper
to pay the duty of 75 cents per ton and
import the needed ore from Cuba, Spain
or Northern Africa."

Happily the senate finance committee
has amended the Wilson bill regarding
iron ore, restoring it to the dutiable list
and imposing a duty of 40 cents per ton.
While the duty should be at least double
this figure, it is better for the mining in-
terests to be protected to the extent of
40 cents a ton than to have foreign ore
given free entry into this country.

An Unwise Measure.

Another measure of a vicious char-
acter, aimed at the manufacturers of pro-
prietary articles, is before congress. It
proposes to tax proprietary articles, cos-
metics, perfume, 1 cent upon every 25-
cent package. The statement who have
this proposal doubtless see only increased
revenue for the government, but do not
see the vast injury which is certain to re-
sult not only to manufacturing adver-
tisers, but to the entire press of the land.

The sale of the articles upon which a
tax is proposed is brought about by ad-
vertising through the newspapers, and
the expenditure in this direction during
every year amounts to very many millions
of dollars. If the tax proposed by congress
is carried into effect, it will result in
the dissolution of many worthy adver-
tisers who manufacture standard prepara-
tions, and a very large curtailment of all
advertising expenditure throughout the
press of the land. It not only will tend
to cause a withdrawal of business and
advertising, but will force all institutions
to discharge employees and curtail the
amount of their output. Consumers,
most of whom have found the articles
which it is proposed to tax largely indis-
pensable, will be the sufferers in the
long run, both financially and otherwise,
while the increased revenue which states-
men are now figuring upon to receive,
will decrease much more than 50 per
cent by reason of the decrease of output
of the advertised articles in question.

Where a stamp tax on these same ar-
ticles has been in use in England, it has
resulted not only in great injury to enter-
prises, but in increased cost to consum-
ers and a will-high total falling off of
patronage to the press. This is true in
England today. The increased amount of
revenue which the government will
receive, will not by any means equal the
decrease in the amount of the advertis-
ing patronage which the press of the
land now receives.

The Philadelphia Press very correctly
remarks that if every unemployed work-
ingman had saved the money he has
spent in drink, gambling and in other
harmful ways during the past five years
there would have been no need of extra
relief measures this winter. There would
have been enough in the savings bank
or in the stocking to have tide over the
hard times in comfort and ease. It will
be well if all classes learn the lesson
these conditions teach.

The Minneapolis Times says that in
the shape to which the senate committee
has brought the Wilson bill, "it is a lar-
ge, a travesty—an insult to the great party."
Yet we read in a Washington dispatch
that ex-Mayor Winston, one of the prin-
cipal owners of the Times, approves the
changes made in the bill by the senate
committee. The Times and Mr. Win-
ston should get together.

The United States has been given more
space at the Antwerp international ex-
position than has been allotted to any
other country, and American inventors
and manufacturers should avail them-
selves of the privileges extended. It is a
splendid chance for the Duluth and Su-
perior millers to extend their trade.

Dr. Alfred Russell Wallace, of London,
has this to say of women and nat-
ural selection: "When women, by edu-
cation and the ability to earn her own
living, is made a free agent in the mat-

What the sea does and is expected to
do at Galveston, Tex., was thus set forth
by Mrs. Rebecca J. Fisher, of that city,
in a recent oration: "Old ocean will
ever keep vigil. Its pearls keys, touched
by the divine hand, will continue to peal
forth in rich, pathetic lays anthems of
praise and victory as they dash in crystal
splendor along the pebbled shore, where
the jessamine and oleander wait their
perfume." The Texans are evidently
overworking the ocean, or else some
person is troubled with an excess of im-
agination.

Zella Nicolaus, who has attained not-
ority by suing George Gould for \$500-
000, has gone on the stage and is now
doing a 10-minute specialty in a New
York variety theater for \$300 a week.
Of course she will "elevate" the stage.

cosmopolitanism of the West, even in the
divorce line.

Another American heiress has married
a foreign nobleman, and there are ru-

acter will soon occur. The sad experi-
ence of the Princess Colonna has evi-
dently not had any effect.

These are the days of resumption.
Factories and mills are resuming opera-
tion, mines are being put in shape to
start up again, and even navigation is
preparing to resume.

Painful Allusion.

IT WILL OPEN EARLY

Vesselmen Are Looking Forward to an Early Opening of Navigation at Duluth This Year.

The Ice Outside the Canal is Beginning to Weaken and May Soon Break Up.

Navigation at Chicago Opened Today, the Earliest Date in the Records of That Port.

There seems to be little doubt now that navigation will open at Duluth at an unusually early date this year. The vessel agents are now advising that it will be safe to schedule the departure of boats from the lower lake ports for Duluth on April 15, but the prospect is bright that navigation will open a week earlier than that date, and it would not be surprising to see the Dixon start out for the north shore before April 1. There is no ice in the lake beyond the river and the very mild weather is fast eating away the field of ice between that point and the ship canal. Already there is a good sized space of open water outside the canal, and if navigation was open at the Sault it would not be astonishing to see vessels make their way out of this port through the ice. The indications are favorable for a continuance of mild weather. Flocks of wild geese were seen flying northward on Saturday morning—a sure sign that all extremely cold weather has passed.

A dispatch today from Cheboygan, Mich., this morning says: The straits are clear of ice as far as the eye can see. This is one of the earliest openings of navigation on record. The heavy wind drove the ice out. Navigation is open at Alpena, Mich., and fish tugs are now engaged in setting out nets.

The Detroit and Cleveland Navigation company have fully decided to start out one of their steamers for Cleveland on Thursday next, March 15. Daily service will not be inaugurated until April 1, permitting the first steamer to leave Cleveland and Buffalo line will be started out of Buffalo on April 1.

The steamer Arundel is being fitted out and will begin making regular trips between Detroit and Port Huron in about two weeks.

Exhibition of lights in the Tenth light-house district will be resumed for the season at light-houses in Lake Erie and Detroit river on March 15, and at light-houses in St. Lawrence river and Lake Ontario on April 1.

At a special meeting of the Lake Carriers' association in Cleveland the committee on lower lake ice dock charges reported that it had been able to secure a decisive action in regard to the request to reduce the unloading charges from 10 cents per ton. The committee on dry docks reported that it had obtained no concessions. The charges for 1924, fixed in the middle of January at the Dry Dock association's annual meeting, could not be changed without another meeting.

Secretary Keep was directed to ask the light-house board, through Maj. Adams, of Detroit, to change the Whitefish Point light from the third order to the second order red flash light and to erect a light at Vermilion Point.

A Chicago dispatch says that lake navigation opened today. This is the earliest opening on record, and was made possible by a heavy wind storm which followed a long period of mild weather and drove the ice out of the Straits of Mackinac. Chicago vesselmen did not expect such an early opening, but the grain fleet probably will move out at once. Of the 6,000,000 bushels of grain room in the river and harbor all but 2,000,000 bushels has been chartered. The unexpected early opening of navigation probably will precipitate a scramble for loads for the remaining empty vessels, and will, no rates somewhat. It may also complicate the efforts of the east bound rail lines towards a patching up of the rates.

May Establish an Office Here.
G. W. Butters has accepted the North-western agency for the National Tube works, whose main manufacturing plant is located at McKeesport, Pa., with a branch in Wisconsin. Should the business develop as the chances are it may, Mr. Butters will probably establish a central office in this city and have a force of agents to canvass the territory for him. Mr. Butters was with this company for several years, but left in three years ago to accept a position with a West Superior firm.

Interested in Gold Mines.
H. M. Bradley leaves tomorrow for the Columbia river where he is largely interested in a new placer gold mining enterprise. The company of which Mr. Bradley is a member has spent much time and money in securing the best and most improved machinery for placer mining and those interested are confident that their venture will return them a reasonable profit. Mr. Bradley expects to remain away for a considerable length of time.

TROUBLE IN THE FAMILY.

Mr. Savage, Alias Budrow, Assaulted His Mother-in-Law and is in Jail.

The Philip Savage reported in the Duluth papers as having gone to jail in default of furnishing bonds for his appearance, as principal in an Indian whisky case, is a squaw man from the Indian reservation at Cloquet, who generally goes by the name of Budrow, says the Pine Knot. Budrow is the husband of a former Miss Posey, with whom resided Mrs. Posey, Sr.

In the course of a domestic "jar" Mr. Budrow came to the conclusion that the proper way to treat Mrs. Posey, Sr., was to first bump her head and then eject her from their joint dwelling, which program he faithfully carried out, after which he slept the sleep of the just man. But Mrs. Posey resented this treatment as any true-hearted mother-in-law would, so she played even with him by swearing out a complaint against him of bringing whisky on the reservation. The Posey household is not likely to be troubled with Mr. Savage, alias Mr. Budrow, until the glad springtime is come and passed.

THE BETHEL CONGREGATION.

Organized Last Evening by Dr. Salter and Rev. B. Frankland.

The Bethel Congregation, a new department of Bethel work, was organized last evening with twenty-eight members. The proposition to establish a Bethel church was first made but Dr. Salter and others preferred this as broader and more suited to the requirements. All who are Christians are eligible to membership. The congregation is designed to superintend and assist in all lines of Bethel work, especially the religious meetings and Sunday school. Rev. C. C. Salter officiated at the service last evening which consisted of the sacrament of the Lord's supper and a confession of faith in the Christian religion. Mr. Salter delivered an address.

Rev. B. Frankland, of Chicago, general superintendent of the Western Seminary's friend society, assisted Rev. Salter. He will conduct a service at the Bethel this evening.

NEW BASEBALL LEAGUE.

The Movement to Form a Wisconsin-Minnesota League.

A Milwaukee paper says: A move is well under way to organize a Wisconsin-Minnesota state baseball league. M. P. Addis, secretary of the old Wisconsin league has been negotiating with W. D. Davis, who is trying to organize a Wisconsin State league and has asked his co-operation. Mr. Addis has gone over the ground carefully and has practically made up his plan. The circuit has already been mapped out and is as follows:

SOUTHERN END.
Milwaukee, Wis.
Duluth, Minn.
Superior, Minn.
Ashland, Minn.

SOUTHERN END.
Milwaukee, Wis.
Duluth, Minn.
Superior, Minn.
Ashland, Minn.

The paper which also makes the above statement adds: "The Minnesota towns named have gone into the scheme with great enthusiasm and the same is true of those on the other side of the line. Eau Claire, La Crosse and Duluth have been in strong minor leagues and they vigorously showed up well." The enthusiasm at Duluth is not very intense.

BUILDING TO HIBBING.

The Duluth, Mississippi & Northern Road Will be Extended This Spring.

A gentleman connected with the construction of the Wright & Davis or Duluth, Mississippi & Northern road, informs the Hibbing Sentinel that the company is soon to commence the erection of a 100-foot road house, but as yet it is not decided whether it will be located at Hibbing, or at Swan river crossing, some forty miles from Hibbing.

The Duluth, Mississippi & Northern already has twenty-five miles on the main line, and the road which is being used for transporting pine logs, is said to be in excellent condition. Its present terminus is seven miles below Swan river crossing and runs to a point within sixteen miles of Hibbing. Grading is done to within four miles of Hibbing and the iron will be laid to that point as soon as the weather will permit.

FORBIDDEN TO SELL LAND.

Judge Jenkins Issues an Order in the Northern Pacific Case.

In the Northern Pacific case Saturday afternoon Judge Jenkins issued an order forbidding the receivers to sell certain land in their possession.

The order relates to a one-third interest in property in the city of Duluth, which the Northern Pacific holds jointly with the St. Paul & Duluth, and the Duluth Transfer Railway companies.

A Naval Cadet.
The Sixth congressional district is entitled to the appointment of a naval cadet. Congressman Baldwin has decided that the selection shall be made by a competitive examination, to be held in Duluth in May next. Full particulars can be had by addressing R. E. Denfeld, superintendent of schools.

Diamond Anniversary.
The general relief committee of Old Fellows will meet this evening at the O. O. F. on Lake avenue at 7:30 p. m. A meeting of the anniversary committee will also be held and arrangements will be made for the observance of the diamond anniversary of the order, as it will soon complete the seventy-fifth year of its existence. It is proposed to celebrate it in a manner entirely worthy of the important occasion.

GUN CLUB TOURNAMENT.

Joseph Dodge Won the Gold Watch on Saturday Last.

Joseph Dodge won the gold watch in the Central Gun club's postponed tournament which came off on Saturday. His total score in all events averaged 86 per cent. The scores were as follows:

Event No. 1, 10 single targets, known angles: Pastore, Nelson, Dodge, Bonehill, Pearson, 8; Day, 7; Greene, D. Day, 6; A. Pearson, Metcalf, 5; Gunderson, R. Little, 4.

Event No. 2, 10 single targets, known angles: Dodge, Pearson, Greene, 9; Pastore, Bonehill, McClure, 8; Nelson, 7; Little, Metcalf, 6; Day, 5; Haskins, 4; Gunderson, 3.

Event No. 3, 10 single targets, known angles: Dodge, Pearson, Greene, 14; Nelson, 13; Pastore, 12; Metcalf, 10; Bonehill, 9; Pearson, 8; Day, 7; Peterson, 4.

Event No. 4, 10 single targets, known angles: Dodge, Pearson, Greene, 14; Nelson, 13; Pastore, 12; Metcalf, 10; Bonehill, 9; Pearson, 8; Day, 7; Peterson, 4.

Dodge's men won in the team shoot, nine singles and three pairs, making the following score: Dodge's team—Dodge, Nelson, 12; Pastore, 10; McClure, 9; Greene, Bonehill, 8; total 39; Pearson's team—Day, Metcalf, 9; Pearson, 8; Little, Haskins, 5; Gunderson, 3; total 40.

COMPETITIVE EXAMINATION.

Duluth Can Have a Cadetship at the Annapolis Naval Academy.

Superintendent R. E. Denfeld has been requested by Hon. M. R. Baldwin to arrange for a competitive examination for aspirants to appointment to a cadetship in the United States Naval academy at Annapolis. The examination will be held at the Central High school March 28 and Superintendent Denfeld, County Superintendent Stultz and T. T. Hudson will act as examining board. The examination will embrace the following branches: Algebra, arithmetic, grammar, history, geography, reading, writing and spelling. All applicants for the examination will be required to report at the high school Tuesday, March 27. The examination will probably take two days.

Iron Company Organized.

Messrs. E. L. Merriman, Oak Park, Ill.; J. H. Chandler, C. W. Hillard, James Belden and B. E. Frith, of Chicago, have incorporated themselves into the Auburn Iron company. They incorporate themselves under the laws of Minnesota to do mining, smelting, reducing, refining and working of iron ore and other ores and minerals. They also are permitted to manufacture bricks, stone, coke, to work coal mines and stone quarries. The company's headquarters will be on sections 17 and 20, township 58-17. The authorized capital of the concern is \$100,000 in 400 shares of \$100 each.

The Special Meetings.

The special meetings yesterday afternoon and evening at the Y. M. C. A. building were successful. They were led by W. H. Ellis and "Bob" McEldowney, both of Chicago. Mr. Ellis is the Northwestern representative of the Northwestern Lumberman. He was converted six weeks ago through the Duluth Y. M. C. A. meetings and has made a vigorous start in evangelistic work. Mr. McEldowney is a gospel singer, whose songs have reached many hearts in Y. M. C. A. work. The fourteenth expressions of interest yesterday and the prospects are good for a great awakening tonight.

Gothic Architecture.

Tomorrow evening at the Central High school the second lecture of the Associated Church of Christ will be given by Rev. E. M. Noyes on the subject of "Gothic Architecture." He will describe some of the famous cathedrals of the old world and will illustrate them by stereoscopic views. The lecture will be interesting and instructive and Mr. Noyes, having seen all of the famous buildings which he will present by views, will be able to talk most entertainingly.

May Altison Up Again.

In police court this morning May Altison, well known in circles of easy virtue, bobbed up again, this time on the charge of visiting a house of ill fame. She pleaded not guilty and her trial was set for 2 o'clock tomorrow afternoon. In default of \$15 bail May was committed to the county jail until that time. Edward Johnson and Joseph Kitchen, for intoxication, received suspended sentences. John Hackett was found guilty of a similar offense and his fate was ten days in the house.

Forty Hours Devotion.

The annual service known as the forty hours devotion began at St. Anthony's church this morning, and continues until Wednesday evening. There was high mass at 10 o'clock and a line program of music by the choir. The evening service will be delivered by Rev. Father Eustace Dolmar, O. S. F., of Superior. Father Bager and Father Klopp, also of Superior, will preach sermons.

Happy in Their Pessimism.

Providence Journal. Henry Labouchere is one of that not small class of men who would be in the depths of a voiceless grief if everything went to suit them.

A Second Term Boom.

Milaca Times: Maj. Baldwin is mentioned for governor but the people of the Sixth district may think him a pretty good man to return to congress.

BANQUET TO BE DE.

Citizens of Tower Will Give One at the Vermilion Hotel on March 24.

The citizens of Tower will give a "Birch Bark Banquet to Be De," as the invitations read, on Saturday evening, March 21, at the Vermilion hotel at Tower. It is to be in honor of his appointment and confirmation as marshal. W. C. Bonham will be toastmaster. The program of toasts is as follows:

Piano solo—W. K. Seidman, Miss Lily Melvin "Our Guests"—W. K. Seidman, mayor of Tower (response)—J. P. Gleason, of Virginia "Our Resources"—Charles Q. Opdel (in Chippewa) "How to Get There"—J. E. Nathanson of Stillwater "The Ladies"—Charles Q. Opdel, of Duluth "The Press"—Dr. Fred Barrett, of Tower "American Citizens"—Julius J. W. Willis, of St. Paul "Poor Law"—Chief Wake-up (in Chippewa) "Pale Faces"—Charles Q. Opdel (in Chippewa) "The Ladies"—C. P. Marlinson, of Duluth "What Are We Working For?"—J. Adam Hede, of Duluth.

Thermopylae.

Nearly 2400 years ago, in a narrow mountain pass of Northern Greece, Leonidas and his 300 Spartans fell to the last man before the barbarians, but saved their country and achieved immortal fame. "Words," said Dr. Johnson, "are the daughters of earth; acts are the sons of heaven." The act done has preserved the word that otherwise had been forgotten. In fact, "Thermopylae" is in English only "Hot Springs." Possibly it had some local fame as a health resort, as in all ages down to our time hot springs have always been visited by the ailing and the invalid. In our own country there are two celebrated ones—Hot Springs, Arkansas, resorted to by hundreds of thousands, and Hot Springs, South Dakota, just coming into notice and fame. To purify the blood after a winter indoors, or to alleviate rheumatism and similar afflictions, nothing can be better than a trip to the hot springs—either one. The former can be most conveniently reached from the Northwest and Mississippi valley, through St. Louis and via the Burlington, and the latter is a point on the Burlington system. Apply to your home agent for tickets to either place, or write to W. J. C. Kenyon, Gen. Pass. Agent, St. Paul, Minn., for tickets, maps and information.

THE DISTRICT COURT.
All the Jury Cases Have Been Disposed of and Court Cases Now On.

The jury calendar has been finished and there is left only the list of court cases to dispose of. These prove very tickle as to the amount of time they take or as to whether they take any time at all. This morning this list had disappeared in an hour and court adjourned at 10:30 o'clock.

There is but one case for trial this afternoon, that of Schuulm & Kolt against C. E. Dickerman et al. Judge Lewis will probably hear it.

Before Judge Moor this morning in the two cases of Emma H. Fish against Scott A. Foster a stipulation of facts was presented, an order was made that the plaintiff serve a brief on the defendant in twenty days, that the defendant answer in twenty days and that the plaintiff reply in ten days.

Judge Lewis disposed of these cases: Duncan McLachern vs. W. H. Alden et al. attorney for plaintiff absent until Wednesday.

Louise M. Timolat vs. George W. Stevens, continued by consent.

A. C. Jamison vs. E. T. Merritt, placed at foot of calendar.

W. H. H. Stowell, assignee, vs. West Superior Iron and Steel company, continued by stipulation.

John Swenson vs. William G. Joerns, continued.

Mary Musolf vs. John Musolf, stricken from the calendar on account of the non-appearance of either party.

Martha H. Norton, executrix, et al., appellants, vs. Village of West Duluth, respondents, motion by plaintiff for new trial granted and a stay of thirty days ordered.

The reader of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have much faith in its curative powers, that they offer \$100 for any case that it fails to cure. Send for list of testimonials. A. Dress, F. J. Cheney & Co., Toledo, O. NEW COUNCIL TONIGHT

The First Regular Session of the Sixteen New Aldermen to be Held This Evening.

Clerk and City Attorney Will be Elected and Two or Three Appointments May Go In.

President Howard Will Appoint the Committee and There is Considerable Speculation as to Their Composition.

Tonight, the first regular meeting of the new council of sixteen members will be held. It is expected that some or all the salaries of the city's servants will be fixed and that the clerk and city attorney will be selected. C. E. Richardson will secure the appointment as the former officer and Page Morris as the latter. The mayor will send in some appointments but the general belief is that M. J. Davis for the board of public works and Harry Armstrong for chief of police will be named. Possibly a captain of police will be named, but the rest of the force will not be decided upon until his honor, the mayor and the new chief can consult one another and look over the present force and the half thousand of applicants.

President Howard, too, will name his committees. A slate was prepared in this matter of the committee, but it is pretty certain that President Howard has broken several large holes in it. The slate for example, gave the committee on public officers and offices to Aldermen Cox, Harwood and Olafson. It is understood that the committee as rearranged by Mr. Howard embraces Cox, Peterson and Evans. Cox says that while this would still leave him chairman, he will decline to serve on the committee, as there is a belief that the change was made to create friction and that while he was head and heels in friction all last year, he wants none of it between himself and friends. The slate gave Cox a place on the city property and buildings committee, if, as given out, President Howard has dropped Mr. Cox out of those committees, and given him a place on the almost useless, never-heard-from committee on harbor, docks and viaducts, he will feel a little sore and register a declaration of a year of silence in the council. It is claimed by some who ought to know that the committee as rearranged by Howard will not embrace Cox at all and that he has been left off so that no nominations will be tied up.

This will be the night for opening bids for the waterworks bonds. Up to the noon hour not a bid had been filed with the city clerk. Several financial papers in the West have been giving the bonds a black eye lately and that may have something to do with that state of affairs. City Treasurer Voss, however, is in receipt of the following letter from S. A. Kean, the Chicago broker:

"I have concluded, on account of the conditions you make (presumably the requirement that a check of good size be put up with the bid) not to bid for your water bonds on March 12, but if you do not get satisfactory bids I would like to hear from you on the subject. If the bonds are legal obligations of the city I can sell them at a good price."

SNAPS IN ENDION

2-room house, full lot, water, bath, sewer, Price \$3,000, very terms.

3-room house, city water and sewer, full lot, Price \$4,000, cash.

3-room house, city water, sewer, bath, furnace, etc., full lot, Price \$3,500, \$1,200 cash.

Also six clear lots in West Duluth to trade for improved property.

The Court Filings.

In the district clerk's office these papers have been presented for filing:

A finding by Judge Moor in the case of Samuel A. Davis vs. Lewis E. Peterson, administrator of the estate of Charles M. Cushman and Francis Cushman. The judgment is in favor of the plaintiff. The suit was to recover certain pieces of land in St. Louis county, and the court has decided that the defendant's claim to the lands is unfounded. An injunction is issued against the defendant and he is ordered to pay the costs of the action.

Municipal transcript, C. N. Nelson Lumber company vs. Great Northern Mining company et al. in the sum of \$161.25.

Execution on transcript against William E. Shipley of suit of Wells-Stone Mercantile company.

Assignee Sale.
During this week I will offer for sale at retail, the entire stock of cloths, etc., of J. C. Schaefer, the merchant tailor, in "The Herald" building. As is well known this stock consists of the best goods made and it will prove a desirable time to select a suit pattern and save ten to twenty dollars. Ladies will also find in this stock many patterns suitable for dresses. Those who desire can have the patterns made up, as I have retained the excellent corps of workmen that were employed by Mr. Schaefer.

A NEWSBOYS' SCRAP.

A Pair of Them Had a Ring Fight on Saturday Night.

The old-line dead-game sports in Duluth seem to be sleeping, and if they do not soon awake, a younger and more enthusiastic generation will have them crowded off the track. According to their age, size and financial standing, it is generally admitted that none are better posted on sporting matters or more devoted to them, particularly the "manly art," than the newsboys. Under their auspices a mill was held in a vacant house, 313 West Fourth street, Saturday night, and it was red hot from start to finish.

For four rounds the two boys, who will be called "Dan" and "Pete" for short and to prevent identification, hammered one another with 5-ounce gloves. About forty members of the newsboys' "profession" were present. Bets ran high and enthusiasm was in excellent condition and anxious for the fight to begin.

With a yell that made the four candles that lighted the scene tremble, were the contestants greeted when they stepped into the 12-foot ring at 8:30 o'clock. Dan, aged 16 years, weighed 101 pounds, and Pete, aged 17 years, tipped the beam at 121 pounds. Both men were in excellent condition and anxious for the fight to begin.

Both boys were seconded and another acted as time keeper and referee and before time was called, read the rules as follows:

"First round—Pete led off with a right hander which caught Dan on the nose with telling effect, and he followed up by rushing Dan to the ropes. Dan came back with a right hander which fell short. Time.

Second round—Pete opened with hard rushing. Dan landed an awful right hander on Pete's jaw. It made him shut his eyes and nearly put out the nearest candle. Time was called with honors about even.

Third round—Both men came up to the scratch with a rush. The floor was wet and by this time began to freeze and get slippery. The round was an excellent exhibition of sparring, each man holding his own in regular Corbett style, but neither giving an advantage.

Fourth round—Pete opened with a vicious rush but was met with a terrific left hander from Dan which sent the recipient to the floor like a log.

As Pete was getting up, Dan, getting excited and wishing to deliver a knockout blow, hit his opponent a light tap on the top of the head.

"Ben," the timekeeper and referee, then gave the fight to Pete on a foul. The boys shook hands, quitted friends and walked home in the rain.

DA GAMA SURRENDERS

The Rebel Brazilian Admiral Has Given Up
the Struggle and Has Sued for
Peace.

President Peixoto Has Agreed to Extend
Clemency to the Rebels on Ceasing
of Hostilities.

The Surrender Forced by the Determination
to Open Fire on the Rebel Ships
Today.

NEW YORK, March 13.—The Herald's
special cable from Rio Janeiro says: Ad-
miral Saldanha da Gama sent a message
to President Peixoto yesterday offering
to surrender his fleet and cease fighting.
He named terms which were to include
immunity for himself and his crew, and
with the revolution. After dispatching
his message containing the terms on
which he was willing to surrender, Ad-
miral da Gama sought safety. He re-
quested an asylum on board the Portu-
guese man-of-war *Mundillo*, which is in
the harbor. The Portuguese commander
received him and the rebel admiral is
now on board that vessel.
After getting on board he notified
his terms somewhat and asked that him-
self and his officers be permitted to leave
the country and that the lives of his
privates be spared.

Nothing has been heard of Admiral
Mello, with the *Aquidaban* and *Republi-
ca*, since he successfully ran past the
forts. It is thought that he is now in the
South, probably off Santa Catherine.
The circumstances which led to Admiral
da Gama's offer to surrender were no
doubt the preparations for a decisive
fight which had been made by President
Peixoto. President Peixoto had issued
an official decree announcing that, at
noon today, all the government bat-
teries would open fire upon the rebel
ships.

The government forces were in high
spirits over the prospect of a general en-
gagement and prepared to fight to the
death for the established government of
Brazil. With the *Aquidaban* and *Republi-
ca*, the rebels were in a position to
prevent their return or the escape of the
hemmed-in rebel ships, the enemy was
at a great disadvantage, and the general
sentiment was that even if President
Peixoto did draw their forces fire upon
the capital, he was justified in doing so
under the circumstances.

The dynamite cruiser *Niteroi*, the
submarine torpedo boat *Urutunga*, for-
tunately the *Esmeralda*, and the *Esmeralda*,
European torpedo boat *Aurora*, had
advanced inside the harbor bar and had
taken up an advantageous and partially
sheltered position between Fort São João
and Sugar Leaf fort, from which the
Niteroi could explode a dynamite shell
into the harbor.

The remaining vessels of the loyal
fleet, including the *America*, the *Para-
guay*, and five more torpedo
boats, lay just inside the entrance
to the bay where the loyal forts
São João and Santa Catharina ought
to be fully able, it was thought, to pre-
vent the *Republi* and *Aquidaban* from
joining the rest of the rebel fleet, had
such an attempt been made. The in-
surgents would have been assailed to-
day from three quarters at once, from
the loyal forts, the city batteries and the
newly purchased government fleet. Both
sides had cleared for action, and Rio,
figuratively speaking, was holding her
breath in expectation of the biggest
fight of the rebellion.

The Story Confirmed.—Official dispatches
from Rio Janeiro confirm the reports that
the insurgent Admiral da Gama, has left
his flagship and taken refuge on board
the Portuguese corvette, *Mundillo*. The
commander of the Portuguese warship
has cabled to Senor de Brissas dos Ne-
ves Ferriz, minister of marine and
colonies, asking for instructions in re-
gard to restoring the vessels comprising
the insurgent squadron, under command
of Admiral da Gama, to the Brazilian
government, to whom they presumably
belong.

A Hot Fight.—JACKSON, Mich., March 13.—One of
the longest drawn out prize fights that
has taken place in this state, occurred at
Michigan Center, near this city, last
night. James Devers and Jack Moore,
both of Jackson, were the contestants.
In the forty-second round Moore was
knocked out. Both men were severely
punished.

Hanged Himself.—MADISON, Wis., March 13.—Lars O.
Olson, 60 years old, who has had charge
of the little children since the recent fire
of the Norwegian Lutheran school, be-
came demented when he was told that
the children would be taken from him to
Stoughton, and hanged himself in an
old barn.

Newspaper Office Burned.—ROTTERDAM, March 13.—The pre-
mises of the Rotterdam Courant, one of the
leading daily newspapers of the King-
dom of the Netherlands, were burned
last night. The paper was issued as
usual this morning from another print-
ing establishment.

Minister Thurston Engaged.—SAN FRANCISCO, March 13.—Minister
Thurston, of Hawaii, is reported to be
engaged to marry Miss Harriet
Potter, of St. Joseph, Mich. The pros-
pective bride has been employed at the
Midwinter fair as secretary of the Ha-
waiian village and panorama.

Attempted Lynching.—ASHLAND, Ohio, March 13.—Austin
Metcalfe was yesterday arrested at Lou-
donville for assaulting Miss Mary Lou-
fingler and taken to Millersburg.
Feeling ran high against him and an at-
tempt was made to lynch him. The
young woman identified Metcalfe.

JUDGE TUTTILL TALKS.

Says He Was Not Surprised at the Acquittal of
Coughlin.

CHICAGO, March 13.—A special to a
morning paper from Omaha says: Judge
Tutill, of Chicago, who presided at the
Coughlin trial, arrived in this city yester-
day and registered at the Paxton. In
speaking of that case and the Cronin
murder Judge Tutill said:
"I was not surprised at the acquittal of
Coughlin. There was a reasonable doubt
of his guilt, and the jury gave him the
benefit of it. Anyone who attended the
trial and heard all the evidence could
not have done otherwise. I think that
Coughlin and Cronin, the for-
merly the murderers of Cronin, and I also have im-
munity to believe O'Sullivan was one
of the men who killed him."

"Frendersgast will surely hang for the
murder of Carter Harrison, but I do not
believe he will be executed on Good
Friday. The supreme court will prob-
ably grant a supersedeas in his case, so
the judge's error of sentence will not
amount to anything upon which the de-
fense lawyers can set as a pretext to
save the assassin's neck."

STABDING CASE AT VIRGINIA.
A Quarrel Over Drinks Resulted in H. A. Durke
Being Slashed.

VIRGINIA, Minn., March 13.—[Special
to The Herald.]—H. A. Durke, a sal-
oonkeeper of this place, got a pretty bad
cutting from a Finlander with an unpro-
nounceable name Saturday night. They
had some words over the payment of
drinks, with the above result. Mr. Dur-
ke received a bad cut in the hand and
shoulder. The blow was struck for the
heart but he succeeded in warding it off,
and before another could be struck the
man was grabbed by the bystanders and
held.

Four teams loaded with supplies to
start a general store at Rainy lake left
here Saturday night. C. E. Bailey and
James Knowles are the proprietors. Mr.
Bailey is a mining engineer and went
with the party. He had just returned
from there and has great confidence in
that district.

AGAINST SISTERS OF MERCY.
An Attempt to Prevent Them Teaching in Pub-
lic Schools.

PITTSBURGH, March 13.—At 9:30 o'clock
this morning, State Counsellor W. T.
Kerr, of the justice order, United Amer-
ican Mechanics, through his attorney, ap-
plied for an injunction in the Riverside
school case, before Judge McClung, in
Common Pleas Court No. 2. Saturday,
March 24, was set for a hearing.

Charles Gangloff, Charles Wessel,
Charles H. Freese, W. T. Kerr, James
Whitely, George F. McWen, Alex. M.
Baxter and W. S. McCutcheon are the
plaintiffs, while the board of directors of
the Riverside sub-school district (Thirty-
fourth ward) of the city of Pittsburgh, and
the Sisters of Mercy, teachers, are the
defendants. The bill prays for an in-
junction to prevent the sisters from
teaching, on non sectarian grounds.

BURNED THEIR COMPANION.
The Fatal Result of Boys in New Jersey Play-
ing "Indians."

CAMDEN, N. J., March 13.—A number
of boys playing "Indians" on a lot at
Broadway and Mechanic streets yester-
day tied their companion, Charles Baney,
aged 13, to a stake and built a fire
around him. His clothes were burned
from his body.

The other boys becoming frightened
ran away. Baney, however, was rescued
by a colored man passing by, who heard
the lad's cries and carried him to his
home. It is said he is fatally burned.

APPOINTMENTS MADE TODAY.
But None of the Minnesota Offices Have Yet
Been Filled.

WASHINGTON, March 13.—The presi-
dent today sent to the senate the follow-
ing nominations: [of Brooklyn, to be
person agent at New York.

Charles F. Blakely, register of the land
office at Bozeman, Mont.; [of the land
office at Chamberlain, South Dakota; also
a few army promotions.

Fatally Stabbed.—PITTSBURGH, March 13.—At 11:45
o'clock yesterday, Casper Hendor, aged
26, fatally stabbed Miss Amy Reugt,
aged 21, at her home near Spring
Garden Falls, just outside of Allegheny
city limits. The young lady, it is said,
was in a delicate condition, and at-
tempted to compel Hendor, who had
been her lover, to marry her. This he
refused to do.

The Nicaraguan Troubles.—NEW YORK, March 13.—A special dis-
patch from Managua, Nicaragua, says:
President Zelaya has summoned the
principal merchants to a conference.
Foreign merchants are appealing to
their representatives for protection
against his arbitrary measures. The
rebels here and in Costa Rica may en-
deavor to unite.

Maj. Rose Retired.—WASHINGTON, March 13.—Maj.
Thomas E. Rose, who was three times
breasted for gallantry, reaching the rank
of brigadier general of volunteers, and
who dug out of Libby prison through
the famous tunnel, was placed on the re-
tired list of the army yesterday.

Dobs Now a Populist.—TERRE HAUTE, Ind., March 13.—
Eugene Dobs last night addressed a
meeting of Populists at hereafter he
would be a Populist, leaving the Demo-
cratic party. The Populists say they
will make him their candidate for gov-
ernor in 1896.

To Erect a Stockade.—ROCKFORD, Ill., March 13.—The board
of supervisors yesterday instructed the
committee on buildings and grounds to
assist Sheriff Durbin in erecting a
stockade adjoining the jail in which to
execute John Hart Friday.

Dr. Eurtzell's Case.—ROME, March 13.—Rev. Dr. Eurtzell
has returned to Rome from a trip to Je-
rusalem. His decision of the pope to his
case, it is said, will be rendered very
soon, when Dr. Eurtzell will start for
New York.

LECTURE BY BRADLEY

The Counsel in the Pollard-Breckinridge
Case Were Cautioned by the Judge
to Keep Cool.

Had Been Told Some of the Counsel for the
Defense Were Armed But They De-
nied It.

The Defense Succeeded in Having Some De-
positions Rejected, But Others Were
Admitted as Evidence.

WASHINGTON, March 13.—The crowd
that surged about the circuit court room
this morning for half an hour prior to
the today's session of the Pollard-Breck-
inridge trial was greater than on any day
since the trial began. This augmenta-
tion in spectators was due principally to
a desire to ascertain the action of Judge
Bradley on the face-slapping episode of
yesterday. There were other reasons,
too, for the expect-
ancy of a sensa-
tional session. The
report that Col.
Breckinridge would make the
defense that he
had been married
to Mrs. Wing pre-
pared the minds of
Miss Pollard al-
leges he became
engaged to her,
and the accusa-
tion of Mrs. Pollard
yesterday, whetted the appetites
of the public and made the court room
more attractive than the houses of con-
gress.

Under Judge Bradley's order, only
members of the law firm and work-
ing newspaper men were admitted to the
courtroom, but the press of lawyers de-
manding admittance was so great that
the courtroom was nearly filled before
the case was called. Calderon Carlisle,
who was struck from behind by Desha
Breckinridge during the melee, was the
earliest comer, and he was soon followed
by Judge Wilton.

Just at 10 o'clock Col. Breckinridge
entered the room, followed by Mr.
Shelby, who slapped Mr. Johnson's face;
Mr. Stoll, Col. Phil Thompson, Maj.
Butterworth and Desha Breckinridge.
Mr. Shelby was the center of attraction.
He is a small man, slightly bald, appar-
ently about 45 years old, and wears
glasses. He looked serious and did not
show any signs of nervousness.

Miss Pollard was not present when the
court was called to order. Mr. Johnson
came in a few minutes after Judge Brad-
ley took his seat. Immediately after the
court was called to order, Judge Bradley
spoke in part as follows:
"There was an unfortunate occurrence
which I did not see, in the precincts of
the courtroom after the court adjourned
yesterday afternoon, when I of course
regret and I have no doubt the parties
who were responsible for it regret. It is
a matter, however, of which the court
cannot take judicial notice, except to ex-
press the hope that gentlemen will curb
and restrain their feelings. If the matter
had occurred when the court was in ses-
sion, it would have been the duty of the
court to take prompt notice of it, and to
administer such rebuke as the occasion
would demand from a court of justice."

"There is another matter about which
I deem it my duty to speak. The court
has received information that some of
the parties representing the defendant
have come into the court room armed.
Whether this is true, I of course do not
know. We have a comparatively stri-
ngent law upon the offense of carrying
concealed weapons—not as stringent in
its penalty as I think it ought to be, but
still sufficiently so as to be adequate for
the prevention of that offense to a very
large extent. It ought not to be necessary
to remind those who are concerned in
the administration of justice, that to
bring a deadly weapon into court is a
grievous offense which of course cannot
be tolerated by the court."

"It is only sufficient to say that the law
provides for a prosecution for this offense.
The court simply desires to say that if any
information is received at any time
which is sufficient for the prosecution of
an offense of this kind, the court would
deem it to be its duty, whoever the party
may be, to see that he is prosecuted ac-
cording to the law. I make no accusa-
tion, I simply make this statement
based upon representations made to me
which may be mistaken, and I trust they
are."

Maj. Butterworth arose when Judge
Bradley had finished and said that in
view of the fact that these accusations
had been made against members of the
defendant's counsel, he thought it proper
for each of them to make a disclaimer of
his guilt in this respect. He hoped none
of his brothers had been guilty, and felt
sure they had not, of any offense so dis-
respectful to the court.

There was silence for a minute, and
then Mr. Shelby, against whom the ar-
raignment of Judge Bradley fell with
some force in view of his attack on Mr.

Johnson, arose and said he had never
gone armed in his life, and would not
treat the court in so disrespectful a man-
ner as to appear in its presence with a
deadly weapon on his person.

Mr. McKinney, who lives in Washing-
ton, entered the same disclaimer. Mr.
Stoll, of Lexington, Ky., said he had
never entered the presence of any court
armed. The explanations were becom-
ing amusing by this time, and there was
a laugh when Col. Phil Thompson, whose
references to Miss Pollard's "gun"
showed his familiarity with that weapon,
addressed the court. He said merely:
"If it please the court, as I am the only
one left, I enter my disclaimer also."

The incident was ended by a state-
ment from Judge Bradley, at the request
of Mr. Carlisle, of plaintiff's counsel, that
the information about counsel on the
other side going armed had not come to
him from counsel for the plaintiff.

The day's proceedings began with a
little victory for the defense in the con-
troversy over the admission of deposi-
tions taken in Lexington the day before
the trial commenced and which led to
the affray between counsel yesterday.
Judge Bradley sustained the objections
of the defense against the admission of
the depositions as evidence.

Mr. Carlisle then asked that the de-
positions of Mary S. Logan, of Cincinnati,
formerly Dr. Mary L. Sweet, be admitted
but Mr. Butterworth objected, and an-
other legal controversy began. Mr. Car-
lisle and Mr. Stoll made statements with
reference to Mrs. Logan's examination,
from which it appeared that Mrs. Logan,
who attended Miss Pollard when her
first child was born, had accused Mr.
Stoll of persecuting her in asking "fool
questions" as she termed them. Mr.
Stoll made a long explanation about the
matter, disclaiming any intention of per-
secution.

After the arguments had progressed
for more than an hour, Judge Bradley
overruled the objections of the defense
and admitted the deposition of Mrs.
Logan as evidence.

Mr. Carlisle then read the depositions.
Mrs. Logan said she attended a young
woman who gave her name as Mrs.
Monica Burgeine in 1884. This was
while Mrs. Logan was with Dr. Sweet,
a practicing physician of Cincinnati. Miss
Pollard was present while the deposition
was being taken, but Mrs. Logan said
that while there were some things about
Miss Pollard that suggested Mrs.
Burgeine, she could not identify
her. The young woman said she was
pregnant with her first child, saying her
husband was dead, and acting as though
there were some family reasons why the
matter should be kept secret. The young
woman called twice at her office, and
later the deponent called to see her.

There was snow on the ground at the
time.

"Now, as I look at her, I begin to re-
cognize her," said the deponent at this
point. The deponent said "Mrs. or Miss
Burgeine" had gone to a lying-in house
kept by Catholic sisters on the Reading
road near Cincinnati, to be confined.

Mrs. Burgeine had told Mrs. Logan that
she was 18 years old; she did not look
older than that. After being confined
the young woman went to the house of
Doctors Perry and Buchanan, where she
took another name, which the witness
never, except in this case, has remem-
bered. Mrs. Burgeine was a very reticent
person and told nothing about herself.

One day while the deponent was call-
ing on a patient, an elderly gentleman
came to the patient's house to see her
and asked about Mrs. Burgeine. Mrs.
Logan said she did not remember what
the man looked like, except that he was
elderly. "Have you ever seen Mrs. Bur-
geine since?" was asked the deponent.

"Never, except that she may be this
lady. Yet they seem very different; their
hair was different, and this lady is thin-
ner. I think the other lady wore
glasses." Miss Pollard does not wear
glasses.

One of Mrs. Logan's statements was
that when the elderly gentleman called
on her, he looked like a pigmy standing
below her at the foot of a staircase. "Do
I look like a pigmy?" asked Col. Breck-
inridge, laughingly, to his counsel when
this was read. Maj. Butterworth read
the type-written statement of the depon-
ent's cross examination which developed
nothing new or important, and at 12:30 a
recess was taken until 1 p. m.

After recess the reading of depositions
began and was still in progress at 3 p.
m. The proceedings have been very
monotonous.

GOLD LANDS WITHDRAWN.
Maj. Baldwin's Bill Passed the House Today
Without Opposition.

WASHINGTON, March 13.—[Special to
The Herald.]—The bill presented several
weeks ago by Representative Baldwin
providing for the withdrawal of all gold
and silver lands in Minnesota was passed
in the house today. The measure was
called up by Representative Hall, of the
house committee on public lands. It
passed without opposition.

Died in Bermuda.—NEW YORK, March 13.—The Sun this
morning announces the death in Ber-
muda last Saturday of Lillian Farise
Dana, the wife of Dr. Charles L. Dana,
of New York. Her death was due to in-
juries received in jumping from a car-
riage to save her little daughter, who had
fallen from the vehicle.

Dr. Miller Accepts.—OMAHA, March 13.—Dr. George L.
Miller has concluded to accept the ap-
pointment of surveyor of the port of
Omaha upon personal urging from rela-
tives of President Cleveland.

THE PEPPER TARIFF.

The Kansas Senator Has Tariff Ideas of His Own Which Are Incorporated in a Bill.

The Measure is in the Nature of an Amendment to the McKinley Tariff Law.

Increases the Duty on Luxuries and Reduces It Greatly or Removes it From the Necessities.

WASHINGTON, March 13.—Senator Pepper yesterday introduced a tariff bill of his own which is in the nature of an amendment to the McKinley act. In general it may be said he increases the duty on luxuries and reduces it greatly or puts upon the free list the necessities and such articles as have a demand among the laboring classes.

Mr. Pepper puts a duty of 8 cents a pound on wools of the first and second class and admits free all of the third class worth 10 cents a pound or less. Sugar is free except in case of such countries as impose an export duty when a duty equal in amount is to be imposed. Boots and shoes, cheap clothing, provisions, agricultural implements and machinery, cotton cloths of the value of 10 cents a yard or less, saved lumber, etc., are all put upon the free list, and the popular plan of an income tax added.

LOOKING TO BIMETALLISM.

London Chamber of Commerce Wants Another Monetary Conference.

LONDON, March 13.—At the request of the merchants and others in England having large East India and China trade interests, the London chamber of commerce has represented to the government the urgency of the reassembling of the international monetary conference with a view to finding some remedy for the heavy fall and violent fluctuations in silver, which are represented as causing grave injury to Eastern trade.

The State Loses.

WASHINGTON, March 13.—The appeal of the state of Michigan from the decision of the supreme court of that state, in the case where it sought to recover something over 15,000 acres of the lands granted to the Flint & Pere Marquette Railroad company in that state, was dismissed in the supreme court of the United States yesterday by Chief Justice Fuller for want of jurisdiction.

Revolutions Brewing Everywhere.

NEW YORK, March 13.—A special from Cumtitan, Chiapa, says: The greatest excitement prevails across the border in Guatemala. Arms for the revolutionists have been received there from San Francisco. A gentleman just returning from an extended trip through Central America reports dissatisfaction in all its countries and revolutions brewing everywhere.

One Body Found.

WILKESBARRE, Pa., March 13.—The body of the miner found at the Gaylord mine last night was identified at 10 o'clock this morning as that of Peter F. McLaughlin. It is believed the bodies of the other twelve miners will soon be recovered.

Rebels Routed.

NEW YORK, March 13.—A special dispatch from San Jose, Costa Rica, says: Iglesias, who was defeated by rebels on Thursday, reorganized his forces, attacked and completely routed the rebels on Saturday afternoon.

Two Attempts at Suicide.

OMAHA, March 13.—William Brown and two other prisoners in the county jail at Council Bluffs were detected breaking out. When caught, Brown made two attempts at suicide yesterday and will probably die.

STRICKEN DEAD.

TRUSTWORTHY STATEMENTS.

A recent New York dispatch reads: "James C. H., a fine looking and apparently healthy man, was observed to stagger while walking on Fifth Avenue this afternoon, and after taking one or two uncertain steps fell to the sidewalk. When picked up he was dead. A physician examined the body and pronounced him dead from the cause of death. A peculiarly sad feature of this case is that Mr. H. was on his way to Maine to settle by the home of his brother. He had passed the previous ten years in the western mining country, and had amassed a fortune. IF YOU have any of the symptoms given in the following testimonials you should lose no time in seeking relief."

From John L. Roberts, Stratford, Pa.

"I have suffered with palpitation, irregular pulse, fainting and smothering spells, pain in stomach, side, and arms for over forty years. For twelve years have been treated without avail by prominent physicians in my neighborhood and in New York. Growing constantly worse, smothering spells followed one another, so my life was often in danger and I needed constant care. As my son had been cured by Dr. Miles' New Heart Cure, he sent me three bottles. The first dose gave me instant relief. Before using the last bottle I was completely cured. Although seventy-two years old I feel twenty years younger. I claim my cure to be almost a miracle."

Here is a letter from Mrs. John Kolges, of Cleveland, O.: "I had been troubled with my heart and stomach for years, but for sixteen months had been confined to my bed. I had four of the best doctors in the city, but none of them could benefit the weakness of my heart. I also had dropsy and rheumatism. I never took medicine that relieved me at once as Dr. Miles' New Heart Cure does. I gain strength with every dose. I have gained more in six weeks from your treatment than in sixteen months from all the doctors."

"Dr. Miles' New Heart Cure for the Heart is sold on a positive guarantee by all druggists. It is safe, effective, and does cure." Dr. Miles Medical Co., Elkhart, Ind.

SKIPPED FROM COLUMBUS.

John F. Harris, Fearing Exposure of His Forgeries, Decamped.

COLUMBUS, March 13.—It leaked out today that John F. Harris, a prominent coal operator of this city, for whose property a receiver was appointed on Saturday, has decamped on the eve of the maturity of notes amounting to \$3,700 to which he had forged the name of his brother-in-law as endorser.

Harris conducted mines and mine stores in the Hocking valley and was considered wealthy. Until recently he was president of the Ohio Coal exchange. His wife is here but does not know where he is. Harris' brother-in-law, whose name he forged, is J. A. Jeffrey, a well known capitalist and president of the Jeffrey Manufacturing company.

FELL WITH A CRASH.

A Chicago City Hall Elevator Fell, But no One Injured.

CHICAGO, March 13.—One of the big elevators in the center of the city hall, when crowded to its utmost capacity just after the adjournment of the city council last night, fell with a crash to the basement, when within about thirty feet of the lower landing.

The big elevator car is one of the largest in the city and there were fully twenty-five people in it when it suddenly shot downward. No one was injured.

The Lockout to Continue.

MASSILLON, Ohio, March 13.—A convention of Massillon district miners was held at Canal Fulton yesterday to act upon the suggestion of the national executive board of United Mine Workers of America that local differences be waived for the present and work resumed until a prosperous moment presents itself for inaugurating a general strike for higher wages. By a vote of 1703 against 180 it was resolved to ignore the advice of the executive board and prolong the lockout, which has continued since Feb. 10.

Trouble in a Fire Department.

MILWAUKEE, March 13.—The office of secretary of the fire department is vacant. Charles R. Groth, formerly of New York who had held the position since 1886, is out, and a meeting of the board of fire and police commissioners will be called at once to fill the vacancy. The reasons for the change do not appear on the surface, but there has been some grave trouble with regard to the fireman's relief fund with which Mr. Groth, in his capacity of secretary of the Firemen's Benevolent association, had some connection.

Arrested for Swindling.

SAN FRANCISCO, March 13.—H. Des Maris, alias John Matheson, young Englishman, has been arrested for attempting to obtain \$15,000 from Hellman Bros., bankers of this city, on a letter of credit from the Union Bank of Australia which, after the bankers telegraphed London, was discovered to be a forgery. Des Maris has been in trouble before, having presented forged papers to Laidlaw & Co., of New York, from a London bank, for which he served time in England.

A Mysterious Affair.

SPRINGFIELD, Mass., March 13.—Edgar T. Taylor, 48 years old, a milkman of this city, left his house yesterday to feed his horses which he kept in a barn. Not returning his wife went to see what was the matter. Entering the barn she found his lantern broken, his hat on the floor, a piece of gas pipe covered with blood, money scattered about and other evidences of a struggle. Mr. Taylor cannot be found.

The Kaiser Well Pleased.

BERLIN, March 13.—The emperor, replying to the members of the Berlin municipality, who congratulated him on the passage of the German-Russian commercial treaty, said: "I am confident that my policy for preserving peace and furthering the prosperity of all classes of the people will be so regarded as to do my heart good and likewise convince the nation that everything is done in their interest."

Escaped From Custody.

ST. LOUIS, March 13.—A special from the City of Mexico to the Globe-Democrat says that Leopold Pardo, a prominent newspaper man, charged with libel, has escaped from the custody of two police officers. One of the policemen, fearing the consequences, has also disappeared. The other surrendered himself and is now in prison.

Michigan's Election Scandal.

DETROIT, Mich., March 13.—The examination of George H. Bussey and James G. Clark, members of the footings committee, charged with tampering with the salaries amendment returns of Wayne county, was again postponed this morning until Friday next, on account of the absence of the defendants at Lansing where they are also under indictment.

Wholesale Smuggling.

CHICAGO, March 13.—Ching Ning Sue was held to the grand jury yesterday and sent to jail in default of \$250 by United States Commissioner Hoyne. Ching is charged with smuggling 400 Chinese into the country on the pretext that they were to be employed in the Chinese theater in Midway during the World's fair.

Will Not Succeed.

MONTREAL, March 13.—Leading members of the Knights of Labor in this city deny the report from Cincinnati that the Canadian knights will secede from the order on account of dissatisfaction with Grand Master Sovereign and that an independent branch of the Knights of Labor is to be formed.

The Czars Birthday.

PARIS, March 13.—In a telegram of congratulation to the czar on the occasion of his birthday, President Carnot expressed his most sincere good wishes and bespoke for his majesty the sympathy of nations. The czar in reply expressed his hearty reciprocation of the good wishes extended to him.

MURDER IN AN ASYLUM.

An Insane Patient Kills Another With a Boot.

MANITOWOC, Wis., March 13.—A row occurred at the county insane asylum between two inmates which has resulted in murder. John Geigle, a patient from Marathon county, was troubled with headache and sought relief by slapping his forehead with his hand while lying on his back.

The monotony of the proceeding aroused the ire of G. Paulsen, of Manitowoc Rapids, who arose and struck Geigle on the nose. Geigle remained quiet for some time until he found that his nose was bleeding, and then attacked Paulsen with a boot. He beat him over the head until the skull was almost bare and inflicted injuries which caused the man's death.

Suicide in a Disreputable House.

Meriden, March 13.—A special to the Commercial from Meriden, Miss., says: H. F. Taylor, a prominent attorney of Butler, Ala., committed suicide yesterday afternoon in a house of ill fame kept by Maggie Campbell. Taylor came to Meriden about a week ago and, it is said, has been drinking to excess. His brother is district attorney in the district in which Butler is situated and is one of the leading lawyers in Alabama. The deceased leaves a widow and several small children.

"Perhaps you would not think so, but very large proportion of diseases in New York comes from carelessness about catching cold," says Dr. Syrus Edison. "It is such a simple thing and so common that very few people unless it is a case of pneumonia, pay any attention to a cold. New York is one of the healthiest places on the Atlantic coast, but the people are careless about cases of catarrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is when you have one get rid of it as soon as possible. By all means do not neglect it." Dr. Edison does not tell you how to cure a cold but we will. EMBEZZLEMENT IS CHARGED.

The Former Cashier of the Defiance Savings Bank Arrested.

TOLEDO, Ohio, March 13.—Andrew Sauer, formerly cashier of the Defiance Savings bank of Defiance, Ohio, and now deputy collector of internal revenue in this city, was arrested in Defiance yesterday on a charge of embezzling \$37,000 of the funds of the bank.

The Defiance Savings bank was considered one of the soundest institutions of the kind in Northwestern Ohio, and its failure last August created no little sensation. The indictment against Sauer charges him with having taken \$37,000 on Dec. 28, 1891, and \$10,000 on Dec. 1, 1892. He has been released on bail of \$100,000.

Sauer was appointed deputy clerk of internal revenue by Collector George R. Hull when the latter came into office last October.

RAINY LAKE CITY

Situated in the center of the new gold fields and of the extensive timber district on Rainy Lake, is now attracting the attention of investors and settlers to an extent that is truly marvelous. It is predicted that before the summer is over, Rainy Lake City will be the most active and prosperous place in the state. Saw mills are now on the ground; stamp mills have been purchased, paid for, and are being shipped; all branches of business are arranging for active operations, for which a large number of lots have been selected and already many buildings are under way.

Best Business Lots, \$250.
Choicest Residence Lots, \$100.

Don't wait, call in, investigate, as we believe these lots will sell for three times the present prices inside of three or four months, and then prices will be less than one half those of other places that have not one-half the advantages of this new Eldorado of the Northwest.

ern state except Ohio, Illinois, Missouri,
and Kansas. In 1890 the municipal debt
of Minnesota was \$18,417,891, which is 73
per cent of the total state indebtedness
of all kinds. This was not quite three
times the municipal debt of Iowa, and
somewhat more than the added municipal
debts of Wisconsin and Michigan.

From 1880 to 1890 the increase in Min-
nesota's municipal debt was from \$4,318,
000 to \$18,417,891. The state's increase
in population during the decade was 66.
71 per cent, in assessed valuation 128
per cent and in municipal debt 349 per
cent. With the exception of a few new
states, which had few or no cities in
1880, no state shows so great a per
centage of advance in municipal debt
during the late census decade as Minne-
sota.

This showing, the report points out, is
by no means as bad as it looks on its
face. It is explained by the fact that
from 1880 to 1890 was the period of Min-
nesota's great municipal development.
It was the period when, side by side,
the three cities of Minneapolis, St.
Paul and Duluth, not to mention the
scores of lesser cities, doubled, trebled
and quadrupled in population and wealth
and business, and likewise in the build-
ing of streets, crossings, bridges, sewers,
water mains, street lights and school
buildings, and in the extension of park
systems and other public works for
which the municipal debt was contracted.
The municipal debt is the evidence,
as well as penalty of municipal improve-
ment and progress; just as the mortgage
is the evidence and penalty of industrial
development and investment.

The Tariff Measure.
If all the reports that come from
Washington be true, the Democratic
members of the senate finance commit-
tee are taking no chances on the failure
of their tariff bill, but intend that it shall
be such a measure as the house will ac-
cept. It is said that prominent members
of the house committee on ways and
means have been taken into the confi-
dence of the majority of the senate com-
mittee on finance, and that all the
amendments of the senate have been dis-
cussed freely with them so as to ensure
in advance favorable action of the house
conferers when the bill gets into confer-
ence. It is said that the senate commit-
tee has received satisfactory assurances
from the house committee, some of whose
members are noticed as frequent visitors
in the finance room of the senate.

The probable length of the tariff de-
bate is a matter upon which Democratic
senators cannot agree among them-
selves. If the Democratic members of
the finance committee could control
their own side of the chamber much of
the doubt now surrounding this question
could be eliminated, but there is every
indication that the Democratic side of
the chamber will not be controlled.
Mr. Voorhees favors the briefest kind
of debate, but he will be upon us before
Mr. Cleveland will be permitted to ap-
prove the act that supersedes the Mc-
Kinley law. The latter prediction is
discouraging to business circles.

A City Water System.
The common council last night ac-
cepted an offer for \$800,000 of water
bonds, which must be considered quite
favorable in view of the condition of the
money market. This matter having been
settled, the new council having de-
cided that the city shall enter upon the
expensive work of constructing an inde-
pendent water system and ample funds
having been provided to make a begin-
ning, no time should be lost in starting
work.

It is evident that spring has arrived
and no more severely cold weather may
be expected, and therefore it will be safe
to make arrangements at once for enter-
ing a contract for the performance of the
work or doing it directly under the
supervision of the city officials. It is
desirable, however, that the aldermen
shall, first of all, carefully consider the
plans which have been prepared for the
proposed system. This is a very im-
portant enterprise on the part of the city,
involving the expenditure of a very large
sum of money, much greater than the
sum now arranged for, and no mistake
should be made at the beginning.
The Herald trusts therefore that the
aldermen will give earnest consideration
to all the details and thoroughly satisfy
themselves, before ordering the starting
of operations, that the plans provided
are without serious defect. Being once
thoroughly satisfied on this point, let
the work be pushed without delay.

It may not be amiss to again direct
the attention of the aldermen to the fact
that the people of Duluth expect a policy
of economy and retrenchment in every
department. The first step should be a
reduction of salaries to the lowest possi-
ble figures, and a start can well be begun
with the board of public works.

Mayor Lewis has started out well in
his appointments to office. The names
submitted to the council had been known
for several days and therefore created
no surprise while the excellence of the
appointments is conceded by all. The

nominee for chief of police was promptly
confirmed, and no doubt the others will
be confirmed at the next meeting. Under
the direction of Chief Armstrong, the
police department may be expected to
reach a high degree of efficiency, as soon
as a few much needed changes are made.

The American Manufacturer says:
"The action of Mesaba ores in the blast
furnace has been quite satisfactory in
one instance at least in the Pittsburgh dis-
trict. It is stated on good authority that
the Edith furnace in Allegheny has been
using a mixture of 75 per cent Mesaba
ore, and has made the highest produc-
tion on this mixture in its history."

Senator Peffer of the special commit-
tee on agricultural depression contributes
some information as to the cost of rais-
ing wheat. He says that the cost of pro-
ducing wheat has been reduced to 35
cents a bushel in the Northwest and to
22 cents a bushel in California. He ac-
cuses the present low prices for wheat
production in America and other coun-
tries. If the senator's figures are cor-
rect, there is a profit in raising wheat at
the present very low prices.

The council did what was expected
when it chose Page Morris for city at-
torney and re-elected City Clerk Rich-
ardson for another term. The latter has
faithfully performed the duties of his of-
fice and deserved a re-election. Mr.
Morris will bring to the office of city at-
torney the high legal ability which this
important position demands, and the city
is fortunate in securing his services.

The annual report of Superintendent
Preston of the New York state banking
department shows that, despite the dis-
astrous effect of last year's panic on all
kinds of business, the savings banks of
the state showed on Jan. 1 last an in-
crease of \$28,664,028 in deposits over
Jan. 1, 1892, and a decrease of only \$12,068,
824 as compared with Jan. 1, 1893.

The end of the Brazilian war appears
to have been reached. The election of
a new president swept away every reason
for the continuance of hostilities by the
insurgents, and several severe defeats
have probably hastened that conclusion
on their part.

The only cloud upon the prospect of
an early opening of navigation is the fear
that the St. Paul Pioneer Press may pub-

to buy Dry Goods here.

'Twill be an old-time getting with all of the most fa-
vorable and desirable conditions. The finest of Laces, the best
most trustworthy Gloves, the most rare of rare Silks, the best
and most stylish of all Wool Dress Goods, finest of Silk, Lisle,
Cotton and Wool Hosiery, Underwear, the most reliable and
stylish Cloaks, the finest Lincens, etc., will sell at prices below
the lowest point anticipated by any one. This little delay is all
for Your benefit. Every day means a marked decrease in
price, but 'twill not be but a very, very short period now
till we are at your service.

Legal Papers in Office Docketed With
the Clerk Today.

In the clerk's office this early in
the week there have been five cases placed
on the docket for the Saturday special
term. According to present indications
this week's special term may exceed in
number of cases last Saturday's.

The regular filings today were:

In the matter of the assignment of
Simon Clark, Alexander M. Norison and
Joseph J. Thatcher, affidavit for an order
to extend time for settlement of estate to
one year and to use insolvent's money in
settling claims.

In the matter of the petition for the
appointment of a receiver for certain
property of George W. Shepherd, order
by Judge Ensign dismissing the petition
on the ground of no jurisdiction by the court.

TO TAKE THE OUTPUT

One Hundred inmates of the State Prison
Will be Worked at Manufacturing
Boots and Shoes.

Thomas F. Connolly and R. A. Costello, of
Duluth, Have Guaranteed to Handle
the Output.

State Will Put in the Plant and Mr. Con-
nolly Will Superintend the
Factory.

At the meeting of the state prison
board on Tuesday last it was decided to
place 100 of the prisoners at making
boots and shoes, Thomas T. Connolly
and R. A. Costello, of Duluth, guarantee-
ing to take the output of that number of
men. A plant will at once be put in for
manufacturing. This will cost
about \$1000. Mr. Connolly will
superintend the operation of the
factory. He is an old shoe manufacturer,
having been in the business twenty-five
years or more. Until March 1 of this
year he has been superintendent of the
Duluth shoe company's factory.

The board feels that it is fortunate in
securing labor for the prisoners, espe-
cially as several prisons in the country
are now idle. The Minnesota Thresher
company is not using but a small number
of men and most of them are now idle.

Mr. Connolly will probably remove at
once to Stillwater and it is possible that
Mr. Costello may also go. Mr. Con-
nolly will superintend the putting in of
the factory and will go to Chicago in a
few days to look after machinery.

THE DISTRICT COURT.

Court Cases Disposed of Rapidly This Morn-
ing—The Proceedings.

The district court jogs merrily along
and at this rate will soon adjourn. The
court cases generally fail to materialize
when they are called. Judge Moore fin-
ished up early this morning. Herman
E. Long vs. John Gieret et al. was con-
tinued to next session.

In the case of Samuel Christenson et
al. vs. Elliott A. Knowlton et al. the find-
ings were for the lien claimants.

Judge Lewis had a larger list of cases
and was kept busy until after 12 o'clock.

The case of W. H. Mansel et al. vs.
George A. Elder was dismissed.

Archie McPherson vs. Henry Schu-
man et al. continued.

John J. Frey vs. the West Duluth
Light and Water company et al., con-
tinued by consent.

Gabriel W. Becker vs. Neil Dreyfus &
Co., settled.

In the case of H. H. Cositt vs. the
Duluth Driving Park association, et al.,
the plaintiff's attorney opened and one
of the defendants was examined. The case
was then continued and placed at the foot
of the jury calendar.

The J. J. Costello Hardware company
vs. Daniel S. Blanchard, et al., stricken
from the calendar.

Edith Crocker vs. Charles F. Crocker,
stricken from the calendar.

In the matter of the assignment of the
Phoenix Electric company, in the appeal
of the Royal Electric company for dis-
allowance of claim, the claimant's attor-
ney rested on the pleadings. The case
is one to recover a balance on a breach
of contract. The case will probably be
finished this afternoon.

May Resume the Train.

There is an unofficial report that on
April 1 the Northwestern will resume its
through train to Chicago. This train be-
came very popular a year ago and a
number of citizens have expressed a hope
that the report will prove to be correct.
They say that this train is of inestimable
convenience for travelers and that the
advantages accruing to Duluth by its res-
umption will be great.

Will Make It More Popular.

There was an informal meeting of the
chamber of commerce this morning.
There is a proposition which will un-
doubtedly be adopted to reduce the year-
ly membership fee from \$5 to \$10. It
will be the aim to make the chamber a
more popular body. The voting privi-
lege will be extended to every member
whether at a director's meeting or a gen-
eral meeting. The regular weekly meet-
ings will be made general not merely
director's meetings as heretofore. Fifteen
members were chosen to solicit mem-
bership.

Assignee Sale.

During this week I will offer
for sale, at retail, the entire
stock of cloths, etc., of J. C. Schae-
fer, the merchant tailor, in The Herald
building. As is well known this stock
consists of the best goods made and it
will prove a desirable time to select a
suit pattern and save ten to twenty dol-
lars. Ladies will also find in this stock
many patterns suitable for dresses.
Those who desire can have the patterns
made up, as I have retained the excel-
lent corps of workmen that were em-
ployed by Mr. Schaefer.

Rainy Lake City is the Mecca toward
which all pilgrims are journeying now.
Every train brings in a few men headed
for the new country, and the railroads
are in high glee for they are reaping a
great benefit from it.

Mr. Cummings, resident manager of the
Rainy Lake Improvement company, in a
letter just received directs the com-
pany to put him down for several lots for
a syndicate which is to build a hotel and
cottage on Sand Point island.

The lumber and necessary material, ex-
cepting nails and doors, is already on
the ground and work has commenced.
Sand Point island is just across the line
on Canadian territory and almost within
a stone's throw of Rainy Lake City.

THE COLLECTOR AT DULUTH.

Secretary Carlisle Says No New Selection
Has Been Made.

WASHINGTON, March 13.—[Special to
The Herald.]—Secretary Carlisle today
stated that no new selection had been
made for collector at Duluth. This, he
said, was also true in reference to the
collector of internal revenue for Minne-
sota.

Mr. Cummings asked unanimous con-
sent for present consideration of a reso-
lution asking the secretary of the navy
to report to the house all the facts in his
possession relating the reported failure
of Canine, Phipps & Co. to furnish
their plates in accordance with their
contract. Representative W. A. Stone
objected and the resolution went to the
committee on naval affairs.

The house, at 1 o'clock, on motion of
Mr. Sayers, resolved itself into commit-
tee of the whole on the sundry civil ap-
propriation bill, Representative Lester
in the chair.

The Senate.

WASHINGTON, March 13.—The senate,
after making a number of committee
changes as agreed upon in caucus, took
up the seigniorage bill at 12:30 p. m.

Mr. Stewart addressed the senate in
advocacy of it.

ROSEBURY ON HOME RULE.

The New Premier Says England Must Be Con-
vinced of Its Justice.

LONDON, March 13.—Lord Rosebery's
exact language in the house of lords last
night on the subject of Irish home rule
was as follows: "Lord Salisbury made
one remark on the subject of home rule
with which I coincide myself in
entire accord. He said that be-
fore Irish home rule could be conceded
by the imperial parliament, England, as
the predominant member of the part-
nership of the three kingdoms, must be
convinced of its justice. That may seem
to be a considerable admission, because
your lordships well know that the ma-
jority of the English members selected
in England proper is hostile to home
rule."

The Times this morning, commenting
upon Lord Rosebery's speech in the
house of lords, said: "The prime min-
ister's admission that England must be
convinced of the justice of Irish home
rule fairly takes our breath away. It is
the argument we have used from the be-
ginning of the controversy and carried
with it an emphatic condemnation of the
proceedings of the party which forced
the home rule bill through the house of
commons by Irish votes against a great
majority of votes of the English rep-
resentatives. It reduced to the rank of
absurdity the pretence of the agitation
against the house of lords for interfering
to protect what Lord Rosebery has thus
acknowledged to be the right of the
English electors. In the presence of the
momentous declaration all the rest of the
verbiage wrapped around the political
position of the ministry is merely wasted.

There is a majority of seventy against
Irish home rule among the English in
house of commons. The by-elections
have shown no weakening of this senti-
ment, but rather the contrary.

"If Mr. Gladstone's fiery energy and
passionate conviction failed to win the
English people two years ago to the be-
lie that home rule was consistent with
national safety, national interest and
national honor, are they likely to be per-
suaded by Lord Rosebery's half hearted
arguments, drawn from ambiguous evi-
dence of the decline of disorder in
Ireland?"

"All other considerations are dwarfed
by the revolutionary effect of Lord Rose-
bery's admission. It must produce the
same consequences directly its signifi-
cance is perceived. What will Mr. Glad-
stone think of this? How will the Irish
separatists deal with it? If Mr. Glad-
stone had not retired, we might almost
expect him to hasten back and move a
vote of want of confidence in his suc-
cessor."

In another leader on the Liberal meet-
ing the Times says that allowance must
be made for the difficulties that
Lord Rosebery had to encounter,
yet the general feeling will be that his
debut as premier was distinctly disap-
pointing.

THREE DOLLARS OFF!

Three dollars off is a big reduction on a \$15 Spring-weight Overcoat, but that's just what we're giving this week in this department—20 per cent off! Keep this in mind. Everything from the finest Carr's Melton to the cheapest grade at \$10.00 is on the same basis. You pay 20 per cent less than the regular prices.

Macintoshes! Do you know them? Rain, snow or shine, no odds which, if you have a Macintosh on. Dressy always. The part that sheds wet is hidden, but you always wonder where the stuff is so light and soft.

As it was last spring, so this; we're doing the Spring Hat trade of the city, for good reasons. The most important one is: The sorts we sell; besides, we sell that \$4.00 Derby for \$3.00.

Just outside our front entrance will be seen the beautiful thoroughbred SHEPHERD PONY, "SENATOR." We will give him with Cart, Harness and Whip, free of all cost to the purchaser who first guesses nearest to their complete weight.

NOT TO RESIGN.

Rosebery's Ministry Declines to Accept Yesterday's Vote as a Declaration of Want of Confidence.

Irish Members Are Openly Denouncing the Premier's Talk About Converting England to Home Rule.

Revolt of the Irish and Radicals May Lead to an Early Dissolution of Parliament.

Michael Davitt Considers that Rosebery's Language Creates a New Liberal Program Regarding Home Rule.

LONDON, March 14.—In the lobby of the house of commons Michael Davitt yesterday said: "It is useless to shut eyes to the fact that Lord Rosebery's language creates virtually a new departure of the Liberal party on the question of home rule. The eagerness with which the enemy has seized Lord Rosebery's words is sufficient reason why home rule should distinguish between phrases that are coined in the heat of debate and the settled policy of the new Liberal government."

"The words spoken by the premier furnish the clearest justification of the action of the house of lords in rejecting home rule. The position the Unionist lords is English and they must be convinced of the justice of home rule before it will be granted to Ireland. That is Lord Rosebery's doctrine."

The Parnellite wing of the Irish party have openly denounced Lord Rosebery's statement about converting England to home rule and the McCarthyite section are also angry at the premier's utterance. The Globe says the feeling among the McCarthyites has created no surprise. They may seek to find excuses for Lord Rosebery's remarks, but there is no one among them who does not see that the premier has practically dropped home rule. The Conservative papers are all agreed that Lord Rosebery has virtually abandoned home rule and profess belief that a general election is not far off.

In his speech on Monday night, Lord Rosebery said: "I believe that the conviction of England regarding home rule depends upon one point alone, the conduct of Ireland herself. I believe that we continue to show the absence of agrarian crime and continue to point to harmony in Ireland, the Liberal party of the country will continue to give proofs and pledges that Ireland is entitled to the boon, which she has never ceased to demand since the act of union was passed. I believe the conversion of England will not be slow or difficult."

Lord Rosebery also said: "The question of home rule has a triple aspect. First, Ireland will never be contented until home rule is granted and the policy of administering palliatives is bound to fail. Secondly, we have not merely to satisfy those living in Ireland, but for the good of the empire and the continuity of the empire depends not upon centralization but decentralization, and if you commence to tread this path you must give satisfaction under the same conditions, certainly in the case of Scotland, and possibly in that of Wales. Not in the same degree, nor in the same way, but so as to relieve the imperial parliament of the burden of legislation."

The Daily Chronicle says: "Lord Rosebery's language was a true indictment, conveying to certain minds a notion which was far from his own. But if, at the hint of an unacceptable phrase, the whole Irish party votes avowedly against the lords, but really as a demonstration against a home rule premier, we may well admit that the situation has serious features. We cannot ignore the fact that nearly one half of the home rule party was led to the edge of a precipice by a will-of-the-wisp. A little nearer and away would go home rule and the Newcastle program."

The Morning Post says of the adoption of Mr. Labouchere's amendment: "An amendment to the address, successfully carried, has always been treated as fatal to the government and resignation has immediately followed. Lord Rosebery and his colleagues can hardly fail to treat the matter seriously."

The Daily News, in commenting on the division of Mr. Labouchere's amendment, says that the result is significant of opinion; that the adoption of the amendment will do the government no harm, but will stimulate the agitation against the house of lords.

Regarding Lord Rosebery's speech of Monday, the Daily News says: "No ingenuity can twist his words into anything more than the utterance of his opinion that the house of lords would not pass a home rule bill until it came to them backed by an English majority. We do not believe he meant as much as that, and we do not agree with him if he did. No approval of the lord's treatment of home rule can possibly be deducted from his speech."

The Times says: The defeat of the government means nothing less than the breakup of the combination which alone kept the government in office a single day. It shows that John Redmond's position is virtually accepted by both divisions of the Nationalists. The revolt of the Radicals and the Irish has so shaken the whole position of the government as to render an early dissolution of parliament inevitable.

The morning papers comment upon the absurdity of the Labouchere amendments, which pray the queen to do what no power can perform. The News says that the defeat of the government on Mr. Labouchere's amendment is not likely to have any result, the adoption of the amendment not being a vote of want of confidence, but merely a premature development of the government's policy. The only practical outcome, the News adds, is that the amendment must come under the notice of the queen.

The Standard says: "It would be easy to exaggerate the significance of the government's defeat, but it would be sheer stupidity to maintain that the defeat has no significance. The vote on Mr. Labouchere's amendment leaves the cabinet's authority visibly impaired. It is not an unlucky accident, but a dangerous symptom."

The house of commons was crowded with members and visitors today. Sir William Harcourt announced that the government had taken advice from all available sources and had decided to make a declaration of opinion on the subject of home rule. The judgment given last evening in amending the address did not show a mature and well-considered opinion of the house of commons. This was a grave question, he said, and the government would not present the address, as amended, to the house of commons. The government proposed to bring up a new address amounting merely to an acknowledgment of the speech from the throne.

A. J. Balfour, Conservative leader, was greeted with prolonged cheering as he arose to reply to the government's announcement. The Conservatives, Mr. Balfour said, would not object to the government eating its own words. The opposition had no desire to take advantage of the government's difficulty but were prepared to assist in extricating them from their unpleasant position.

Mr. Labouchere, amid cheers and laughter, defended his amendment, the success of which was abundantly justified. It was not intended to hinder the ministers in regard to those purely formal documents, the queen's speech and the address in reply thereto.

Joseph Chamberlain said the vote of last evening should either be rescinded or remain in the shape of a vote of want of confidence. [Cheers.] It was obvious that the government ought to dissolve parliament and seek a fresh mandate from the country. Loud and continued Unionist cheers.

In the number of "Truth" issued today, Lord Rosebery's "Letter to the Nation" is given in full. The paper states that the accession to the premiership was a skillfully contrived conspiracy. There is no question about Lord Rosebery's ability; he has a dangerous amount of it, and therefore, his selection pleases the Tories. His selection, however, by political and press hacks was a dirty trick on the Liberal party, whose preferences were not asked.

A representative of the Chronicle expresses the opinion that notwithstanding the earnest entreaties which Lord Rosebery has received to remain at his post, the new premier will shortly resign. He bases this opinion on the strength of the irritation created among the Irish and other parties and factions by the speech of Lord Rosebery in the house of lords, and the dangerous amount of it, and the fact that the Tories' preferences were not asked.

The tactics of the Conservatives have met the severe disapproval of Mr. Balfour, who is said to have expressed his opinion in plain terms of the Tories' abstention from voting on the Labouchere amendment, merely to embarrass the government. On this subject Mr. Balfour is said to have lectured the Conservatives whips soundly.

MISS POLLARD'S CASE.

Sister Cecilia Gives Evidence that Forms a Link in the Chain Against Col. Breckinridge.

The Defense Scores a Point in Cross-Examination of a Female Doctor from Cincinnati.

Testimony that Partially Sustains the Claim that Col. Breckinridge Was Not the Plaintiff's Seducer.

WASHINGTON, March 14.—Court had assembled and the clerk was calling the jury in the Pollard-Breckinridge breach of promise suit this morning, when a door to the left of the judge's bench opened and Miss Pollard came in. It was her first appearance since her sensational exit on Monday, when she was borne from the chamber by Mrs. Buchanan and Miss Ellis, and fell fainting at the door. Miss Pollard was pale but otherwise self possessed.

The courtroom was crowded this morning when the trial began. Col. Breckinridge and all his counsel were present. Mr. Carlisle of the plaintiff's counsel had come in a minute or two earlier, escorted sweet faced Sister Cecilia, and a companion in holy orders, who is required by the rules of the order of Sisters of Charity to accompany a sister called for duty in the world. Sister Cecilia saw Miss Pollard enter but they did not exchange greetings.

Mr. Calderon Carlisle began the proceedings by continuing his examination of Sister Cecilia, which was suspended yesterday.

"Sister Cecilia," he asked, "have you a good memory for faces and names?" "Not very good memory for faces, but names yes," was the answer.

"Can you positively say that Miss Pollard was a patient at the Norwood foundling asylum while you were in charge?" "I cannot, sir."

"Can you positively say that she was not a patient at the asylum during that time?" "No, sir."

"Now, Sister Cecilia, state the grounds for that belief?" "I object," said Mr. Butterworth, and then followed another legal tilt over the admissibility of a question involving an opinion. The question was overruled and the plaintiff noted an objection.

Then Mr. Carlisle asked if Sister Cecilia could state anything about the identity of the plaintiff with the patient in the asylum in the months of May, June and July, 1885.

"We object," said Mr. Shelby and the question was withdrawn.

"Now, Sister Cecilia, do you know whether, while you were in charge of the asylum, there were any patients there who were veiled?" was Mr. Carlisle's next question, and it was not objected to.

"There were two ladies there who went veiled because they feared being recognized by visitors."

"Now Sister Cecilia, did you ever send any patients back to Cincinnati in carriages?"

"Yes, three or four," was the answer. The spectators and jurymen became intensely interested at this point, for they understood that every point in the description of the asylum given to her counsel by Miss Pollard was being put forward for identification by the witness.

In answer to other questions, Sister Cecilia said that the name of Margaret, or Margaret was on the record of Norwood asylum as a patient there.

"The deposition of Mrs. Kate Perry Kane, a physician of Cincinnati, and member of the firm of which Dr. Belle Buchanan was the senior partner, was then read. Mrs. Kane identified Miss Pollard as one of the women who came to the house of Dr. Perry and Buchanan in 1885 as a patient. She boarded there for a while, during the winter, and was known as Miss Louise Wilson."

"Is the woman now before you (Miss Pollard), the same person that was at your house?"

"Yes, sir, I so recognize her; I recognized her as soon as I saw her this morning in this room."

Dr. Buchanan had told the deponent that Miss Wilson was an unfortunate girl from Kentucky. Miss Wilson, she understood, was recovering from a confinement when she was at the deponent's house. At one time Miss Wilson had gone out to meet her seducer at a hotel—permission being given by her physicians. When she came back Miss Wilson told the deponent that she had met the man, but that it was impossible for her to marry him; she loathed him, she said. She had steeled her heart against him, she said, and would not marry him. She disliked him so; he had ruined her. Miss Wilson also said that the man had offered to marry her to clear things up, but she disliked him so that she refused.

This last testimony was important in view of the effort the defense is making to show that Col. Breckinridge did not seduce Miss Pollard. Col. Breckinridge was a married man in 1885, while Miss Wilson, whom the deponent said, was Miss Pollard, had said her seducer offered to marry her.

Dr. Belle Buchanan, of Cincinnati, took the stand amid a buzz of interest from the spectators. She said she was a practicing physician in Cincinnati in 1885; she and Dr. Perry (Mrs. Kane) rented the house jointly where they lived. She first knew the plaintiff in this case in the summer of 1885; when she came to witness' house in Cincinnati to treat Joseph founding asylum (Norwood) suffering from the effects of childbirth. She remained there about ten weeks.

Mr. Stoll wanted to know how Dr. Buchanan knew that Miss Pollard had given birth to a child, and he asked a number of other questions on that subject. Miss Pollard became somewhat nervous during this testimony, and left the courtroom with Miss Ellis of the House of Mercy. Shortly after a recess was taken until 1 o'clock.

MISS POLLARD'S CASE.

Sister Cecilia Gives Evidence that Forms a Link in the Chain Against Col. Breckinridge.

The Defense Scores a Point in Cross-Examination of a Female Doctor from Cincinnati.

Testimony that Partially Sustains the Claim that Col. Breckinridge Was Not the Plaintiff's Seducer.

WASHINGTON, March 14.—Court had assembled and the clerk was calling the jury in the Pollard-Breckinridge breach of promise suit this morning, when a door to the left of the judge's bench opened and Miss Pollard came in. It was her first appearance since her sensational exit on Monday, when she was borne from the chamber by Mrs. Buchanan and Miss Ellis, and fell fainting at the door. Miss Pollard was pale but otherwise self possessed.

The courtroom was crowded this morning when the trial began. Col. Breckinridge and all his counsel were present. Mr. Carlisle of the plaintiff's counsel had come in a minute or two earlier, escorted sweet faced Sister Cecilia, and a companion in holy orders, who is required by the rules of the order of Sisters of Charity to accompany a sister called for duty in the world. Sister Cecilia saw Miss Pollard enter but they did not exchange greetings.

Mr. Calderon Carlisle began the proceedings by continuing his examination of Sister Cecilia, which was suspended yesterday.

"Sister Cecilia," he asked, "have you a good memory for faces and names?" "Not very good memory for faces, but names yes," was the answer.

"Can you positively say that Miss Pollard was a patient at the Norwood foundling asylum while you were in charge?" "I cannot, sir."

"Can you positively say that she was not a patient at the asylum during that time?" "No, sir."

"Now, Sister Cecilia, state the grounds for that belief?" "I object," said Mr. Butterworth, and then followed another legal tilt over the admissibility of a question involving an opinion. The question was overruled and the plaintiff noted an objection.

Then Mr. Carlisle asked if Sister Cecilia could state anything about the identity of the plaintiff with the patient in the asylum in the months of May, June and July, 1885.

"We object," said Mr. Shelby and the question was withdrawn.

"Now, Sister Cecilia, do you know whether, while you were in charge of the asylum, there were any patients there who were veiled?" was Mr. Carlisle's next question, and it was not objected to.

"There were two ladies there who went veiled because they feared being recognized by visitors."

"Now Sister Cecilia, did you ever send any patients back to Cincinnati in carriages?"

"Yes, three or four," was the answer. The spectators and jurymen became intensely interested at this point, for they understood that every point in the description of the asylum given to her counsel by Miss Pollard was being put forward for identification by the witness.

In answer to other questions, Sister Cecilia said that the name of Margaret, or Margaret was on the record of Norwood asylum as a patient there.

"The deposition of Mrs. Kate Perry Kane, a physician of Cincinnati, and member of the firm of which Dr. Belle Buchanan was the senior partner, was then read. Mrs. Kane identified Miss Pollard as one of the women who came to the house of Dr. Perry and Buchanan in 1885 as a patient. She boarded there for a while, during the winter, and was known as Miss Louise Wilson."

"Is the woman now before you (Miss Pollard), the same person that was at your house?"

"Yes, sir, I so recognize her; I recognized her as soon as I saw her this morning in this room."

WEST DULUTH ITEMS

Some West Duluthians Think Andrew Sordling May Not be Confirmed and Hint at Trouble.

When Asked for Their Authority for This They Answer Mostly by Winks of the Eye.

Julius Peterson Said to be Slated for Scavenger—Dr. Goffe Promulgates Some Health Orders.

Politics is still a pretty lively subject of discussion in West Duluth and the changes of public opinion are as frequent as those of the March winds. The latest is the statement that considerable objection is raised to the appointment of Andrew Sordling on the board of public works, and that he may not be confirmed. When asked if this is not attributed to West Duluth jealousy, a wink with the other eye is given as the assurance that a part at least of the opposition comes from another source, even perhaps from the West End where his strength is supposed to be greatest. Of course this is political gossip and is given for what it is worth.

Nothing has yet been heard from Washington in regard to the postoffice appointment, although there have been several small hurricanes kicked up over the candidacy of M. Daniels and others. Ed Capless is still saying nothing and holding on firmly to the business end of the burlesque, while his face wears a smile of supreme satisfaction.

It is said that Julius Peterson is slated for West Duluth scavenger and is already looking about for an office for his department. The health department will be strictly looked after under the new administration. Dr. Keyes has already made a good start by issuing an order that the custom of leaving dead animals about the town must be stopped at once under order from Dr. Goffe and that hereafter all deceased animals must be reported at the health office either here or in Duluth.

West Duluth Briefs.
The ladies of the W. C. T. U. will hold a mother's meeting at Mrs. William Kelly's near the Mitchell & McClure mill, Thursday afternoon at 2:30 o'clock.

E. Jamison is fitting up his store on Central avenue for a restaurant business. F. McKee, of Petoski, Mich., has moved here and will open a barber shop on Fourth street north.

Walter Lindahl, of Omaha, representing a large brick manufacturing, was in the city yesterday.

J. C. Goodwin, of Hutchinson, Minn., is visiting friends in the city.

George Edwards has gone to Rainy Lake City where he has secured a contract for hauling logs.

Mrs. G. H. Reeves entertained a party of young people at her home last evening.

Miss Myrtle DeMull, of Minneapolis, is visiting friends in the city.

ROBBED THE RAILROAD.
A Midland Railway Clerk Charged With Stealing \$15,000.

CHICAGO, March 14.—A special to the Tribune from Colorado Springs, Col., says E. R. Walters, chief clerk of H. B. Bryant, superintendent of the Colorado Midland railroad, was arrested at his residence in Denver yesterday by Sheriff Flowers and E. F. Taylor, special agent of the railroad, charged with peculating from the Midland company a sum of money which may reach \$15,000. He was brought here and placed in jail.

Crushed by the Debris.
SHERMAN, Pa., March 14.—A special telephone message from the Kingston Coal company says: Michael Walsh, another of the Gaylord miners at Plymouth, was found this morning at 3 o'clock. He was standing against the rib of the gangway and was crushed by the debris which pressed against him. He was identified by the scarp which he wore. The rescuers expect to find other bodies during the day.

Met a Horrible Death.
TORONTO, Ont., March 14.—James Watt, an aged and prominent farmer living five miles west of town, was found dead and horribly burned in the embers of a brush heap fire yesterday. He left home Saturday to visit a son residing a few miles distant. It is supposed that he stopped to throw brush on the fire and was stricken with paralysis. The body was found by his little grandchildren.

No Revolution in Costa Rica.
WASHINGTON, March 14.—The Costa Rican minister, Manuel Peralta, writes as follows to the United Press: "A telegram from New Orleans March 12, published in yesterday's papers, purports to give information about a revolution in Costa Rica. No such revolution has occurred, unless some electoral squabbles at the end of February, promptly quelled, deserve that name."

Heavy Storm in Texas.
GAINESVILLE, Tex., March 14.—A terrific hail storm prevailed here last evening. Hails as large as hen's eggs fell in large quantities for nearly half an hour, breaking hundreds of window panes and doing other damage. A heavy gale sprang up and many people, thinking a cyclone was approaching, fled to their storm houses.

Manager Ford Dead.
BALTIMORE, March 14.—John T. Ford, the veteran theatrical manager, died at his home in this city this morning.

WHEAT DULL AND STRONG.

Nearly All the Trading Today Was in May.
Cash Being Neglected.

The wheat market was dull, but strong today. It opened at 10 1/2 higher than yesterday's close and ended steady, advancing 1/2 during the first half hour. Then it held firm with sales until nearly 1 p. m., when it eased off slightly without trading, but closed strong at 10 1/2 higher than yesterday for cash and March, and 1/2 higher for futures. Nearly all the business was in May, which sold steadily at 25 above Chicago, although the close was 1/2 above. There was very little trading in cash, wheat, and track selling at May prices. One trail in July was recorded and two in September. Following were the closing prices:

THE CITY RESTRAINED.

Temporary Injunction Enjoining the City from Issuing the Water Bonds Issued by Judge Lewis.

Michael Norris is the Complainant and Makes Various Allegations as to the City's Finances.

Bonded Indebtedness Claimed to be Already Near the Limit—Hearing to be on March 24.

Yesterday afternoon shortly before 3 o'clock Deputy Sheriff Hansen served on Mayor Lewis, City Clerk Richardson and other officers, copies of an injunction restraining them from issuing the \$800,000 water bonds sold by the council on Monday evening to the Duluth Trust company. The suit is begun by Michael Norris, and Westburn and Judson are attorneys.

In the complaint Mr. Norris calls attention to the city charter provision that no bonds shall be valid if they increase the debt of the city above 5 per cent of the assessed valuation, and that the assessed valuation is about \$10,000,000, and bonded indebtedness \$1,750,000. Certificates for improvements to the extent of \$1,000,000 have been issued and the city is liable for them. The complaint alleges that many thousands of dollars of these are in default and the city must pay them; orders to the extent of \$500,000 are unpaid, and the city expenses amount to \$200,000.

It is further recited that the bonds are issued to construct a system of water works. Whereas there are now water plants in Duluth, West Duluth and Lakeside with fifty miles of mains. The water is obtained from Lake Superior just as the city proposes to obtain it and the plaintiff claims it to be the purest water in use in any city in the country, and that it is no part of the plan of the defendants to obtain any other. The cost of a pumping station and reservoir, he puts at \$750,000 or more and the cost of running mains down into the city at a great deal more, it being impossible and impracticable to operate the works without the expenditure of a sum of money vastly in excess of \$200,000. The allegation is made that the ordinances now existing authorize the city to order extensions of mains as they become necessary.

The plan to construct this new system is alleged to be against the public interest and if they are constructed they will subvert the private interests of a few people. The burden of taxation will be increased and property will be still further depressed.

Judge Lewis issued a temporary order restraining the city from proceeding with the issuance of bonds, and ordered that cause be shown at the special term on March 24 why the order should not be made permanent.

A POLICEMAN KICKS. Thinks it Too Much to Be Asked to Accept a Reduction.

"I see that the council is talking strongly of cutting our salaries to 10 per cent," said a police officer this morning. "We have talked the matter over among ourselves and if that policy is carried out we have decided to quietly lay down our clubs, take off our stars and quit the service. The first year a policeman is in the force he gets \$75 a month. Thereafter he gets \$70. Unless promoted from the ranks, which is a good fortune, only a very few can hope for, and no matter how many years of service are given, \$70 is the highest pay a policeman can hope for. Now, if we are cut to 10 per cent, our wages will be reduced to \$63 a month. We cannot live on that, especially those who have families, and having a family is not yet a crime in America. We work eleven hours a day and seven days in the week. We are out in all kinds of weather and at all seasons of the year. We are under the most strict discipline and our employment makes us little above human machines. We are at a most heavy expense in clothing. Some of us have to have a new pair of shoes nearly once a month. In the winter we must have fur coats, warm caps, gloves, underclothing, overcoats—in fact we are obliged to have the very best and warmest, which costs heavily. We are required to furnish our own uniforms. They must be of good quality and cost more than clothing that most of us would wear in other business. Even our caps and helmets are an extra and unavoidable expense to us.

"I have a family, and pay taxes each year to the amount of \$70. If the city compels me, in the face of all I have stated, to work for \$63 a month, I shall be compelled to hunt other employment. The rest of the force feel the same way. The force is none too large now, and green men at \$63 would be much dearer for the city than experienced men at \$70. In other cities patrolmen in most cases get more pay, fewer days' work in a week, shorter hours and have more other advantages than we do here. I would look better to us if some of these rich people would pay their back taxes and assessments, instead of demanding that the wages of men who earn their money be reduced to the lowest notch."

A MAMMOTH CARGO.

The Load Carried Across the Ocean by the Big Freighter Cevic.

People at the head of the lakes, and all along the lakes for that matter, regard 130,000 bushels of corn or any load of about 300 tons as a very large one. The following record of a cargo, clipped from an Eastern paper, will be of interest and will give some idea of what lake business will be with deep water navigation.

IS NO LONGER SAFE.

People Who Cross the Ice Do it at Their Peril.

The time has come when it is unsafe to cross the bay on the ice, and for the next few days there will be some narrow escapes if not serious accidents. A surprisingly large number of people will not use their own judgment, but will cross and recross until someone generally the newspapers—informs them that it is dangerous. This morning a team of horses broke through the ice between the Misabe ore dock and the Pennsylvania and Ohio Coal company's dock. The ore dock watchman happened to see the accident and immediately summoned assistance. But for this the team and driver would have been drowned. The place they broke in was directly in the channel.

Curling Matches Last Evening.

There were a couple of curling matches at the Glen Avon rink last evening. R. J. MacLeod and George F. MacKenzie played against each other as follows:

A. McNeil, Tom Gibson, J. S. Palmer, J. S. Powell, Donald MacLeod, J. P. Hall, R. J. MacLeod, skip—22, J. MacKenzie, skip—18.

A match was then played between J. C. Hunter and C. B. Woodruff for a barrel of flour to be donated to some charitable institution. It resulted as follows:

A. A. Day, John MacLeod, Walter Aves, John MacLeod, Walter Aves, John MacLeod, C. B. Woodruff, skip—15, J. C. Hunter, skip—14.

Organized a Republican Club.

A number of Swedish citizens, about fifty in number, organized the Swedish Republican club last evening in the office of Carl M. Johnson in the Torrey building, electing the following officers: J. W. Nelson, president; Neil Hall and C. W. Wilson, vice-presidents; S. H. Eckman, secretary; Charles Hall, treasurer; executive committee, E. G. Swanson, Dr. J. J. Eklund, Andrew Swordling, C. W. Erickson, Charles W. Renold.

Is Employed Outside.

M. O. Hall says the statement that Mrs. Frank Houck is employed within the prison is incorrect. She is a servant in the home of the warden and can only be admitted to see her husband on visiting days, once a month, and then in the presence of the guards. But two women are employed inside the prison walls, the matron and stenographer. Mr. Hall says the statement might give an idea that Houck is receiving some favor but this is entirely incorrect. He being treated no different from any of the other prisoners.

Four Persons Killed.

DREBEN, Ont., March 14.—A. T. Vales' sawmill in a town in Ontario here, yesterday was the scene of a terrible explosion. The boiler exploded, killing James Cornell, the engineer, and three of his children, who were in the engine room with him. The bodies were thrown over two yards from the accident.

Best of All.

To cleanse the system in a gentle and truly beneficial manner, when the spring-time comes, use the true and perfect remedy, Syrup of Figs. One bottle will answer for all the family, and costs only 50 cents; the large size \$1. Try it and be pleased. Manufactured by the California Fig Syrup company only.

Cheap Rates to California.

The Northern Pacific Railroad company has put into effect a series of low round trip rates to California points. Tickets are good until July 15th, 1894 and are good for stopover under certain conditions.

These rates will enable those desiring to do so, to spend the winter in Southern California, or to visit the Midwinter fair to be held at San Francisco. This latter event will undoubtedly be second only to the World's fair, and will repay a visit as it will exhibit the resources and capabilities of California.

TALK OF THE TOWN.

Mr. Kenally, the Weather Man, Says Cold Weather is Over.

"This is pretty warm weather for March," remarked Local Forecast Official James Kenally, "but it does not necessarily follow that there will be a run of extremely cold weather to counteract it or make up for it, as many people seem to think. In fact there will probably be no more extra and continued cold weather this year.

"As a general rule the average yearly temperature varies slightly from year to year and if at any time the temperature falls below or gets above the average it will probably be equalized at another time. But this process of equalization is more apt to be gradual than sudden. For instance December was a very cold month, February was a little below the average while January was higher than usual in temperature. So it is not likely that there will be an extended period of cold at any time this spring. The cold weather is over."

Like all other classes of business men there are different varieties of newshyws. Duluth has one who shows a decided ability to take care of himself. His fellow paper vendors do not have much to do with him for some unknown reason, perhaps because he is a very little, modest fellow. He carries a big package of Minneapolis, St. Paul and local papers along Superior street in the evening. "My name's Charley," he is called to, "I'll give you a paper for a nickel." "Well, you don't look very hungry; you're as fat and round as a full moon. Here's your nickel," and purchaser No. 1 passes on.

The hungry boy forgot to get his bowl of soup, but fastened himself to another passerby and proceeded to repeat his tale of woe. It probably required 10 cents to buy the soup, though, and so when the new passerby became purchaser No. 2 the prospect of soup seemed very bright. But there was an unforeseen difficulty. The smallest change the purchaser had was a dollar. Here was a predicament. Eight year old Charley was equal to it, however. Turning slightly away he reached his hand down into the mysterious depths of his trousers pocket, drew forth a handful of silver, hastily counted out 95 cents, turned, dumped the change into the hand of his astonished benefactor, eagerly grasped the dollar and started hurriedly down the street in search of another customer.

"These pessimistic people who are prophesying a dull summer and stagnation everywhere are going to be fooled," remarked a well known building contractor yesterday. "This is going to be a good year in the building line and if you can bet that it will be in other business also. The board of trade building is going to be a success. The board of education will undoubtedly build two or three school buildings and other buildings are sure to go up. Two or three are being talked of on Michigan street. Then there is the Massachusetts Real Estate company which has made a live street, next the Chamber of Commerce. They have nearly \$200,000 invested there and they cannot allow it to remain idle. I think they will undoubtedly build. The corner opposite, owned by the Realty company of Maine, will probably also be improved. Of course, if houses there will be a large number, especially in Endion. Yes, you just mark it down that some people are going to be surprised."

"I only hope the news that Jim Hill will build the line from Duluth to Crookston this year is true," remarked a man on the Spalding yesterday. "It will go ahead this year not merely because of the commercial benefit to be derived from the road, but because it will suck out of the city all of the unemployed labor and relieve the people of a great burden which they are carrying to-day. Then it will bring in a large amount of money to Duluth, for this place will be more or less of a headquarters for supplies, etc."

WILL BEGIN EXCAVATING.

Board of Trade Directors Will Begin Work on the Collins Site.

The board of trade directors yesterday instructed the finance committee to at once begin the excavation for the new building at the corner of First street and Third avenue west on what is known as the Spalding property. A foreman will be hired and the work will be begun at once. The board will ask for new bids on the Spalding property. MacLeod & Campbell put in the lowest bid but the directors think a lower figure can be secured now. To get these will take two or three weeks. The excavating will be nearly completed then, thus saving that much time.

Hon. John M. Francis One of the Thousands Whom Paine's Celery Compound Has Benefited.

Among the men of international reputation in America no one deserves better of his country than Hon. John M. Francis, ex-minister to Austria.

The highest political honors have come to him unsought. President Grant appointed him minister to Greece. President Garfield had chosen him for the mission to Belgium. President Arthur appointed him minister to Portugal, and in 1883 he was promoted to be envoy extraordinary and minister plenipotentiary to Austria-Hungary, with a residence at Vienna.

At the last New York state election Mr. Francis was chosen one of the delegates-at-large to the constitutional convention, which is to sit in Albany next summer, and his majority was the largest on the state ticket.

Mr. Francis is conspicuous among the really great editors of today as the founder, editor and proprietor of the Troy Times, which he has made a live, enterprising, clean and popular paper, and one of the ablest and most influential exponents of Republicanism in the country.

The life and labors of Mr. Francis present one of the most attractive and beneficial examples of a life of enterprise, industry, conscientiousness, absolute fidelity to duty, and preference for a high plane of moral conduct have

been conspicuous traits of his character. They were the adequate guarantee of the eminent success that has crowned his efforts, and of the tribute of esteem that is paid to him.

Mr. Francis, though he has reached the penultimate of three score and ten, is in excellent health, and mentally vigorous and alert. The first of this year he went to Austria with his daughter to spend a few months.

Before going he requested William B. Wilson, who under Mr. Francis and his son, Hon. C. S. Francis, is the wide-awake head of the business department of the Times, to say for him to the proprietors of Paine's celery compound: "I have used the medicine moderately and with favorable results."

The expression is characteristic of the dignified and conservative gentleman who, as last fall's vote shows, is in the right sense the most popular citizen of the empire state.

Mr. Wilson himself, writing an unsolicited letter to Wells & Richardson company, says of this wonderful remedy that makes people well, and again where everything else has failed.

The medical journals of this country and Europe have given more space to the many remarkable cases where the use of Paine's celery compound has made people well than to any other one subject.

to become exhausted. I shall always stand ready to say a good word for Paine's celery compound, for I honestly believe that it will do all that is claimed for it."

Among the thousands of testimonials that come to the proprietors of Paine's celery compound every year, are letters from grateful men and women in every state in the Union. Little did Dartmouth's great professor realize the greatness of his benefit to mankind when he first prescribed this remedy that makes people well, and in the spring months—March, April, May—is as much superior to all the ordinary tonics, nervines and caraparasils as the diamond is more brilliant than a piece of glass. It is the best spring medicine in the world. It makes people well.

It is the true specific for diseases arising from a debilitated nervous system and impure blood. It is a positive cure for dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. For the latter Paine's celery compound has succeeded again and again where everything else has failed.

The medical journals of this country and Europe have given more space to the many remarkable cases where the use of Paine's celery compound has made people well than to any other one subject.

USED A REVOLVER.

Serious Charge Made Against August Federson in Court Today.

In police court today the leading role was played by August E. Federson, who was up on the charge of assault in the second degree. The complaint was sworn to by Jacob Grod, who alleges that on March 13 the defendant assaulted him by shooting him with a revolver. Federson's hearing was set for March 16, and putting up \$100 bail he was released until that time.

A. Johnson and Isaac Nelson pleaded guilty to drunkenness and were released on suspended sentences. Yesterday afternoon May Atkinson's trial on the charge of visiting a house of prostitution came off. The complaint was made by Police Officer Smollett but the state failed to make a case so May was given her freedom.

Births and Deaths.

The following births have been reported to the board of health: J. and Ellen Larsen, 125 St. Croix avenue, a son; Peter and Josephine Samson, 203 East Six and One Half street, a son; John and Julia O'Tighe, Hazelwood Park, a son; Charles and Betty Federson, West Duluth, a son; Carl and Mary Jansen, West Duluth, a son; Abrahamson and Mattie Eke, West Duluth, a son; Frank and Stena Larson, West Duluth, a daughter; John P. and Anna Engstrom, West Duluth, a daughter; Charles and May Fleischman, 1705 London road, a son; Gustav and Frederika Kalkbrenner, 405 East Ninth street, a daughter.

The death of John Ignatius, aged 2 years, at 10 East Eighth street, of acute nephritis, has been reported.

RAINY LAKE COUNTRY.

Attorney Triggs Has Returned from There
and Tells What He Thinks of
the Region.

Four Hundred People Are Now at Rainy
Lake City Living in Tents
and Wigwams.

Prospectors Find Veins of Gold-Bearing
Quartz Every Day—Land Can be
Easily Procured.

W. G. Triggs, the attorney, is back from
the Rainy lake country where he has
spent the most of his time since Dec. 28.
Mr. Triggs has been making mineral
surveys in the Canadian country for
Minneapolis parties and in a couple of
weeks will return to the new Eldorado
and complete his work.
"Rainy Lake City," said he this morn-
ing to a Herald reporter, "is well under
way. For a while settlers
were bothered for building ma-
terial but now seven or eight
hewn log buildings are under way and
soon there will be an abundance of lum-
ber. There are probably about 100 peo-
ple on the townsite living in tents and
wigwams. The townsite is pretty nearly
cleared and the sawmill machinery will
be placed and in working order within a
very few days.

"There is a steady tide of immigration
into that country. Coming home I met
twenty teams in two days, with stocks of
goods and supplies, all headed for Rainy
Lake City. A small town has been start-
ed opposite Rainy Lake City on the
Canadian side under the name of Island
City.

"Prospectors are making finds of veins
of gold-bearing quartz every day. There
is too much snow on now, however, to
successfully prospect, except along the
north shores of the lakes and it will be
some time before that snow goes off.
"The greatest trouble now is the lack of
provisions. The chief staples are pork
and flour. The Indians bring in
some game and moose and caribou
steaks afford a change from pork. The
Indians have several wigwams on the
townsite and many of them are employ-
ed at clearing the townsite. The supply
of provisions at Fort Francis is about ex-
hausted and the prospects for an early
breaking up cause many fears that un-
less movements are quickened, the sup-
ply will be exhausted before new stocks
arrive.

"In Rainy Lake City three blind pigs
are in operation and on my way down I
met three similar outfits going up. A
barrel of whisky and a tent are all that
is required for running a blind pig. No
dance houses have been started but
Kelly, of Tower, and parties from the
Mesaba range have been there looking
over the ground with the view of bring-
ing up a lot of the frail members of the
fair sex.

"At Rainy Lake City is a fellow from
Michigan who is a crackshot. When he
gets a little bowled up on bad whisky, he
feels called upon to show his skill. There
is also an original character known as
"Paddy the Bird." One evening the man
handy with a gun, handed Paddy the
bird a bottle of whisky. The Irishman
pulled at the bottle until the bottom was
dangerously near the stimulant.

"Drink the rest of that," said the
Michigan man in imperative tones.
"Paddy hastened to obey, and just as
he got the neck of the bottle into his
mouth, the shooter pulled his gun, fired
and smashed the bottle all to pieces.
Paddy lost no time in getting out of the
tent.

"On another occasion a fellow known as
"Dutchy" was smoking his pipe. The
Michigan man fired and smashed the
bowl of the pipe, much to "Dutchy's"
friction. At another time "Dutchy" was
cutting some meat from a ham hung up
in the shanty. The crack marksman drew
his revolver, let fly and cut the string by
which hung the meat. It came tumbling
down, much to the fright and sur-
prise of the meat slicer.

"The revenue collector also has much
trouble in keeping whisky from the In-
dians, and many amusing incidents are
the result of his watchfulness. What
Rainy Lake City needs now is a village
organization with some active officers.

"The country road between the head of
Lake Vermilion and Crane lake is prac-
tically completed and some practical
ship carpenters are constructing a flat-
bottomed boat to be used on that lake
this summer. The machinery is now on
hand and the vessel will soon be ready
for use. There will be lines of tugs on
all the waters in that country, and with
canoe communication on the various
directions will not be so difficult as
might be.

"The Canadian side is practically un-
surveyed. The Seine river runs from
northeast to the southeast and is large
enough for tugs. There is heavy timber
along it and for several years there has
been considerable logging. The Cana-
dian Pacific railway touches the Seine at
Savanne. That will be a practicable
route to the new Eldorado when irri-
gation opens. The Attikokan iron range,
with its large bodies of magnetic ore, is
touched by this river. Several surveys
have been made by the Canadians and
all that country through there is sup-
posed to be rich in gold bearing
quartz. The probabilities are that there
will be revelations as to the resources of
that region, every bit as startling as
those concerning the Mesaba iron range.
"The land laws in Canada, too, are
very simple and convenient. Land for
\$2.50 an acre can be purchased without
any delay. It is within twelve miles
of a railroad it costs \$3.50 an acre. An

The readers of this paper will be pleased to
learn that there is at least one dreaded disease
that science has been able to cure in all its
stages and that is catarrh. Hall's Catarrh cure
is the only positive cure now known to the
medical fraternity. Catarrh being a constitu-
tional disease, requires a constitutional treat-
ment. Hall's Catarrh Cure is taken internally,
acting directly upon the blood and mucous sur-
face of the system, thereby destroying the
foundation of the disease, and curing the
patient speedily by building up the constitution
and restoring nature in doing its work. The
proprietors have so much faith in its curative
powers, that they offer \$100 for any case that it
fails to cure. Send for list of testimonials.

NEWS OF THE ORIENT

One of the Oldest and Most Familiar For-
eign Buildings in Hankow, China,
Burned Down.

A Military Mandarin of the Third Grade Had
His Head Chopped Off For
Robbery.

A Man and a Woman, Who Were Paramours,
Were Beheaded and the Woman
Sliced.

VANCOUVER, B. C., March 15.—The
Canadian Pacific Railway company's
steamship Empress of India, which ar-
rived from the Orient yesterday, brings
the following Chinese advices: On
Feb. 7 one of the oldest and most fami-
lar foreign buildings in Hankow was de-
stroyed by fire. This building was the
old consulate which stood on the river
side adjacent to the present English con-
sulate. For some time it had been oc-
cupied by a native firm in the manufac-
ture of bamboo baskets. During the
celebration of the Chinese new year a
lamp was upset and the fire soon spread
over the entire building. The English
consulate had a narrow escape from be-
ing burned.

The Diario de Manila, of Feb. 15, has
the following extraordinary paragraph:
Mariano Santa Ana, a native of Albay,
who was born in the year 1777 and is
consequently 117 years of age, was dis-
missed from the hospital of San Juan de
Dios yesterday. Santa Ana also com-
pleted yesterday his long term of im-
prisonment of fifty-eight years, which
had accumulated by sentences for his
three escapes from prison. The unfor-
tunate man before being sent from the
hospital requested that he should be per-
mitted to remain in the place, claiming
that it was impossible for him to earn his
living owing to his very advanced age.

Mrs. Orr-Ewing, of the China island
mission, at Kiang-shan, is dead. Boyd &
Co., of Shanghai, recently contracted for
the construction of a steel tug boat of 120
tons displacement for Vladivostok.
A recent proclamation issued by the
governor of the province of Kiang-Si re-
minds native converts to Christianity
that they are still Chinese subjects, and
on the other hand non-converts are ex-
horted to consider the former still as
brethren, and to put aside further doubt
and suspicion in regard to them. Con-
verts are warned, however, against re-
lying, because of their entrance into a
foreign faith, too much on foreign pro-
tection, for in that case they will be pun-
ished with the utmost rigor.

The United States warship Monocacy
returned to Woo-Sung from Chin-Kiang
on Feb. 11 with several cases of small-
pox on board. Six of her crew were
at once taken to the general hospital at
Shanghai.

A military mandarin, wearing the
third grade order, or light blue button,
was decapitated at Soo-Chow on Jan. 31.
He was convicted of having robbed a
silk boat at To-Ing-Pu of \$10,000 last
summer while the vessel was proceeding
from Shanghai to the silk districts of
Soo-Chow. Two other persons were also
beheaded at the same time—one a man
and the other a woman, the latter suc-
ceeding also the sinner's "high" process.
They were paramours and had accom-
panied the death of the woman's husband
by poison.

The railway from Tientsin to Shanghai
Kwan is now an accomplished fact, and
the new route is being patronized by
immense numbers of passengers and
carries a large quantity of heavy goods
which formerly had to be conveyed with
immense labor in springless carts and on
pack animals.

A Postmaster Shot Dead.
LAWRENCE, Kan., March 15.—Patrick
H. Geelan, postmaster at Big Springs, in
this county, was shot and instantly
killed yesterday by Fred Hill, a young
farmer. Geelan was 66 years of age and
kept a store in which the postoffice was
located. He had received a threatening
anonymous letter, which he accused Hill
of writing, and a quarrel ensued.

Abbeil Will Not Fight.
NEW YORK, March 15.—Jack Mc-
Adams called at the Illustrated News
office yesterday, and in conversation with
Editor Lumley said that he had received
a dispatch from Chicago saying that
Stanton Abbott, lightweight champion of
England, had backed down and would
not fight him.

A Detective Killed.
COLUMBUS, Ga., March 15.—Will Wal-
lace, a detective of this city, was shot
and killed Tuesday night by a negro
desperado named Rich Gordon, whom
he was trying to arrest at Suspension, a
little station in Bullock county, Ala.,
about forty miles below the city. The negro
escaped.

Killed by a Runaway.
BOULDER, Col., March 15.—Miss Pearl
Egleston, who came here from Con-
necticut for her health, was killed in a
runaway accident yesterday.

THE BANK OF ENGLAND.

Governor Powell's Statement of ex-Cashier
May's Great Irregularities.

LONDON, March 15.—At the meeting
of the directors of the Bank of England
today, a statement was submitted by
David Powell, the governor of the bank,
in which he expressed regret at the ne-
cessity for the removal of Frank May,
the chief cashier. Mr. May, he said, was
removed, though allowed to resign, for
exceeding his authority and committing
great irregularities in regard to making
allowances to certain customers.

In one case he had made a consid-
erable overdraft without the authority or
even the knowledge of the governor, and
contrary to the rules of the bank he had
indulged in the transaction of the stock ex-
change which had resulted in grave pecu-
niary difficulties.

Mr. Powell said that the system of
advances hitherto pursued had been
thoroughly changed. It was impossible
to estimate the full amount of the bank's
losses from Mr. May's transactions, but
the sum of £250,000 had been set aside
to meet them.

Since August, 1893, Mr. Powell said
the liabilities to the bank of the firm of
Baring Bros. & Co., which failed last
summer, had been reduced by £663,000.
The progress in reducing the barings' li-
abilities to the bank had not been here-
tofore equal to expectations, but the reduction
had been steady and the present general
position of the bank is no less satisfac-
tory than it was six months ago. All of
the securities which the bank now holds
are gilt edged. It does not hold, and has
not held, any of the securities of finan-
cial trust companies.

OVERRUN WITH TRAMPS.

Coxey's Army of Peace Causing Uneasiness in
Stark County.

CANTON, Ohio, March 15.—The ap-
proach of the date when the army of
peace of J. S. Coxey, of Massillon, will
begin its march overland to Washington
is causing great uneasiness in Stark
county, especially among the farming
population.

The county is being overrun with
tramps, who have been committing depredations
of various characters. They claim to be unem-
ployed, arriving here with the honorable
intention of joining Coxey's great army of unemployed.

It is the general impression unless the
municipal or county authorities interfere
with the mob, that it will be impossible
to prevent the proposed march through
Canton.

WAS HANGED TO A TREE.

A Murderer Escaped From Jail, But Was
—Lynched by a Mob.

SPRINGFIELD, Pa., March 15.—Richard
Purvey, who murdered Christiana
Ehler near Tannersville a month ago,
escaped from jail here this morning be-
tween 6 and 7 o'clock.

A large crowd gathered and Purvey
was caught in Cherry Hollow woods. He
fought desperately, but was overpowered
and was taken to Palmer's island by the
mob. A rope was obtained, and the murder-
er was hanged to a tree until he was dead.

HAD A FEW HOT WORDS.

Roseberry and Harcourt Told Each Other Some
Hard Facts.

LONDON, March 15.—The Globe re-
ported that a meeting between Sir Wil-
helm Vernon Harcourt and Lord Rose-
berry took place yesterday, at which, if
the two men did not quarrel, they at least
told each other some hard facts. It
states that there is no doubt that Tues-
day evening's vote was intended to be a
demarcation against Lord Roseberry,
and that the latter is fully aware of this
fact.

A New Race Track.

SAN FRANCISCO, March 15.—It is re-
ported on reliable authority that Ed
Corrigan, who murdered the Haworth race
track, Gottfried Wolbaum, of the Gut-
tenberg track, and several other racing
magnates have purchased for \$150,000
a tract of land in the southern part of
this city and will open a new race track
in October. It is said that James Flood
and Adolph Spreckels are interested in
the deal.

Tammany Men in Frisco.

SAN FRANCISCO, March 15.—Thomas
E. Crimmins, J. J. Phelan and Abel
Crook, all famous Tammany men, ar-
rived from New York last night. They
say they merely came here to visit the
exposition and deny that they are fleeing
to Honolulu to escape investigation of
the grand jury.

Mine Contractor Killed.

WILKESBARRE, Pa., March 15.—A
well known mine contractor named
James Kelly, aged 48 years, was instan-
taneously killed by a fall of coal in the south
Wilkesbarre shaft of the Lehigh &
Wilkesbarre Coal company at noon yester-
day.

Kossuth Growing Weaker.

HE KISSED MADELINE

Sarah Guest Tells of Visits of Col. Breckin-
ridge and Miss Pollard to Her
House.

Breckinridge Came to Her Last Fall and
Asked Her Not to Testify Against
Him.

The Couple Were at Her House Fully Fifty
Times Within Three or Four
Years.

WASHINGTON, March 15.—Miss Pol-
lard entered a circuit court room this
morning just as the crier rapped for
order and began his "oyer." She was
accompanied by Miss Ellis, the elderly
lady from the Episcopal House of Mercy.
All the attorneys in the case were pres-
ent when Miss Pollard entered. Col.
Breckinridge had come in a minute be-
fore, and took his usual seat immediately
behind the plaintiff. As usual the
court room was full.

Sarah Guest, a colored woman from
Lexington, Ky., dressed in deep mourning,
was the first witness. She is the
woman whose deposition was objected to
by the defense a few days ago and not
admitted to evidence by Judge Bradley.
Her examination was conducted by E.
Farrell, who was the attorney for Miss
Pollard in Lexington. The witness
identified Col. Breckinridge and Miss
Pollard.

"Did you ever see the plaintiff, Made-
line Pollard, and Breckinridge at your
house?" asked Mr. Farrell.

"Yes, sir."

"How long ago was it that the plaintiff
and Col. Breckinridge came to your
house the first time?"

"About ten years ago."

"Did he bring her there without ar-
rangement, or did he make arrange-
ments in advance?"

"He made arrangements. He came to
see me and said he wanted me to keep a
young lady in my house from Friday
until Monday. I said: 'No, Col. Breckin-
ridge, she can't stay that long; I
haven't got the room.' He said: 'You
must let her come, Sarah; there is a
movement on foot here to have Mayor
Cassidy prevent the proposed march
through Canton.'"

"It was in warm weather."

"What time of the year was she there
the first time?"

"Col. Breckinridge. He did not re-
main there long with her—about half an
hour—and then went away. Col. Breckin-
ridge came back again about dark, and
remained until 11 o'clock."

"Did you see them in the room to-
gether?"

"Yes, sir."

"Was Miss Pollard dressed or un-
dressed?"

"She was undressed. Col. Breckin-
ridge was dressed."

"When did Col. Breckinridge come
again?"

"Saturday night. He stayed for some
time. When he came in he put his arms
about Miss Pollard and kissed her.
When he went he kissed her and bid her
good night."

"Did Col. Breckinridge come back
Sunday night and occupy this front room
with Miss Pollard?"

"Yes, sir; they stayed in the front room
until between 10 and 11."

In answer to other questions, the wit-
ness said there were indications that the
bed in Miss Pollard's room had been oc-
cupied on Sunday night. She had heard
Col. Breckinridge tell Miss Madeline that
she must get breakfast early and "get
down there to meet Mr. Roden on Mon-
day morning."

The witness said Col. Breckinridge and
Miss Pollard came back to her house a
year later. Col. Breckinridge had
come to the witness a year ago last sum-
mer, and asked her to take Miss Pollard,
but she had refused. Breckinridge had
come to her again last fall, after the suit
was filed, and asked her not to testify
against him, and also to keep Mary Scott
and Mary Wilson (who had lived at her
mother's under her control).

"How many times was Col. Breckin-
ridge at your house with Miss Pollard?"
asked Mr. Farrell.

"About fifty times."

"Over how many years did these visits
extend?"

"Over about three or four years."

Mr. Shelby conducted the cross-exam-
ination of Sarah Guest. He waded
right in without preliminaries. "Sarah,"
he said, "how many years have you been
keeping an assignation house at Lexing-
ton?"

Sarah hesitated and appeared embar-
rassed, and finally said: "About eight
or nine years."

"How long have you known Mr. Far-
rell?"

"Ever since he was a young man
growing up," and a smile went round the
court room at Mr. Farrell's expense.

Mrs. Lucretia Marie Minear, who keeps
the boarding house at No. 25 Lafayette
square, where Miss Pollard resided for a
time, and where Claude de Roche
Frances testified to having met the lat-
ter, was the next witness, but her testi-
mony developed nothing of importance,
although Miss Pollard left the courtroom
while it was given.

Mrs. Kate W. Burt, a clerk in the gen-
eral land office, was the next witness, and
the deposition of Mrs. M. A. Ketchum,
of Lexington, Ky., was read before the
court took its noonday recess. Neither
Mrs. Burt's testimony nor the deposition
contain anything of interest.

ROSTER CASE THROWN OUT.

Non-Suit Granted Because Plaintiffs Were
Parties to the Conspiracy.

MADISON, Wis., March 15.—Non-suit
was granted this afternoon in the famous
roster suit for recovery of \$15,000 from
the governor and various other state
officials on the ground that, if conspiracy
existed, plaintiffs were parties to it.

THE CANADIAN PARLIAMENT.

It Was Opened Today With the Usual "Speech
From the Throne."

OTTAWA, Ont., March 15.—At 3 o'clock
this afternoon his excellency, the govern-
or general, proceeded in state to the
chamber of the senate in the parliament
buildings and took his seat upon the
throne. The members of the senate be-
ing assembled and the members of the
house of commons summoned to the sen-
ate chamber, his excellency was pleased
to open the fourth session of the seventh
parliament of Canada with the following
speech:

"Honorable Gentlemen of the Senate;
Gentlemen of the House of Commons:
In the queen's name I greet you for the
first time since assuming the high func-
tions intrusted to me by her
majesty; and it is with feelings
of the liveliest satisfaction
that I thus greet you assembled for the
labors of another session of parliament.
This feeling of satisfaction is enhanced
by the opportunities which I have al-
ready enjoyed of visiting, and in my of-
ficial capacity renewing acquaintance with
several of the chief centers of enterprise
and activity of this Dominion; nor need
I refrain from assuring you that I have
been deeply impressed by the heartiness
of the reception accorded me as her
majesty's viceregal and representative,
a reception which has once more mani-
fested the loyalty, cordiality and public
spirit of the Canadian people.

"My predecessor was able to express
gratification to you last year on the in-
crease in trade and on the continuing
progress of this Dominion. It is gratify-
ing to me to observe that the expecta-
tion then formed—that the volume of
trade during the then current year would
exceed that of any other year in the his-
tory of the Dominion—has been fully
realized and that Canada's progress con-
tinues with every mark of stability and
permanency. It may be observed with
satisfaction that a large
proportion of this increase is shown to
have been due to the extension of our
commerce with Great Britain. It is
cause of thankfulness that our people
have been spared in a very great degree
from the sufferings which have visited
the populations of some other countries
during many months past, and that while
the commercial depression prevailing
abroad could not but affect the activity
of business in the Dominion, we have
been free from any extensive financial
disaster or widespread distress.

"The revenues of the year have been
ample for the services which have been
provided for and have met the expecta-
tions on which the appropriations of last
year were based. The peaceful conclu-
sion, by the award of the arbitrators at
Paris, of the controversy which has pre-
vailed so long with respect to seal fish-
eries in the Pacific ocean and the rights
of British subjects in Bering sea has re-
moved the only source of contention
which existed between Great Britain and
the United States in regard to Canada.
There is every reason to believe that her
majesty's government will obtain redress
for those Canadian subjects of her ma-
jesty who were deprived of their prop-
erty and liberty without just cause while
the controversy was in progress.

"At an early date a measure will be
laid before you, having for its object the
revision of the duties of customs, with a
view to meet the changes which time has
effected in business operations of all
kinds throughout the Dominion. While my
ministers do not propose to change the
principles on which existing enactments
on this subject are based, the amend-
ments which will be offered for your con-
sideration are designed to simplify the
operation of the tariff and to lessen, as
far as can be done, consistently with
the revision of the duties of customs, with
the requirements of the treasury, the imposts
which are now in force.

"There will also be laid before you a
measure on the subject of bankruptcy
and insolvency which, it is hoped,
make more adequate provision than now
exists on that subject for the increasing
trade and commerce of the country and
for the greatly expanded trade between
the several provinces of Canada.

"Measures will also be submitted to
you, making more effective provisions
for our lines of steam communication on
the Atlantic and Pacific oceans; for im-
proving the law with regard to Domini-
on lands, and with regard to the man-
agement of Indian affairs; also a bill
respecting joint stock companies; and
with respect to fisheries, and several less
important measures which experience
has suggested with regard to the various
matters under your control.

"The public acts will be submitted to
you at an early date, and also estimates
of the expenditure which has been con-
sidered necessary for the ensuing year.
While it is hoped that the public mea-
sures which will demand your attention
will not be very numerous, some of
them will be of great weight and im-
portance, and it is my earnest hope and
prayer that the care and zeal which you
will apply to the deliberations of the
session may be aided by the abundant
blessing of the Almighty."

ANOTHER CANAL SCHEME.

Waterway From the Lake of the Woods to
Lake Superior Proposed.

WASHINGTON, March 15.—[Special to
The Herald.]—In response to an inquiry,
Maj. Jones, of the engineer corps, has
written a letter to Representative Kiefer,
suggesting that he get an item into the
river and harbor bill, making an approp-
riation for a survey of the Vermilion
river to Rainy lake, with the idea of
opening up a line of water transporta-
tion from the southern extremity of
Lake of the Woods to Lake Superior.
The Duluth & Iron Range railway
would strike this line at two points—
Tower and Ely.

It is too late to get any appropriation
in the river and harbor bill for this pur-
pose, but Col. Kiefer will make an effort
to have the item tacked to some other
bill.

Admiral da Gama and His Marjones Will Leave
Brazil.

LISBON, March 15.—According to dis-
patches received here from Rio today,
Admiral da Gama is on board the Portu-
guese warship Mindello, with 500 of his
sailors and marines.

The dispatches say that the refugees
will be brought to Portugal.

IRON TRADE REVIEW

A Slightly Bright Patch Put on the Generally Quiet Aspect of the Iron Market.

New Business of Fair Proportions Appearing Here and There Gives Cause for Better Feeling.

Pig Iron Producers Note an Improved Demand, But Sales Are at Still Lower Prices.

CLEVELAND, March 15.—The Iron Trade Review says today: "Here and there the appearance of new business of fair proportions puts a bright patch on the generally quiet aspect of the iron market, but the monotony is not sensibly relieved. A decrease of 2500 tons in stocks of coke iron in February is regarded as significant, in some quarters, but the additions to the list of active furnaces since March have already turned the balance the other way."

"Pig iron producers note a slightly improved demand. Sales are at still lower prices, but the few buyers who want to cover requirements several months ahead find that fresh concessions are out of the question. The gaping disproportion between capacity that insists on keeping active and the demands of a lame and halting trade is newly emphasized with every week, and minimums like \$15.25 on Bessemer pig, \$1.10 Pittsburgh on beams and 45¢ on car wheels are the result."

"The prodigious output of heavy machinery that kept the foundry cupolas of the country perpetually hot, in 1892 and the early part of 1893, has to a large extent dropped out of the account. In the West increased activity in car works has led to larger buying for that industry, but the railroads are still holding off. In the East scattering sales of rails are reported, and there are indications that the \$24 pool price has been shaded."

Mesaba Ore Sales.

NEW YORK, March 15.—The Iron Age says today: "Reports are current of additional sales of Lake Superior ore, the transactions this time including Mesaba ores other than those controlled by the Minnesota company. There is no doubt that Mesaba Bessemer ores have sold at \$2.25 at lower lake ports and there is evidence pointing to the fact that such figures have been made by the Rockefeller interests."

PREFERRED DEATH TO CAPTURE.

A West Virginia Murderer Killed Himself When About to be Arrested.

FLEMINGTON, W. Va., March 15.—James Robinson, a prosperous farmer of Tyrone, Taylor county, yesterday shot and killed Humphrey McDonald, also a well-to-do farmer, as the result of a quarrel over the sale of a piece of land.

Robinson then barricaded himself in his house and defied the authorities. The sheriff with a posse of twenty-five citizens left at 3 o'clock last night and surrounded the house. Finding capture certain, Robinson fired three shots into his head, inflicting fatal injuries.

Raided by Russia.

LONDON, March 15.—The Times has received a dispatch from its correspondent in St. Petersburg stating that the council of the empire has ratified the Russian commercial treaty with Germany.

Hon. James L. Owen Dead.

JOLIET, Ill., March 15.—Hon. James L. Owen, 70 years old, died yesterday from a tumor. Mr. Owen was one of the best-known men in Illinois. He was immensely wealthy, leaving his money to relatives, having no wife or children.

Big Gold Strike.

LEADVILLE, Colo., March 15.—Another big gold strike has been made in the Nettie Morgan shaft on Brece Hill. The ore body is eight feet across and appears to be a large one.

NEW ANTIDOTE FOR POISON.

Permanganate of Potash Revived a Man Who Was Blue in the Face.

PITTSBURGH, March 15.—At 9 o'clock Tuesday night George Dundear took five ounces of laudanum with suicidal intent. A physician used all ordinary means for resuscitation, but with no avail. As a last resource, Dundear was removed to the Homeopathic hospital.

Notwithstanding the fact that the would-be suicide was blue in the face and his nervous system paralyzed, Doctors Morland and Gregg resolved to try the newly discovered antidote, permanganate of potash. The doctors had no data to go on, and could only use experimental doses of the remedy.

With the fifth injection the muscles began to contract. Seven injections in all were made and the patient was pronounced out of danger. This is the first time that this treatment has been used in this city. It was only the apparent hopelessness of the case that prompted the physicians to attempt the use of the new antidote.

CHANGED HIS PLEA TO GUILTY.

The Paying Teller of the St. Nicholas Bank Given a Four Years' Sentence.

NEW YORK, March 15.—Lewis J. Hill, ex-paying teller of the defunct St. Nicholas bank, who was indicted for the grand larceny of \$368 of the bank's money, Dec. 20 last, appeared before Recorder Smyth yesterday and withdrew his plea of not guilty and entered a plea of guilty of grand larceny in the first degree.

Hill's total defaultations as discovered by State Bank Examiner Judson aggregated over \$2,000. Recorder Smyth, in sentencing him, said he had been informed by the district attorney that Hill had given some important information to the officials of the general affairs of the St. Nicholas bank. In consideration of this service he would not impose the full penalty for his crime. He then sentenced Hill to four years and three months in state prison.

POISON IN THE CHICKEN.

All the Guests at a Wedding in Boston Were Made Sick.

BOSTON, March 15.—At an early hour yesterday morning all of the physicians residing in the Jewish district at the North were aroused from their slumbers to attend patients suffering from a malady resembling poisoning.

The afflicted had been guests at the festivities of a marriage and all ate heavily. Among the meats served were pickled tongue and cold chicken and it is said there was a peculiar flavor to the chicken. In all about sixty cases are being treated. No fatalities have yet occurred.

Foul Play Feared.

TUNKIANNOK, Pa., March 15.—This place is much mystified over the disappearance of Henry Harding, a prominent lawyer. He left town two weeks ago ostensibly to attend the G. A. R. encampment. He did not go there and was last seen at Scranton. He is supposed of considerable wealth and a lucrative law practice. His domestic relations were pleasant and no cause can be assigned for his disappearance. Foul play is feared.

Jurisdiction Over Railroads.

WASHINGTON, March 15.—Mr. Bell, of Texas, offered in the house yesterday a bill providing that all United States railroad corporations or railroad corporations or companies organized or incorporated under or by virtue of any law of the United States, shall, for purposes of jurisdiction, be held and deemed citizens of the state or states into which their lines run.

Pleaded Guilty to Stealing.

NEW YORK, March 15.—Henry C. Wislizenus, formerly a bookkeeper in the United States National bank of this city, pleaded guilty in the United States circuit court yesterday to a charge of misappropriating \$35,000 of the bank's funds. He was remanded for sentence. The penalty for his crime is from five to ten years.

An Overdose of Morphine.

PERU, Ind., March 15.—Miss Florence Hathaway, 16 years of age, and the daughter of a well known Milwaukee family, has been visiting in this city for some time. She was found dead in bed yesterday and an investigation shows that she had taken an overdose of morphine to allay pain.

Cleveland Democrat Elected.

CHARLESTON, S. C., March 15.—Nearly complete returns from the election in the first congressional district for a successor to William H. Brawley, resigned, indicate the election of James J. Blair (Cleveland Democrat) over J. William Stokes (Ocala Democrat) by a majority of about 1000.

The Floyd's Case.

MINNEAPOLIS, March 15.—The fate of the Floyd's will not be decided until Friday. The motion for a new trial was argued yesterday, but County Attorney Nye asked time to file counter affidavits, and the court decided to continue the matter until Friday, and further decided not to pass sentence until after the motion for a new trial was disposed of.

His Skull Fractured.

ALTOONA, Pa., March 15.—Last Saturday night Joseph Bender, a German brewer, and a man named McCormick engaged in a fight, during which McCormick struck Bender in the forehead with a stone. Bender died yesterday from a fracture of the skull.

An Embesment Caught.

CHICAGO, March 15.—Elmer E. Cummings, who is said to have embezzled \$8000 from Charles D. Painter, a wholesale grocer at Cairo, Ill., for whom he was bookkeeper, has been arrested here and taken to that place to stand trial.

No other medicine has equalled Hood's Sarsaparilla in the relief it gives in severe cases of dyspepsia, sick headache, etc.

ALL SCORE ROSEBERY

The English Tory Papers Attack the Rosebery Ministry for the Policy It Is Pursuing.

Liberal Journals Assert Tuesday's Sorry Situation Cannot be Repeated and the Ministry Remain Stable.

Parallels Have Issued Another Manifesto Pointing Out That Their Previous Warnings Have Been Verified.

LONDON, March 15.—The Times, (Conservative) says: "Freed from the magic of Mr. Gladstone's domination, the government majority are already splitting up and are ready to accuse one another of treachery. We have no sympathy to waste on the ministers for disasters in which they have involved themselves by insincere endeavors to satisfy their extreme and empty-headed followers with big and noisy phrases."

The Standard, (Conservative) says of the government's course in the house of commons yesterday: "Whatever applause the government might have gained from certain quarters by denouncing the house of lords, they have assuredly forfeited by this exposure of their insincerity. They have brought disaster upon themselves, and they fully deserve the ridicule which they will have to endure."

The Parallels in parliament have sent out another manifesto. They point out that their previous warnings as regards the slighting of Irish rights under the new government have been verified much sooner than they expected. No crisis so grave as the present one, they say, has arisen since the death of Parnell. They close their manifesto with a call for a national congress in Dublin on April 3.

The Daily Chronicle (advanced Liberal) says: "If the government is going to be a stable one, the sorry situation created on Tuesday must have no successor. We warn the government that the Liberals cannot win the next election unless a clear statement of policy respecting the house of lords be put before the country, which will not be satisfied with the existing expressions of pious opinion."

Michael Davitt (anti-Parnellite) has a letter in the Daily Chronicle of this morning. In it he declares it is a ridiculous and unwarranted assumption that the Irish support Mr. Labouchere's amendment of the address. Davitt says, and they were prompted when they voted with Mr. Labouchere, merely by the passionate declaration that the house of lords must be abolished. The crisis has done more good than harm all around, Mr. Davitt thinks, and has cleared the air of many unworthy rumors.

The Daily News (Liberal) says of the approval of the cabinet's substitute address: "This solution of the difficulty is not only the best that could be found, but is also convincing proof that the defeat of the government implies no split in the Liberal party."

Evan Jones, a Liberal member of parliament for a Welsh constituency, has received from Mr. Gladstone a letter in which the premier says: "Apart from every political question and looking to my sight and hearing, the only choice before me was between resignation at the close of the session and a continuance of the struggle against difficulties best known to myself, with certainty that the struggle must in any case have terminated in the midst of the business of the session with much greater inconvenience to everybody interested."

Stabbed His Steplather.

COLUMBUS, Ohio, March 15.—George R. Chapin, aged 22, stabbed his stepfather, Henry Gardner, twice in the back at 145 Grubb street, yesterday. Gardner will probably die. Chapin escaped. It was the outgrowth of an old quarrel.

Killed by Lightning.

BIRMINGHAM, Ala., March 15.—Near Damascus Tuesday night a storm arose and lightning struck a buggy in which were Charles Thompson and wife, setting fire to it and killing both.

"The Chicken" Was Winner.

TOWNE, Minn., March 15.—"The Minnesota Chicken" from Duluth bested John Nichols, "the Tower Diamond," in the fourth round Tuesday evening before the Tower Athletic club for a purse and the gate receipts. "The Chicken" fought a draw with William Skewes, the Mesaba champion, last Saturday. The fight was with 4-ounce gloves.

Charged With Ticket Stealing.

MILWAUKEE, March 15.—J. L. Sneed, a young man about 30 years old, who came here to start a railway ticket broker office, was arrested yesterday. He will be taken to Columbus, Ohio, where he is wanted on a charge of stealing 1000-mile tickets from a Pennsylvania railway.

Was Tired of Living.

LOUISVILLE, March 15.—Ike Starr, a bookkeeper, 25 years of age, committed suicide yesterday afternoon at 2 o'clock by shooting himself. He had been in ill health for some time and this is supposed to have led to the rash act.

"Perhaps you would not think so, but a very large proportion of diseases in New York comes from carelessness about catching cold," says Dr. Syrus Edison. "It is such a simple thing and so common that very few people, unless it is a case of pneumonia, pay any attention to a cold. New York is one of the healthiest places in the Atlantic coast and yet there are a great many cases of catarrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is, when you have one get rid of it as soon as possible. By all means do not neglect it. Dr. Edison does not tell you how to cure a cold but we will. Take Chamberlain's Cough Remedy. It will relieve the lungs, and expectorate the open secretions and soon effect a permanent cure. 25 and 50 cent bottles for sale by druggists."

POISONED BY STUDENTS.

Verdict of the Coroner's Jury in the Case of the Colored Cook.

ITHACA, N. Y., March 15.—The coroner's jury in the case of Henrietta Jackson, the colored woman who met her death on the night of Feb. 20 from chlorine poisoning, has rendered a verdict that the woman came to her death by reason of the inhalation of chlorine or other irritant gas, manufactured and introduced into a room in the Masonic block in the city of Ithaca by persons unknown, and it now remains for the grand jury to find the perpetrators if possible, but from present indications they will not be successful.

TRIED TO KILL HIS WIFE.

An Indiana Man Stabbed His Wife and Tried to Suicide.

DUNQUE, Iowa, March 15.—A. R. Beal came here from Hartford City, Ind., Sunday for the avowed purpose of recovering his wife, who had left him on account of non-support, or of killing her.

The negotiations were not satisfactory to Beal, and when he met his wife in the street he made a savage attack upon her with a penknife, inflicting serious wounds in her neck. Beal, when seized by bystanders, tried to kill himself by slashing his throat with the knife. Both will recover.

WANTS TO VISIT DULUTH.

President Cleveland Contemplating a Trip to Duluth Next Summer.

WASHINGTON, March 15.—President Cleveland contemplates taking a trip to the Northwest during the coming summer.

Private Secretary Thurber said yesterday that the president was desirous of visiting points on the great lakes, Duluth, Superior and the Soo.

J. J. Hill has invited Mr. Cleveland to be present when the Northern Steamship company launches its new vessel.

Gen. Fave Dead.

PARIS, March 15.—Gen. Fave died here yesterday. He was born at Dreux in 1812 and entered the army from a military school and in 1850 obtained the rank of colonel. In 1875 he was appointed commandant of the Ecole Polytechnique in Paris and soon afterwards was brigadier general. In 1874 he became a grand officer of the Legion of Honor and two years later was elected to the Academy of Science.

Fatal Accidents.

BAKER CITY, Ore., March 15.—An Oregon short line went into the ditch near Mountain Home Tuesday night, causing the death of the fireman, mail clerk and three tramps. A freight train was derailed near Durkee about the same time by striking a cow. Brakeman R. Phillips, of La Grande, was killed and Fireman Lassef fatally injured.

Earthquake in Iowa.

WOODWARD, Iowa, March 15.—A small earthquake passed about five miles northwest of this place Tuesday night at 11 o'clock, shaking the buildings considerably and frightening stock, but doing no damage. It seemed to pass from the northeast to the southwest, sounding like distant thunder.

Murdered and Robbed.

BIRMINGHAM, Ala., March 15.—The charred remains of Mr. and Mrs. Anthony Thomas were found yesterday in the ashes of their home near Elba, Coffey county. They were old people and were murdered and robbed and then burned in their home. No arrests have been made.

WARLIKE IN DENVER

The Governor Has Called Out the Militia To Take Possession of the City Hall.

Over One Hundred Patrolmen Awaiting An Attack and Chief Stone Will Hold the Building.

The Sheriff Awaiting Orders From Judge Graham and Will Move Under the Court's Directions.

DENVER, March 15.—Matters took decidedly warlike today. At the armory on Curtis street, the militia are assembled and getting ready to march upon the city hall at 1 o'clock. The artillery horses are harnessed; sentries are posted about and no one is admitted. The armory holds considerable stores of ammunition, but it is believed no orders have yet been issued to use any deadly missiles.

At the city hall over 100 patrolmen are on hand awaiting an attack. The building is guarded at every point, and a great crowd of idle men swarm about the streets in the vicinity of the hall. Chief of Police Stone stated this morning that he will hold the hall against all attacks. If it takes dynamite to do it, the disposed police commissioners are in their office prepared to resist all efforts to dislodge them.

The sheriff is awaiting orders from Judge Graham, of the district court, and the latter has declared that he will await the moment when the militia attack the hall before he will move. A call for a mass meeting is being circulated to organize a committee of safety, and this means at attempt by mob force to capture the governor, against whom the most incendiary expressions are heard upon every side.

While it is probable that no violent action will occur, the possibility of mob violence is imminent even to the extreme act of an attempt to lynch Governor Waite. The attorneys of Martin and Orr have just submitted to the counsel for Governor Waite a proposition to submit to the supreme court the questions of the right of the governor to call out the militia unless requested to do so by the sheriff.

Orders have been issued to the militia to hold in readiness to move at 2 o'clock. Governor Waite has not been visible this morning. Governor Waite's attorneys refused the arbitration proposed.

THE SEIGNIORAGE BILL PASSED.
It Went Through the Senate by a Majority of Thirteen.

WASHINGTON, March 15.—The senate at 12:30 p. m. proceeded with the consideration of the Island Seigniorage bill. Mr. Carey continuing his speech against the bill. Mr. Duffie and Mr. Mitchell also spoke, and both declared that while they would vote for the measure they would prefer voting for a free coinage bill.

At 2 o'clock Mr. Harris resumed the senate of the unanimous agreement by which the vote was to be taken at that hour on the final passage of the seigniorage bill and demanded that the vote be then taken. The yeas and nays were recorded. The seigniorage bill was then passed by a vote of yeas 44, nays 31.

The House.
WASHINGTON, March 15.—After passing the bill giving the officials in Oklahoma the right to lease school lands, the house at 12:30 took up the sundry civil appropriation bill, in committee of the whole.

The West Virginia Strike.
CHARLESTON, W. Va., March 15.—Representatives of all the striking miners are in session at Montgomery today. No decision has been reached up to now, but it is believed the strike will be declared off, as large numbers of the miners are breaking away from their leaders and returning to work at the half cent reduction. The riot spirit has been apparently crushed.

Shooting by Miners.
MIDDLESBORO, Ky., March 15.—The trouble at the mines still continues. Night before last, like Miller, a union man, shot and killed Hill, a non-union man. Miller escaped. Yesterday Bill Lashley shot and seriously wounded H. Collins. Lashley was a Knight of Labor and Collins a unionist.

Rhode Island Republicans.
PROVIDENCE, March 15.—The Republican state convention today re-nominated D. Russell Brown for governor, Edward R. Allen for lieutenant governor and Charles P. Bennett for secretary of state.

WHEAT FIRM AND ACTIVE.
Large Quantities of Track Wheat Sold at May Prices Today.

The wheat market here today was fairly active and steady, prices ruling 1/2c above those at Chicago. The business in futures was about equally divided between May and July. May started at 56c below last night's close, gained 1/2c during the early part of the session, which was followed by a further decline of 1/2c, but it closed stronger, July opened 1/2c off and sold down 1/2c, subsequently recovering. There was large trading in track wheat in big lots. May prices. The close was firm at yesterday's prices, except July which was 1/2c higher. The following were the closing prices:

THE BASEBALL FIELD

Caylor, the Well-Known Authority on the Game, Describes the Changes in Rules.

Hereafter a Foul Bunt Hit Will Count as a Strike Against the Player Batting.

Fly Ball to the Infield, If the Field Reaches It, Is Out If Not Caught.

The month of March is the period when professional and amateur baseball players prepare for the work of the season just ahead. In little more than a month championship games will be daily events. Meanwhile the clubs are gathering together their best players, and the season is being looked forward to with interest and hope.

About the first of the major teams to appear on the diamond will be the St. Louis Browns. Mr. Von der Ahe, like the loyal Irishman he is, has arranged a game in St. Louis for St. Patrick's day in the afternoon. Mr. Von der Ahe has always been considered a shrewd manager, and this last bid for the Irish patronage does him credit.

Several of the League teams will report at Hot Springs, Ark., for the opening of the season. The champion Boston will make a trip down into Virginia, and a few teams will train at home. The Southern League has scheduled its championship season to begin April 1. The National League opens its race April 10, and the Eastern and the Western leagues begin operations about May 1.

Every indication points to a wonderfully prosperous season throughout the United States. The National League, Eastern League, Western League, Southern League, Pennsylvania State League and several minor state leagues are already fully organized and equipped and are preparing for championship struggles. One of the most distinctive features of the spreading popularity of the national game is the fact that while the Mississippi valley last year had no minor league organization that year, this year it has one in every state.

The announcement that the National League clubs paid off nearly \$100,000 of indebtedness last year, and that almost every one of them made money besides in the face of a business depression, showed how the interest in the game was growing. It is not a rash prediction to say that the popularity of the national game is the fact that while the Mississippi valley last year had no minor league organization that year, this year it has one in every state.

Gossip.
Received over private wire of B. E. Baker, agent and stock broker, room 107, Chamber of Commerce.

The weather and lower cables opened the wheat market weak. It was generally believed that the weather would be favorable for the crop, and a half cent rally followed. Clearances today were heavy, and prices for the sea board, and a cargo of 30,000 No. 2 corn was cleared at Chicago today.

Corn and oats weak on realization by the elevator. Provisions strong. Stock market weak and lower.

An Extraordinary Offer!

Almost anybody is willing to sell property in such times as these for half cash, or one-third cash, but I can do much better than that.

I have for sale, at a sacrifice, a handsome and an unusually commodious 12-room house, with all modern conveniences, and a large barn accompanying, all situated on a beautiful 24-foot corner lot, in the East End and within one block

the receipt of deeds in the City of St. Louis, Missouri, on the 10th day of March, 1890, at St. Louis, in Book 52, at page 553.

Said deed and mortgage and the deed thereon secured and the mortgage note thereon secured were assigned to the undersigned by Van Dusen, the original owner and holder thereof, with assignment of the benefit of the same to the undersigned, bearing date July 10th, 1889, and recorded in the office of said recorder of deeds in the City of St. Louis, Missouri, in Book 117 of mortgage, page 268.

And whereas, by the terms of said mortgage, the said land was to be paid in twenty dollars, interest thereon, to be paid on January 1st, 1893, and one hundred dollars, interest thereon, to be paid on January 1st, 1894, all of which was paid by the undersigned on the date of this notice, due, owing and unpaid, and the balance of the principal of said loan was paid on or about March 1st, 1894.

And whereas, said mortgagee and mortgagor are enjoined that upon default in the payment of the principal and interest due on said mortgage, the said mortgagee shall have the right to foreclose on said mortgage and to sell the same at public auction, and to retain the balance of the proceeds of said sale for the period of ten days after said sale, and to pay the balance of the proceeds of said sale to the holder thereof at his option, pursuant to which and in the exercise of such option the said mortgagee has caused the same to be sold and conveyed by said mortgagee, hereby declared and claimed to be due and is due, owing and unpaid to the said holder thereof, the sum of thirty-one hundred seventy-six and 31/100 dollars, principal and interest.

And whereas, said mortgage contains a power of sale, which by reason of said default, has become operative and no action or process at law or in equity is necessary to enforce the same, and the said mortgage is due and owing to the debt or any part thereof secured by said mortgage.

Now therefore notice is hereby given that the virtue of said power of sale and pursuant to the same, the said mortgage has been made and provided to be sold and conveyed to the said holder thereof.

Store Open Monday and Saturday Evenings.

Perhaps the most seductive advertising in the daily papers just now is that devoted to Boys' Clothing. Almost like reading a fairy tale. Doesn't it puzzle you just where to go when you start out to buy the Boy's suit? Of course you want to get the best. Can't we help you to run that to cover in the right store? You're after three important results.

FIRST. ADAPTABILITY You want to please the eye, fit his body and character and worth about ours than a landful of others. See the pulled sort, then see ours. Then buy your Boys' Clothing.

SECOND. DURABILITY You want the best wearing qualities.

THIRD. ECONOMY You do not want too pay too much. That's the combination in our Boys' Clothing. Put ours side by side. We'll neither clinch nor fall back.

KILLED THE BOY

Explosion of Dynamite in the House of Edward Wagner in the East End This Morning.

One Son, Otto, Thirteen Years Old, Killed Outright and Others of the Family Injured.

The Dwelling, a Small One, is Badly Wrecked and the Furniture Was Torn to Pieces.

Wagner Had Placed the Dynamite Near the Cook Stove and Had the Boy Watching It.

At 7:05 o'clock this morning three sticks of dynamite exploded in the house of Edward Wagner at 8½ Eight avenue east, killing one boy, badly injuring Mrs. Wagner, scratching several others more or less and badly wrecking the building. Wagner is a German laborer and at present has a job at well digging on hand. In his work, it has been necessary to blast rock by the use of dynamite. This morning, Wagner, while he was eating his breakfast, placed some frozen dynamite by the cook stove and directed his 13-year-old son to watch it. All at once the whole neighborhood was shaken and started by a loud explosion. The air was full of flying debris and hastening to the scene the neighbors saw a fearful sight. A 13-year-old boy, Otto Wagner, lay gasping his last, with his chest all crushed in and his face mutilated and smashed out of shape. The mother lay stunned and bleeding. She had a bad cut on one knee, her face was scratched up and her eyes were blinded and filled with flying fragments from the explosion. A 13-year-old boy was bruised and bleeding and the father and two other children were more or less scratched up.

The neighbors, as soon as they located the accident and realized its results, hastened to the scene. Finding that an ambulance would be necessary to take the mother to the hospital, he sent the cut on the leg, up to St. Luke's following with Mrs. Wagner as soon as the ambulance arrived.

Superintendent Thomas Clark hastened to the scene. Finding that an ambulance would be necessary to take the mother to the hospital, he sent the cut on the leg, up to St. Luke's following with Mrs. Wagner as soon as the ambulance arrived.

There were seven in the family. One of the smaller children was up in the attic. When the explosion took place he jumped out of bed in his night clothes, ran down some outside stairs and into a neighbor's house, scared nearly out of his senses. The two remaining children and the father were not injured in any way. The explosion was heard beyond scratches of no great seriousness. Everything in the room where the dynamite exploded looks as if it had been run through a rock crusher. A big hole was blown through the floor, crushing and breaking down the joists beneath. The stove and other furniture were reduced to splinters and kindling wood. The ceilings were shattered and the plaster in all the rooms more or less jarred down. Then all was blackened by the smoke and the force of the explosion.

The windows were blown out and the glass in the adjoining houses broken. Through a window on the east side, a burning needle was blown into the siding of an adjoining building about ten feet from the ground, penetrating head first, the siding nearly a third of its length. Out of a south window, a very small one in a pantry, a can of indigo or "blueing" was thrown out. It fell only a few feet from the window, but the snow for two rods looked as if sprayed with indigo from an immense atomizer. On the west side a triangular piece of glass was driven into the siding of a building only a few feet away.

Just before noon Mrs. Wagner was resting easily at the hospital, and the attendants thought that her eyesight would be saved. The cuts on her knee and on her head were not so severe as at first thought. The little girl was getting along nicely also. The eldest son, 15 years of age, pretty well escaped cuts, but he was deafened as also was the elder Wagner—in fact the whole family.

The Wagner's are poor people and their home is a very humble one. Mrs. Wagner is a hardworking woman and she has taken in washing right along to support herself and children. The husband is none too highly spoken of and the neighbors say that it was only a few evenings ago when he got on a "tear" and drove all his family out of doors. There is much indignation expressed

around town over the criminal carelessness with which the dangerous dynamite was handled.

WAS GUNNING FOR GIBBS.

Sidney Drew Searching for a Man Who Married Phyllis Rankin.

ATLANTA, Ga., March 16.—A full house in the Grand theater assembled to witness the "Road to Ruin" by the Drew company, was detained for half an hour by some hitch behind the curtain. It proved to be that Sidney Drew was of the company, who had secretly married Miss Phyllis Rankin, daughter of McKee Rankin, in Charleston.

The company first heard of the romance the night before in Columbus, where the young couple exposed on the night train. The company was billed to appear in Atlanta last night, and it was only a few moments before the play was to begin that Sidney Drew discovered that his pretty cousin and her husband were in the city.

The worthy actor's search being unsuccessful he wrote a card for the press in which he said that in every way that society and good breeding demands, Gibbs is positively without cause for existence.

Notorious Character Shot.

PEORIA, Ill., March 16.—"Big" Jack Whittaker, a notorious character of this city was shot and killed by Officer Herndon yesterday, near the city limits. Whittaker was wanted for assault and the officer was in pursuit when "Big" Jack opened fire on him, making a desperate fight to get away. The officer shot at him, hitting him in the back, killing him instantly.

Shot By a Bartender.

NEW YORK, March 16.—A disturbance occurred in Sheridan's liquor saloon on Third avenue at 545 this morning, during the progress of which two men were shot and dangerously wounded. They are Samuel Barron, a jeweler, 30 years old and George Adams, a salesman, 24 years old. Barron was shot in the left hip and Adams in the left shoulder. The shooting was done by a bartender, Angelo Bianco, who is now under arrest.

Poison in Horse Radish.

EFFINGHAM, Ill., March 16.—William E. Powell, a farmer living west of this city, and seven of his children are in a dangerous condition, the result of eating poisonous radishes. The horse radish had been put into an empty tomato can and in a short time it absorbed poison from the tin.

Convicted of Murder.

LANCASTER, Ohio, March 16.—The trial of Edward Baechler, for the murder of Thomas J. Davis, ended last night in a verdict of guilty. The evidence was entirely circumstantial, and conviction was brought about as much by bad personal character of the prisoner as by the evidence. Davis was killed Dec. 23 last, in Baechler's disreputable resort.

He Was Despondent.

PEORIA, Ill., March 16.—Yesterday Herman Johnson, an old resident and ex-freeman of this city, committed suicide at his home 107 North street, by shooting himself in the head with a 40-caliber revolver. He had been in poor health for some time and despondency over it is supposed to have led to the act.

Right of Way Bills Passed.

WASHINGTON, March 16.—The following senate bills were passed by the senate yesterday: Granting to the Duluth & Winnipeg Railroad company right-of-way through the Chippewa and White Earth Indian reservations in Minnesota; and granting the right-of-way to the Duluth & Manitoba Railroad company across the Fort Pembina reservation in North Dakota.

A Minneapolis Scandal.

MINNEAPOLIS, March 16.—The arrest of Clinton H. Nickells yesterday afternoon on a charge of adultery with the wife of Willis H. Graham, proprietor of the Novelty China company, is likely to develop a high life scandal. Mrs. Graham recently went to Washington, N. D., with Nickells and began divorce proceedings.

An Artist's Suicide.

ST. LOUIS, March 16.—Louis F. Wolf, an artist living at 4145 Delmar avenue, and doing business at 210 North Fourteenth street, shot himself through the heart in the saloon of Hurley & Klein, 2214 Pine street, about 10 o'clock this morning. It is thought Wolf was out of money and was despondent.

Arrested on Suspicion.

LONDON, March 16.—Acting upon advice from Paris, the London police raided a house in Bennett street west last evening and arrested a Frenchman who is believed to have been partly responsible for the explosion in the church of the Madeleine, Paris, yesterday.

Desperate Battle.

GUTHRIE, Okla., March 16.—News reached here last night by courier of a desperate battle between the six outlaws whom the deputy marshals have been chasing several days. Two of the outlaws were shot and seriously wounded.

Herbert Gladstone Re-elected.

LONDON, March 16.—Herbert Gladstone has been re-elected to parliament as the representative of West Leeds without opposition.

MISS POLLARD'S TALE

Plaintiff in the Breach of Promise Case Tells of Her Relations With Col. Breckinridge.

The Story of His Promises to Marry Her and of the Way He Seduced Her.

He Introduced Her to Mrs. Blackburn as His Future Wife, as That Lady Testified.

WASHINGTON, March 16.—Madeline Pollard, attired in the same neat-fitting blue gown and the little chip bonnet that she has worn every day at the trial of her suit against Col. W. C. Breckinridge, was an early comer to the criminal court room this morning. Usually Miss Pollard has entered the courtroom, when she came at all, just as the trial was about to begin and formally convened the court. None of the attorneys on either side were present when Miss Pollard entered. Miss Pollard looked up, but apparently did not see him.

There was a whispered consultation for a minute between Mr. Carlisle and his client, and the rumor went around the court room that Miss Pollard would be placed on the stand as the first witness. Then Judge Wilson and Mr. Carlisle held a confidential talk, during which they examined a number of letters that the rumor began to be stated as a fact. There was a wait of twenty minutes and then Miss Pollard, at a word from Judge Wilson, rose from her seat and made her way to the witness stand.

"Silence," said the crier as a buzz of excitement went up. Miss Ellis took her seat next Miss Pollard, who gave her name in a firm manner, and answered Mr. Carlisle's questions in a steady voice that sometimes became almost too loud.

Mr. Carlisle's preliminary questions were about Miss Pollard's parentage. In answer to Mr. Carlisle, Miss Pollard said: "In the very last days of August, 1892, Mr. Breckinridge met me at the Baltimore & Ohio railway station. 'How did he greet you?' 'He drew me to him, kissed me, and put me in a carriage, and we were driven into the country.' 'What did he say in the carriage?' 'He told me that he had something to tell me, and he said he was vain enough to think I would be glad to hear it. He said the children were all grown up now and that there was no reason why he should not marry, he said he would marry me and I would have a home.' 'Where were you stopping during this stay in Washington?' 'At 25 Lafayette square.' 'During your few days stay at this time was the subject of marriage mentioned?' 'Yes, frequently.' 'Where did you go from Washington?' 'I went to New York, where Mr. Breckinridge joined me. The subject of marriage was mentioned during those few days.' 'Did he say anything about when the marriage should take place?' 'Yes, he said he had waited fourteen months after the death of his first wife before taking a second wife and he thought a year would be sufficient to wait for our marriage.' 'Did you agree with him?' 'No, I said that more consideration was due his children, that we should wait at least two years.' 'Was there anything said further?' 'Yes, I said that Mrs. Willard, who keeps a young lady's school in Berlin, was going back to Europe with her two daughters and I thought that if I went with them I could take a course of study there while the engagement lasted. It would cost about \$1000 a year, and it would be better that I should go there.' 'Did you receive any note from Mrs. Willard about the trip?' 'Miss Willard, who was stopping at Gray Gables (the summer home of President Cleveland at Buzzards Bay), wrote me that she hoped I would go with them.' This note was produced and read by Mr. Carlisle.

Miss Pollard was also questioned concerning her residence at 25 Lafayette square where she said Mr. Breckinridge called on her frequently and said many times that a year after his wife's death was sufficient to wait. 'I saw him always once a day, sometimes twice a day and during the evening,' she said. Miss Pollard said she had communicated the fact of her engagement to Mrs. Thomas, who lived at 25 Lafayette square, and also to Claude de la Roche Francis. She told of the conversation with Col. Breckinridge, which Mr. Francis said he overheard, in which Col. Breckinridge said he was sorry she had told Mr. Francis of their engagement. Miss Pollard also told the story of her presentation to Mrs. Luke Blackburn of Col. Breckinridge as her future wife and of his placing her in Mrs. Blackburn's charge as 'my future wife,' as testified to by Mrs. Blackburn a few days ago. Miss Pollard went on to tell of the time when she and the defendant went again to see Mrs. Blackburn and Miss Pollard asked Col. Breckinridge to tell Mrs. Blackburn when he intended to marry her. 'I knelt down beside his chair,' she said, 'and asked him that, and Mrs. Blackburn, I think, objected to this display of affection.'

Miss Pollard was asked concerning her visits to Dr. S. N. Lincoln and to Maj. Moore, superintendent of police, with Col. Breckinridge, on which occasion,

according to the testimony of Dr. Lincoln and Maj. Moore, Col. Breckinridge acknowledged his engagement to her. 'In 1884,' said Miss Pollard, 'I was summoned from school in Cincinnati to go to Frankfort, where my sister was very ill. Mr. Rodes put me on the car. A gentleman was in the car and coming over to me he said: 'Your face is familiar, don't I know you?' I said No, but I know who you are. Your are Col. Breckinridge. He sat down on the other side of the aisle and asked me if he might come to see me. I said my aunt and my mother would be very glad to see him at Frankfort. That was all that was said.'

Questions by Mr. Carlisle brought out the history of Miss Pollard's engagement to James C. Rodes. She had met him and he asked her to marry him. She said she did not want to marry then; she wanted to get an education first. He said if she would marry him he would pay for her education. Miss Pollard did not answer that she would marry him, but (to use her own words) 'I told him that if he would pay for my education I would either marry him or pay him back with interest. He agreed, and a paper containing the agreement was drawn up and signed in the presence of my mother.'

Miss Pollard said she did not keep the letters written her by Rodes; she always destroyed his letters. Col. Breckinridge and Mr. Stoll exchanged knowing smiles at this answer. She then told of Mr. Breckinridge's visit to her at Wesleyan college, Cincinnati, and of him taking her out in a closed carriage. He then took her to Sarah Guest's at Lexington, where they stayed from Friday night until Monday, when she left for Frankfort at his suggestion. She told of the birth of her first child in 1885 at St. Joseph's asylum at Norwood, where she registered as 'Mrs. Burgwynn.'

JOHN HART HANGED.
He Murdered His Two Sisters Owing to a Quarrel Over Property.

ROCKFORD, Ill., March 16.—John Hart was hanged in a stockade adjoining the county jail, this morning. The execution passed off without a hitch. Hart preserved the stolid demeanor on the scaffold that has characterized him since he committed the crime.

The crime for which Hart was executed was the murder of his two sisters, Mary and Nellie, on the afternoon of Sept. 5 last. His act was undoubtedly the result of trouble in the family over the division of the estate left by John Hart, the father of the three, who committed suicide two years ago, leaving much valuable property.

FIVE YEARS IN STILLWATER.

The Floyd Boys Were Sentenced at Minneapolis This Morning.

MINNEAPOLIS, March 16.—The Floyd brothers, who were convicted of complicity with Phil Scheig in the embezzlement of \$149,000 from the Bank of Minneapolis, were sentenced by Judge Jamison this morning to five years in the state prison at Stillwater.

Local Opinion Dealt.
DES MOINES, Iowa, March 16.—Prohibitionists registered two great victories in the general assembly today. The senate defeated the Carpenter local option bill by a vote of 24 to 12, and the house killed the committee bill for mulct and local option. The indications now point to no legislation whatever on this question.

Justice Sutherland Missing.
BROOKLYN, March 16.—The case of Police Justice Sutherland, who was on Wednesday found guilty of oppression in connection with the last election at Gravesend, has been postponed until Monday. Judge Brown refused to pronounce sentence because Sutherland was not in court. Bail was declared forfeited.

Strike Declared Off.
CHARLESTON, W. Va., March 16.—At the mass meeting of miners yesterday at Montgomery the strike was declared off. The news brings a sense of relief to all, especially miners.

Investigation Refused.
WASHINGTON, March 16.—By a vote of 105 to 81, the house has rejected Enloe's amendment looking to an investigation of the coast and geodetic survey with a view to transferring its duties to the navy and interior departments.

Capt. F. E. Brownell Dead.
WASHINGTON, March 16.—Capt. Frank E. Brownell, the avenger of Col. Ellsworth of the New York Zouaves, at the Marshall house at Alexandria, Va., on May 24, 1861, died in this city yesterday.

Alfred Merritt in Washington.
WASHINGTON, March 16.—(Special to The Herald.)—Alfred Merritt, of Duluth, arrived in the city today.

McKane's Appeal Granted.
NEW YORK, March 16.—Judge Lacombe has just granted McKane's appeal to the supreme court.

The District Court.
Before Judge Moer the case of George H. Schulenberg vs. White & Simpson is on trial today. The plaintiff claims to have been forced out of a partnership and is trying to force an accounting. Judgment was rendered for the plaintiff in N. F. Hugo vs. Charlotte E. Thompson et al.

Before Judge Lewis the case of W. C. Riley vs. Emil Schmed is on trial. The plaintiff sues to collect on a contract granting the right to the defendant for the news privilege on short line trains, at \$50 a month for about nine months. The defendant claims his exclusive privilege was interfered with.

The case of Duncan McEachern vs. W. H. Alden et al. was submitted on briefs.

Beriah Magoffin a Candidate.
Another candidate for the collectorship for the port of Duluth has come forward in the person of Beriah Magoffin. He has had an application in for some time and has been making a "still hunt" for the place. He is a close friend of Secretary J. G. Carlisle and may draw some strength from that source.

THE CAPITAL GOSSIP

The Agitation in England and Germany Regarding Another Monetary Conference Regarded a Good Sign.

While This Country Will Not Take the Initiative It Will Join in Any Conference.

Senator Brice Denies That Mr. Harter Asked Him to Place a Duty on Agricultural Implements.

WASHINGTON, March 16.—The agitation in England and Germany in favor of a renewal of the international monetary conference does not escape the watchful vigilance of this administration. It is considered a good sign, and it is believed in the end will be productive of important results. The position of this government in regard to the reassembling of the monetary conference has been very clearly defined by Secretary Cresham in his official communication to the Belgian government. In effect he said that, while the United States would not take the initiative in reassembling that conference, there is a unity of opinion in its deliberations upon invitation of European powers.

While there is much diversity of opinion among government officials as to what legislation, if any, should be passed by the United States favorable to silver as a unit of money value, there is a unity of sentiment favorable to disposing of the silver question, if possible, by an international agreement.

It is understood that the present bone of contention in the Bering sea matter is whether the *modus vivendi* is to be extended another year. The British government takes the position that until by legislative enactment the decision of the Paris tribunal is carried into effect, the *modus vivendi* remains in force.

The United States on the contrary, contends that when the Paris tribunal reached its decision the *modus vivendi*, after the expiration of the season, expired, and that from henceforth whatever was done by the two nations in protecting the seal life in Bering sea would come under the decision of the Paris tribunal. It is at this point that the hitch has occurred.

The Post says: The Post on March 14 published from the Cleveland Plaindealer a statement that Representative Harter asked Senator Brice to have agricultural implements taken from the free list, and we most cheerfully published the following correction:

"To whom it may concern: Mr. Harter not only did not ask me to have agricultural implements taken from the free list and placed on the protected list, but he did not even ask me to have any of the raw material and finished products taken from the protected list and placed on the free list. The position he took was that agricultural implements ought to be on the free list, but that Canada should not get the advantage of this until she also permitted implements made in the United States to be imported into her markets free of duty."

Calvin S. Brice.

The Railway Lost.

MILWAUKEE, March 16.—In the suit of the Chicago, Milwaukee & St. Paul railway company against Alfred M. Hoy, Charles Ray and Judge Johnson rendered a decision in favor of the defendants. The railway company wanted the defendants to pay interest on the amount of \$140,340 on Milwaukee & Northern bonds. Judge Johnson held that the defendants were not liable for the interest, which was an installment due on bonds that passed to the St. Paul company when it bought the Milwaukee & Northern.

A Fine Remitted.

NEBRASKA CITY, Neb., March 16.—Judge Chapman instructed Clerk of the Court Campbell yesterday afternoon that he would remit the fine imposed on Z. T. White for libeling J. Sterling Morton. White gave security for the costs and was released from custody.

America's Great Danger

AN ENGLISH COMMENTARY.

Said an eminent English scientist recently: "The danger that confronts the American people today is not the possible adoption of a wrong financial policy for the nation, or the spread of socialism, or the increase of corruption among public men. All these are bad enough, to be sure, but they are as nothing compared to the terrible national disease—I had almost said national crime—of overwork. The mad rush for wealth is set at a killing pace, and thousands will by the way every year."

You are likely to be one of the victims! How do we know? Because it is the exception to find a man or woman of adult age in perfect health. Nervous Disorders are spreading with fearful rapidity. Among the symptoms are: Backache, Biliousness, Cold Hands and Feet, Dizziness, Hot Flashes, Fluttering Sensation, Fainting, Headache, Hysteria, Irritability of the Heart, Melancholy, Failing Memory, Palpitation, Rheumatism, Short Breath, Sleeplessness, Nervous Dyspepsia, Sexual Debility, Fits, etc.

Rev. C. A. Chubb, pastor First Baptist Church, Yellow Springs, O., writes as follows: "I have used Dr. Miles' Restorative Nervine for the past six months. I find it acts like a charm on the whole nervous system. I have not found its equal in giving immediate relief. Dr. Miles' Little Nerve and Liver Pills only need a trial and they will recommend themselves to be the best pills in the market."

"For five years I have suffered from Nervous Prostration. I was unable to work or sleep. The first dose of Dr. Miles' Restorative Nervine gave me relief, and one thousand dollars would not cover the good it has done me."—JOHN MINCHER, Youngstown, Ohio.

"Dr. Miles' Restorative Nervine is unequalled in curing Nervous Diseases. It contains no opiates or dangerous drugs. Sold on a positive guarantee by all druggists, or Dr. Miles Medical Co., Elkhart, Ind."

THE WITHDRAWAL BILL.

Monroe Nichols Comments on the Measure Withdrawing Gold Lands.

"Perhaps the public would like to read H. R. 4862 which is Congressman Baldwin's bill to withdraw from settlement or sale certain lands in this state," said Monroe Nichols today. "I think the full bill has never been published here. I understand that this bill has just passed the house under suspension of the rules. Now, do not think for a minute that I doubt the good intentions of our beloved congressman in pressing this measure, but, I should like to know what individual or corporation is so anxious to have this bill pushed through in such great haste. I am always suspicious of all attempts to put any of the lands in this land district in a state of reservation. The same end has been sought under different pretexts, such as that for instance contained in the proposition to make a reservation of all of our district excepting a narrow strip along the Vermilion and Mesabie ranges, which scheme was only defeated after a hard fight."

"I can name a few objections to this bill which I think should warrant either its defeat or radical amendment. There is no crying demand here for any such bill. It passed it will result in making it more difficult for public lands and purchasers under the timber and stone act to obtain title to lands. The bill in its main clause—that authorizing the secretary of interior to withdraw certain lands—is very obscure, and the great danger is, that large bodies of land may be withdrawn upon a mere proof, and tracts thus withdrawn kept out of the market indefinitely, when in fact, they contain no precious minerals, but are chiefly valuable for agricultural purposes, or the timber growing thereon. It strikes me that the simplest way to get around this question of gold and silver is to do really exist in paying quantities in the Rainy lake region, is to extend the operation of the mineral laws applicable to the state of Minnesota and withdraw no lands specifically for the operations of the mineral clause."

This is the text of the bill: "Be it enacted, etc., that from and after passage of this act the secretary of the interior shall be, and is hereby authorized to withdraw from settlement or sale any gold or silver-bearing public lands within the state of Minnesota upon satisfactory proof being presented to him of the existence in paying quantities of such deposits in any of the undisposed of public lands within said state. Section 2. That upon the withdrawal, as provided for in the previous section, of any of the lands therein described, they shall thereupon be subject to disposition according to the provisions of the mineral laws of the United States."

MEMORIAL RESOLUTIONS.

West End Club Deplores the Death of Dr. H. K. Porter.

At a meeting of the West End Business Men's club, the following tribute was made to the memory of Dr. H. K. Porter:

Whereas, Dr. H. K. Porter, the late secretary of the club, a talented young physician and respected citizen has been called from the duties and responsibilities of earthly life. Therefore it is befitting that this club make brief mention of his life and the qualities and characteristics that made him an honored man and beloved friend.

His kind and sympathetic disposition made him many friends; his high moral character, faithfulness and loyalty retained the friends once made; he was always courteous and gentlemanly in his bearing, and while dignified, was always unassuming.

Resolved, that this club deplores the death of this good and true man and tenders its sympathy to his mother and brother.

GEORGE DIEHL MISSING.

Disappeared Yesterday Noon During the Dinner Hour.

It has been reported to the police that George Diehl, employed as a carpenter in the Imperial flouring mills, and who lives on Second street and Twenty-ninth avenue west, has been missing since yesterday noon. He was dressed in his mill clothes and no reason for his disappearance is given.

He was eating dinner at home yesterday and when about half through got up and went out and has not returned. No trace of him has been found. Some tracks were discovered yesterday evening on the bay leading to an air hole and none were found returning and there were fears that they were those of Diehl. He has been working hard of late, seven days in the week, and has grown very nervous. He is about 30 years of age and has a wife and four children.

The Saturday Club.

The Saturday club program for the meeting tomorrow is as follows:

Subject: "Travel." F. D. Day. Current Events: "The Outlook for the Future." Mrs. B. B. B. "Views Along the St. Lawrence." Mrs. B. B. B. "Lake Trip from Buffalo to Duluth." Mrs. B. B. B. "Maclean's Strife." Interior and Western Coast of Michigan." Mrs. B. B. B.

Assignee Sale.

During this week I will offer for sale at retail, the entire stock of clothes, etc., of J. C. Schaefer, the merchant tailor, in the Herald building. As I well know this stock consists of the best goods made and it will prove a desirable time to select a suit pattern and save ten to twenty dollars. Ladies will also find in this stock many patterns, suitable for dresses. Those who desire can have the patterns made up as I have retained the excellent corps of workmen that were employed by Dr. Schaefer.

HE DECLINED TO QUIT.

Manager Ebert of the Hotel Victoria at Chicago Heights Refused to Accept His Dismissal.

Victor Falkenau, Owner of the Hotel, With Detectives Aid Land Ebert on the Sidewalk.

Windows and Doors Smashed, Furniture Broken and a Riot Seemed Imminent at One Time.

CHICAGO, March 16.—Victor Falkenau, owner of the Hotel Victoria at Chicago Heights, has had trouble with his manager, John E. Ebert, and sought to dismiss him. But Ebert declined to go. Yesterday afternoon Mr. Falkenau went to the hotel with eight Pinkerton detectives and Mr. Ebert was landed on the sidewalk. But the village constable and guests of the hotel sided with the deposed manager, and in a few minutes after a short, sharp struggle, the eight Pinkertons were locked in a room in the hotel and held prisoners, while Mr. Ebert was reinstated behind the counter.

In the meantime Mr. Falkenau hurried back to Chicago and got reinforcements. With forty Pinkertons at his back he became an assault on the house, released the ten prisoners and Mr. Ebert was once more ejected. In the melee windows and doors were smashed and furniture broken, and at one time a serious riot was imminent. Several of the belligerents on either side were roughly handled. Falkenau left a guard of Pinkertons in the hotel and retired.

RAIDED THE TENDERLOIN CLUB.

Anthony Comstock Strips the Club Walls of the Numerous Pictures.

NEW YORK, March 16.—Anthony Comstock, of the society for the suppression of vice, and six of his men made a sudden descent upon the famous brownstone club house of the Tenderloin club, No. 114 West Thirty-second street, which has as members some of the best known citizens of New York, at 5 o'clock last evening.

The door attendant, a boy, who was the only person in the house at the time, was placed under arrest and while Mr. Comstock gave orders and looked on, the six men proceeded to make the big double parlor of the club on the first floor look as though a tornado had passed through it. The walls were stripped of all the pictures, the frames of many were smashed and the debris was picked up and carried to a large express wagon at the door and carted away.

The Tenderloin club is a celebrated resort and is known all over the country. The club was organized about eight years ago by reporters from the different newspapers who were detailed to cover the news in the Tenderloin. It became a resort for some of the best known residents of New York city and among the present members are Superintendent Byrnes, Inspector McHugh, Mr. Croes, Hugh Grant, Eugene Kelly, Jr., ex-Senator Fred Gibbs, William Sulzer, ex-speaker of the assembly, and many other equally well known.

SCANDAL AT SAUK CENTER.

Mrs. Henry Keller Sued by Another Woman For Heavy Damages.

ST. CLOUD, Minn., March 16.—A most sensational scandal in high life at Sauk Center was made public here yesterday when complaint was filed in the office of the clerk of the district court in a suit brought by Mrs. Mary McKane, wife of Henry McKane, of Sauk Center, against Mrs. Wilhelm Keller, wife of Senator Henry Keller, the well-known representative of Stearns county in the last senate.

For cause of action it is alleged that Mrs. Keller alienated the affections of the plaintiff's husband and she asks damages to the amount of \$20,000. It is alleged in the complaint that the defendant has consorted with the plaintiff's husband for the past year, that at the beginning of the year 1892 the defendant commenced to increase her influence over Lewis Kroes, the plaintiff's husband, and wrongfully and wickedly and unjustly debauched said Lewis Kroes, who was then and still is the plaintiff's husband.

Work for a Thousand Men.

VALPARAISO, Ind., March 16.—The Haske & Barker car works at Michigan City have secured a contract for 1500 cars, and the immense plant, employing 1000 men, will resume operations within a few days, after six months' idleness.

Chief Justice Lea Dead.

MEMPHIS, Tenn., March 16.—Judge B. J. Lea, chief justice of the supreme court of Tennessee, died at his home in Brownsville, Tenn., at 4 o'clock yesterday afternoon after a lingering illness.

A Weak Digestion

strange as it may seem, is caused from a lack of that which is never exactly digested—fat. The greatest fact in connection with

Scott's Emulsion

appears at this point—it is partly digested fat—and the most wonderful digestion is quickly strengthened by it.

The only possible help in Consumption is the arrest of waste and renewal of new, healthy tissue. Scott's Emulsion has done wonders in Consumption just this way.

SMITH IS ANSWERED

Reply of the Defendants to the Application for a Receiver for the Smith & Coulter Company.

Defendants Deny Nearly all of the Allegations and Claim Smith Was Guilty of Treachery.

Hearing on the Application for the Appointment of a Receiver to be Held Tomorrow Morning.

The answer in the case of D. B. Smith against the Smith & Coulter Spice company, Charles L. White and A. P. White has been filed. This is the action begun to compel the appointment of a receiver for the defendant company. The defendants protest against it claiming the company to be perfectly solvent. The allegations and denials make up a legal paper fully as long as the complaint.

The allegations that the stock for which the parties gave their notes, to the \$5000 divided among D. B. Smith, J. W. Coulter and C. L. White was issued as paid up stock is denied and the defendants say that while the certificates were issued, they were not to be issued as paid up stock until the notes were paid. Charles L. White alleges that his salary was fixed at \$700 per month, while the plaintiff makes it \$125.

Further answering Defendant White charges that prior to April 1, 1893, plaintiff was a director and president of the spice company, and Defendant White was director, secretary and treasurer; that unknown to the defendant the plaintiff combining with one Matter purchased the stock of J. W. Coulter and agreed between themselves to deprive defendant of his position; that Defendant White had put in the only cash capital which said company had, and to prevent such action was compelled to buy the Coulter stock from the plaintiff, and that all differences were adjusted at the annual meeting. Shortly thereafter, it is charged the plaintiff did secretly attempt to organize another company in a similar line in West Superior to crush and injure the Smith & Coulter Spice company. Also that he reported to its customers that it was dead and could not last long and that White had no experience and could not run it. The defendant learned of this and Smith admitted it. Failing to establish the West Superior house he established the Imperial Coffee and Spice company in Duluth and sold his \$5000 stock to W. C. Bond, retaining his pretended stock of \$7000 and later urged Bond to allow his name to be used for the appointment of a receiver.

The defendant company informed its patrons about May 1, 1893, that the plaintiff was no longer connected with it. The defendants assert that they claim no part of the \$5000 stock as they have not paid for it in answer to the statement of the plaintiff as to his being excluded from the management of the business the defendant says that he voluntarily absented himself after his treachery became known.

Resolutions of the board of directors to the effect that as D. B. Smith had severed his connection with the company and allied himself to an adverse company, his resignation as president would be accepted are quoted in the answer. The allegation is made that the plaintiff was always invited to be present at stockholders and directors' meetings; that on Feb. 22, 1894 he had access to the books and examined them and demanded all checks and vouchers. Defendant White told him that it would cause delay and trouble to at once go through all of them, there being a great many, and plaintiff grew insolent and assaulted Defendant White. The latter retaliated sufficiently to drive the plaintiff away. After this the plaintiff is accused of saying that he had got just what he wanted meaning that he came for the purpose of goading the defendant into assaulting him.

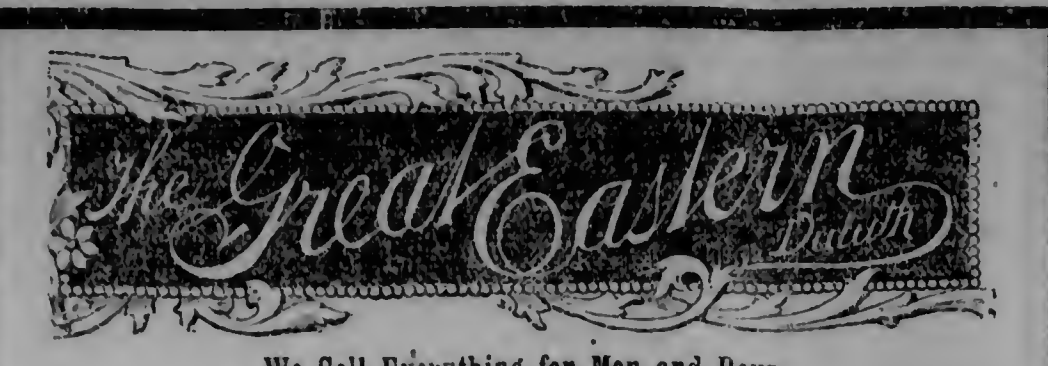

The hearing on the application for the appointment of a receiver will come up at the special term tomorrow.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. The sufferers have so much faith in its curative powers, that they offer \$100 for any case that it fails to cure. Send for list of testimonials at once. R. J. Cheney & Co., Toledo, O.

An Extraordinary Offer!

An Elegant Home for a Comparatively Small Cash Payment.

Almost anybody is willing to sell property in such times as these for half cash, or one-third cash, but I can do much better than that. I have for sale, at a sacrifice, a handsome and an unusually commodious 12-room house, with all modern conveniences, and a large barn occupying, all situated on a beautiful 25-foot corner lot, in the East End and within one block of the street car line. This property cost the owner very nearly \$10,000, and it is really worth every dollar that it cost; but in view of the stringency of the times, it will be sold to somebody, within the next days, for the exceedingly small sum of \$8,250, and only from \$1,000 to \$2,000 of this will be required in advance. As to deferred payments, terms can be given with which almost any purchaser can comply. Better look this property up at once, as it is offered at a price that will ensure its speedy sale to somebody. It is unquestionably the highest snap of the season. I would just add, that at such a sacrifice price as this, I must deal with principals direct.

FROM OCEAN TO OCEAN

The Associated Press Covers the Entire Continent and Supplies News to All Leading Cities.

Extension of the Leased Wire Service to the Pacific Coast and From Chicago to Duluth.

The Associated Press Circuits Now Embrace an Actual Mileage of Over Eighteen Thousand Miles.

New York, March 17.—The Associated Press is now forwarding the telegraph news of the world over its own system of leased wires, from ocean to ocean and both sides of the continent from the most northern city to the most southern city. This has been possible by the extension of the leased wire system from Denver, heretofore the western terminus of the Associated Press leased wire system, to Salt Lake, Sacramento and San Francisco and from San Francisco south to Los Angeles and San Diego and north to Portland, Tacoma and Seattle, and by the extension of the leased wire system from Chicago to Duluth. It marks an important era in the history of journalism, illustrating the progress made in the telegraphic news service. It places for the first time the great cities of the country, without exception, in actual touch through their leading newspapers.

The first leased wire of the Associated Press was established between New York and Chicago in 1855. It was regarded as a great innovation in newspaper progress, as it enabled the employment by the Associated Press of its skilled operators and the handling of the news direct into the general offices of the Associated Press. The leased wire circuits were gradually increased, until they extended throughout the East and the West as far as Denver, and later on throughout the South as far as Galveston and San Antonio.

The final link in making the service transcontinental was added when the Pacific coast cities became a part of this great system, which now embraces an actual mileage in excess of 18,000 miles. On Monday, therefore, when the day circuit is opened at New York city, every principal city in the United States, North and South, East and West, embracing all the cities of the Pacific coast, will be connected and receiving the Associated Press news practically simultaneously.

BRAZILIAN WAR NOT ENDED.

Admiral Mello and the Southern Rebels Still Conflict of Success.

New York, March 17.—A special cable to the Herald from Flores island, Montevideo, says: Admiral Mello, who is at present in Curitiba, Brazil, personally directing the concentration of the southern rebels' land forces upon the Sao Paulo frontier, does not seem to think that the cause of the revolution is lost by any means, because Admiral da Gama surrendered the squadron in Rio harbor. He says that although da Gama's action has ended the naval revolution, he is acting now in sympathy with the Rio Grande do Sul federalists and will win in the end. His warships are anchored in the bay of Montevideo, guarding the harbor of Desterro, the seat of the insurgents' provisional government.

The federalists three days ago had a battle on the southern frontier of Santa Catarina with the loyal forces, but were defeated by the combined divisions of President Peixoto's troops under Gens. Pinheiro, Oscar and Fernan. The federalists have now fallen back upon Tubaro, where they will receive artillery reinforcements from President Loreno of the provisional government. They will then renew the fight. President Loreno has made a second appeal to the foreign powers for formal recognition of his provisional government.

Two of Mello's warships, the Iris and the Esperanza, sailed on March 5 from Desterro with instructions to join the Aquidaban at Ubatuba and open procedure to the attack of some port north of Rio, probably Pernambuco. Minister of War Morao, of the provisional government, contradicts the report that the Aquidaban was damaged seriously by shells from Fort Santa Cruz when she last left Rio harbor.

The rebel warships Urano and Meteoros are now cruising between Igape and Ubatuba, awaiting orders to make an attack upon Santos. The Republica is at Parangaba, replacing the boiler tubes which were burned out on her run down from Rio. Senhor Buette, President Peixoto's chief of arsenal, has gone there to strengthen the defenses of the harbor and lay torpedoes about the entrance. Ten thousand Mauser rifles have just been received from Germany by Admiral Mello and a ship's cargo of coal. His Southern troops are enthusiastic and re-

enforcements are daily arriving from the interior of the country. The feeling all through Rio Grande do Sul is enthusiastic.

The Herald's Montevideo cable says: The presidential deadlock continues and the official party is voting for Senor Alcides Monteiro, but they are not likely to secure a sufficient majority to elect him. The question may be settled by the election of the popular candidate, Gen. Perez, as the official faction shows signs of breaking up. Commercial interests here warmly welcome the end of the naval revolt in Rio, though the triumph of President Peixoto is regretted by many.

BURNED TO DEATH.

A Young Girl Enveloped in Flames While Fighting a Forest Fire.

CASSVILLE, Mo., March 17.—Louisa Laird, aged 18 years, was burned to death yesterday two miles west of Mineral Springs. She was engaged in a fight with a neighbor's farm being in danger, she was called on to assist.

While whipping back the fire her dress caught, and she was soon enveloped in a mass of flames. Crazed by fear, she could do nothing but scream and turned around, until exhausted, when she dropped dead.

THE ARMY ON THE MARCH.

The Industrial Army is Moving Eastward in California.

LOS ANGELES, March 17.—The industrial army occupied the large driver as barracks at Menloville, nineteen miles from here, last night and the people of the town furnished provisions. They broke camp this morning and are now on the march to Pomona, on the line of the Southern Pacific railroad.

The Santa Fe officials say that the army has made no attempts as yet to take possession of their trains, but they are anticipating trouble in this direction, a determination to put the army in still in this city.

Prize Fighting Must Stop.

MADISON, Wis., March 17.—Governor Peck has notified Sheriff Kraby, of Winnebago county, that the prize fighting must be stopped, and in the event of his being unable to prevent the fight to secure evidence to send the men to the state prison. The governor evinces a determination to put an end to prize fighting in the state.

Widow Superior Rosina Dead.

NEW YORK, March 17.—Sister M. Rosina, mother superior of the order of Sisters of Charity in the United States, died at the Mother house, at Mount St. Vincent, at 5 o'clock yesterday afternoon. She was stricken with paralysis at the supper table Thursday evening and was speechless up to the time of her death. Sister Rosina was born in Charleston, S. C., on Feb. 11, 1835. Before she received the veil she was married to Michael Whitman and belonged to one of the first families in Charleston. She entered the order at the age of 21.

The English Income Tax.

LONDON, March 17.—The coming budget, it is said upon authority, will propose changes in the income tax amounting to a considerable increase. Some of the changes are an increase of 2d in the 2s, on incomes up to £200 a year, a gratifying rise of 1 shilling in the 2s on greater incomes and the exemption from taxation of all incomes below £200 a year.

An Experiment That Failed.

OMAHA, Neb., March 17.—The experiment of making soldiers of Indians began in the summer of 1891, with a view to giving employment to the young bucks and to secure the national effects on the turbulent spirits around the agencies at Pine Ridge and Rosebud, is proving a failure. Yesterday Gen. Brooke issued an order disbanding the remaining troop "L," Sixth cavalry.

By Parties Unknown.

SPRINGFIELD, Pa., March 17.—The coroner's jury in the case of lynching of the negro Richard Puryear returned a verdict yesterday afternoon that the murderer came to his death by being hanged by parties not known to the jury.

A New Chief Justice.

NASHVILLE, Tenn., March 17.—Justice D. L. Snodgrass was today chosen chief justice of the Tennessee supreme court by the vacancy caused by the death of the late Chief Justice B. J. Lea.

Notorious Burglar Caught.

SIDNEY, Ohio, March 17.—John West, the leader of a notorious gang of burglars, was arrested yesterday at the boarding house of Mrs. Freese. He is wanted for several burglaries done in New Jersey.

Bank Cashier Arrested.

SPRINGFIELD, Mo., March 17.—A. B. Crawford, cashier of the American National bank, which failed here some time ago, was arrested yesterday on the charge of making a false statement to the comptroller.

Fifteen Men Killed.

ST. PETERSBURG, March 17.—News has been received here of the explosion of a boiler in a mine in the province of Ekaterinohland, killing fifteen men and badly injuring many others.

THE COURT TO DECIDE

Governor Waite Has Submitted the Legality of the Police Commissioners to the Supreme Court.

The City Hall People Were Not Considered, and no Stipulations of Agreement Were Made.

Great Excitement Caused by Troops Marching Past the City Hall to the Railway Station.

DENVER, March 17.—Governor Waite has decided to submit the question of the legality of the two boards of police commissioners to the supreme court. Great excitement prevailed on Larimer street at 11 o'clock this morning by the appearance of the light artillery in marching order, the staff officers on horseback, followed by two battalions. At the city hall the policemen grasped their rifles and rushed to the windows and doors to prevent attack, but the artillery passed by without even saluting. The street became massed with spectators. The artillery was only going to the railroad yards to load for Cripple Creek.

Governor Waite's lengthy statement and questions were submitted to the supreme court. He will await their decision before making any other move. The city hall people were not considered, and no stipulations of agreement were made. The secret committee did not meet this morning. It appears that discussion occurred last night, some of the members wanting the police and sheriff forces to surrender, while others favored doing the governor's party violence. The led troops will probably be withdrawn some time this afternoon.

SHE THIRSTED FOR GORE.

The Colorado Governor Urged to Violent Methods by His Wife.

CHICAGO, March 17.—A special to the Tribune from Denver says: It became generally known for the first time today (Friday) that Mrs. Waite appeared at the conference of the chamber of commerce delegation yesterday and took part in the proceedings. This revelation that a woman sits behind the throne, even more bloodthirsty and radical in her ravings than the throne's occupant, has caused a sensation that cannot be underestimated.

She went to extremes in giving her views and proved that the spilling of human blood had no terrors for her. She would speak at nothing but cry out at the deities of her husband, which, apparently, are hers also. Her excitement was intense and painful at one time, when she broke into the discussion by rudely and without notice interrupting the spokesman of the delegation. Every word she uttered impressed the press with the conviction that if she had her way the people of Denver would be "riding in blood to the bridge's end."

She declared that if she had authority, she would order out every militiaman in the state and lead them against the city hall, no matter what the consequences might be. With clenched hands she cried that the fight should go on until "the last national guardsman in the state lay dead on the pavement." Her arguments are supposed to have had a good deal to do with the governor, who some hours afterward notified the outside military companies to hold themselves in readiness to move.

Several Grand Army camps have held meetings to discuss the formation of a veteran corps of 1000 men, who will take the field and insist on peace. They decided that in case of emergency another general meeting would be immediately called. There are nearly 2000 old soldiers and old timers available for such a purpose, and old timers appear to be ready to turn out under the sheriff's orders. A special session of the Grand Army has been summoned, and an effort will undoubtedly be made to indict the governor.

Gen. McCook says there is no doubt that had a gun been fired yesterday, the governor would have been lynched with half an hour, to the state's lasting disgrace. The governor has not ordered the outside militia to come to Denver, but he has instructed livery stable men to have 100 horses ready for his use today. This strange order has added to the general uneasiness.

TRAGEDY IN ALABAMA.

Result of a Convict's Attempt to Escape in Birmingham.

NASHVILLE, March 17.—A special from Birmingham, Ala., says: This forenoon a negro, Charles Fleming, a city convict, attempted to escape from the street gang. Street Commissioner Burkhalter, overtook him on horseback and ordered him to surrender. The negro snatched the officer's pistol from his hand and fired one ball into Burkhalter, another into the horse and put a third through his brain, dying instantly. Burkhalter's wound is not serious. The horse died.

At the Midwinter Fair.

SAN FRANCISCO, March 17.—Ireland day at the Midwinter fair. Beautiful weather. The parade comprised Irish societies and other organizations this morning, and 10,000 were in line. There is an immense crowd at the grounds, estimated to be greater than on the opening day, when over 72,000 were present.

Iron Works Burned.

RACINE, Wis., March 17.—The Belle City Malleable Iron works burned this morning. Loss \$100,000; insurance \$20,000. Shadbolt & Boyd of Milwaukee are the principal owners.

THE FIGHT ON WASHBURN.

The Junior Senator Encountering Serious Opposition in Hennepin County.

ST. PAUL, March 17.—[Special to The Herald.]—It is learned that Senator Washburn did not return to Washington in a very comfortable frame of mind over his prospects for re-election to the senate. He encountered an amount of opposition that scared him, and all the work that he was able to accomplish during his stay at home did not accomplish much towards repairing his fences, which he found in a very dilapidated condition.

It is no secret that he is meeting with serious opposition at home, and it is a question whether the members of the legislature elected in Hennepin county will be Washburn men. It is asserted that Dave Clough, John Goodnow and others whose influence counts for considerable in Hennepin county politics, are secretly backing Governor Nelson to succeed Washburn. This would make Clough governor, in case he is elected with Nelson next fall on the state ticket, and Nelson's election to the senate would pave the way for ex-Governor Merriam's fight upon Senator Davis at the expiration of the latter's term.

If Washburn succeeds himself, Merriam cannot hope to succeed Davis, as both are residents of St. Paul, but with a man from the county like Nelson elected senator next winter, the wily William would find his chances much improved. There also seems to be considerable foundation for the story that D. M. Sabin has his knife sharpened for special use on Mr. Washburn. Neither Nelson, Merriam nor Sabin deny that they are opposed to Washburn, and this is significant.

JUMPED FROM A TRAIN.

An Unknown Young Woman Killed on the Baltimore and Ohio Road.

MOUNT VERNON, Ohio, March 17.—About 2:30 this morning a young woman was found beside the Baltimore & Ohio track, a short distance north of this city. She was unconscious and badly injured. She was brought to Mount Vernon, and in a short time word was received from Train 8, east bound, that a young woman, who got on the train at Chicago, was missing.

She had entered the toilet room of the car just after the train left Chicago Junction. At Newark the room was broken into and the window found raised, but the woman had disappeared. It is supposed that she jumped out of it while the train was in rapid motion.

The woman was about 20 years of age, and was traveling on a second-class ticket to Clarksville, W. Va., and is thought, from marks on her clothing, to be a Miss Fleming, of that city. She died at the hospital in this city this morning without regaining consciousness.

POISON IN THE TEA POT.

A San Antonio Woman and Her Son Poisoned by Strychnine.

SAN ANTONIO, Tex., March 17.—A mysterious case of poisoning occurred here last night, as a result of which Mrs. Rosa Brown, a widow, aged 63 years, is dead, and her son, a 10-year-old boy, is lying dangerously ill. Mrs. Brown kept a boarding house at 905 San Pedro street, and late last evening Mrs. Brown brewed a little pot of tea, of which she and her boy drank. An examination of the tea reveals a large quantity of strychnine in the pot, and the police believe it is a case of suicide from despondency.

THE SUIT AGAINST WETMORE.

Colgate Hoyt Says Wetmore Had a Right to Use the Securities.

WASHINGTON, March 17.—Colgate Hoyt said yesterday with reference to the suit brought by Leonidas and Alfred Merritt against C. W. Wetmore, in connection with the affairs of the American Steel Barge company, that if Mr. Wetmore had used the securities in question, he had a perfect right to do so, as the collateral had not been redeemed. James Hoyt, counsel for the steel barge company, said that the Merritts had given full authority in writing to hypothecate the securities. Mr. Wetmore, according to this gentleman, is not now connected with the steel barge company.

Commodore Whiting Dying.

NEW YORK, March 17.—Commodore Whiting, retired of the United States navy, lies at the point of death at his home, the result of a shock from an accident which befell him about nine weeks ago. Commodore Whiting is blind. He began to lose his sight while in the active service of the navy. As the result of an examination of his eyes, he was retired Oct. 12, 1881. His condition gradually grew worse, until he became entirely blind.

Large Brewery Burned.

LAWRENCE, Mass., March 17.—Stanley's large brewery, on Oxford street, in this city, was totally destroyed by fire early this morning. The building was four stories high. The loss is about \$125,000; insured. The brewery was owned by the New England Brewing company, the principal stockholders in which are the English syndicate.

Probably Walking Home.

OWASCO, Mich., March 17.—James A. Goodwin, treasurer of the Paulding-Craig Dramatic company, mysteriously disappeared from this city Wednesday. His company fears foul play. He had only \$100 with him at the time. His home is in Providence, R. I.

Shot His Sweetheart.

FONTANELLE, Iowa, March 17.—John Clayman yesterday shot his sweetheart, Miss Ida Mentzer, her father and himself. Mentzer's condition is critical, three balls having taken effect in his body. Clayman and the girl will recover.

Adjusted the Trouble.

LACROSSE, Wis., March 17.—Dr. Frank Powell (White Beaver) has just returned from the home of Col. Cody (Buffalo Bill) in North Platte, Neb., and says that all possibility of a duel between Cody and Fred May is passed. May and Cody have adjusted their differences through their representatives.

THE LINE OF DEFENSE

There is Much Speculation as to the Defense That Col. Breckinridge's Attorneys Will Make.

Miss Pollard's Story Has Been Sustained by Witnesses Who Can Not Be Impached With Success.

He Promised to Marry Her in Mrs. Blackburn's Presence, Before He Married Mrs. Wing.

WASHINGTON, March 17.—What will be the nature of Col. Breckinridge's defense? The line of cross-examination pursued by Miss Pollard's counsel has thus far afforded no distinct clue as to what the answer will be to the terribly distinct and circumstantial evidence of the plaintiff and her witnesses, some of them of a character impossible of impeachment. No point in the defendant's favor has yet been established except the admission from Miss Pollard that during her engagement (or contract, as she insists it shall be called) with James C. Rhodes, and while her liaison with Col. Breckinridge was going on, she was engaged to be married to a young man named Rosell and was obliged to break the engagement in order to go away from Wesleyan seminary to make arrangements for the birth of her first child.

Each of the distinct allegations in the plaintiff's voluminous petition has been sustained by proof more or less positive. Some of the witnesses, it will be remembered, fall clearly to identify Miss Pollard as the person who presented herself to them in her difficulties under various assumed names, but they testify that there was such a person, and sustain the facts as set out in the petition; and though, as the counsel for the plaintiff said in his opening address, the seduction feature practically drops out of the case, because there is no law in the District of Columbia by which a poor girl of legal age, thus wronged, can obtain redress, yet the incidental circumstantial confirmation of the other portion of the plaintiff's case of breach of promise to marry, afforded by the evidence on the first named point, will naturally have its effect on the jury.

The defendant in his sworn answer denies the seduction, denies his paternity of the plaintiff's children and says the allegation that he promised to marry the plaintiff at the time she alleges is not true, for the reason that at that time such a marriage was impossible. The meaning of the last phrase in the answer is now made clear by the production of the certificate of the private marriage of Col. Breckinridge and Mrs. Wing in New York on April 20, 1883, two months before his private marriage to the same lady in Kentucky.

But lawyers still fail to see how a marriage effected in April can be pleaded against a promise of marriage made in the preceding August, according to the plaintiff's evidence, and repeated in the presence of Mrs. Julia C. Blackburn, widow of Governor Luke Blackburn, on the following Good Friday, March 31. Mrs. Blackburn's remembrance that it was on Good Friday the scene which she witnessed occurred, seems to fix the date beyond a possibility of mistake. The secret marriage, it is held only affects the promises to marry made in the presence of Maj. Moore, chief of police, and Dr. Lincoln, both of which took place subsequent to April 20, 1883.

The almost general belief is that the counsel for Col. Breckinridge will try to prove that Miss Pollard had been led astray before Col. Breckinridge met her and that she sustained illicit relations with other men. No evidence has appeared tending to prove this insinuation. Efforts were made in the close inquiry into the plaintiff's life in Lexington and elsewhere, to implicate prominent men, two of them well known authors, and another Col. A. M. Swope, who was killed in a street duel by Cassius Clay Gooloe. These attempts were not successful. It was shown that while Col. Swope boarded across the street from the house occupied by Miss Pollard in Lexington, he had never once called upon her; in fact had never been seen to speak to her.

Election by the People.

WASHINGTON, March 17.—The house committee on the election of president and vice president and representatives in congress will, it is expected, report favorably today on Mr. Tucker's joint resolution proposing an amendment to the constitution providing that senators shall be elected by the people of the several states. A similar bill was introduced by Mr. Bryan, of Nebraska, but the Tucker bill is regarded as more complete in detail and has the approval of the committee.

A Bloody Duel.

BIRMINGHAM, Ala., March 17.—Near Huntsville, Richard Terrell, a prominent hunter, and Silas Johnson, a tenant, fought a bloody duel yesterday. Johnson knocked Terrell down with a club, when the latter arose and stabbed Johnson to the heart causing death. Terrell's injuries may prove fatal, as his skull is fractured.

A Conductor Shot.

AUSTIN, Minn., March 17.—Mike Koop, conductor on a Chicago Great Western fast freight, was shot yesterday at Taopi, a small station about ten miles from here, by two men who attempted to board the train at that place. He will die.

Fire at Hancock.

HANCOCK, Mich., March 17.—The big store of James C. Ley & Co., was destroyed by fire this morning. The building was valued at \$12,000 and was insured for \$7500. The loss on the stock of general merchandise aggregates \$35,000, on which there is \$30,000 insurance.

THE PNEUMATIC TUBE

The Experimental Trial of the Transmission of the Mails by This Means is Successful.

Little Likelihood of the Postoffice Department Using it at Present, Owing to the Expense.

The Tube Operated in Philadelphia Said to Excel Those in Operation in Foreign Cities.

WASHINGTON, March 17.—While the experimental trial of the pneumatic tube as the most modern method for the transmission of the mails has proved a success, there is no likelihood that it will be adopted by the postoffice department and put into general use for a long time. Such an invention would not only be most expensive to the government, but in order to perfect the system much time and labor must necessarily be consumed in the surveying of the routes and the laying of the tubes in a few large cities where the postal service would warrant its use.

About a year ago a company was organized in Philadelphia, among whom were several gentlemen who witnessed the workings of the Paris system. A proposition was made by them to the postmaster general, in which they agreed to lay a pneumatic tube between the Philadelphia postoffice and the East Chestnut street station, about a half mile distant, without any expense to the government, in the hope that, in the event that the department was satisfied of the success of the experiment, it would be put into general use.

The company agreed to lay the tube and maintain its expense for one year. It has been watched with the closest interest by the postoffice officials and the general opinion is that it is a success in every particular. Encouraged by its practicability, a similar company was shortly afterwards formed in New York for the purpose of laying a tube between New York and Brooklyn. Much difficulty was experienced in getting the right-of-way over the Brooklyn bridge, but finally consent was given and the work of laying the tube was about to be started, when the general depression in business set in and the plan was abandoned.

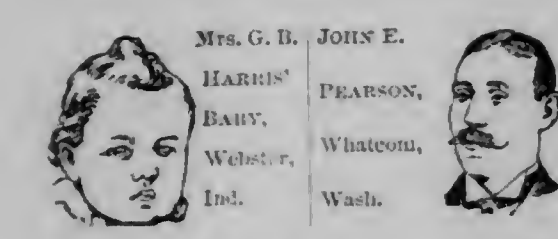

The Philadelphia company however, continued the use of its tube, free of expense to the government. On Feb. 1 last, its contract expired and they were unwilling to continue the transmission of the mails unless the government shared a proportion of the expenses. Application was made to the postmaster general, and it was agreed to assume a part of the expense of maintaining the tube until next February. Although no specific appropriation has ever been made by congress for experimenting with the pneumatic tube, the postmaster general, in view of the success of the undertaking, felt warranted in drawing upon the emergency fund at his disposal, to continue its use.

The tube used in Philadelphia, which in time is expected to be put into general use in all large cities, is pronounced by the foreign experts who have visited this country to excel those in operation in Paris and London. The interior of the Paris tube is about three inches in diameter, the English tube is even smaller, while that used in Philadelphia is nearly six inches in diameter and is capable of carrying newspaper packages.

WHEAT WAS DULL TODAY.

The Opening Was Firm But the Strength Was Not Maintained.

The wheat market today opened dull and strong at 1/2 cent higher than yesterday, but it did not remain very long. Most of the trading early was in July. May at one time was usually at 1/2 cent above yesterday, but the highest sales were at 1/2 cent above. During the last hour the market was very dull and prices eased off. The close was strong for cash, but easy for futures, cash closing unchanged from yesterday. May 1/2 cent lower and July 1/2 cent lower. There were some sales of cash wheat to arrive and on track at May prices. As compared with last Saturday, the market was 1/2 cent lower for cash, 1/2 cent lower for May and 1/2 cent lower for July. Following were the closing prices for wheat: March 1894, No. 1 hard, cash 51 1/2, No. 1 northern, cash 51 1/2, No. 2 northern, cash 51 1/2, No. 3, cash 51 1/2, No. 4, cash 51 1/2, No. 5, cash 51 1/2, OFFICIAL PAPER OF ST. LOUIS COUNTY.

Entered at the postoffice at Duluth, Minn., as second-class mail matter.

The Weather.

U. S. WEATHER BUREAU, DULUTH, MINN., March 17.—The barometer has fallen two to three tenths of an inch since 10 o'clock yesterday to Kansas, in the front of an area of low pressure, whose center is this morning in South Dakota.

Local rains have fallen in Arkansas, Tennessee and Wisconsin, and local snow or rain in Upper Michigan and Montana. It is generally fair this morning in the Duluth region, with a few clouds in the northwestern provinces, where cloudy weather prevails.

The temperature has fallen 10 to 20 degrees over Southern Lake Michigan and in the Upper Mississippi and Lower Missouri valley; else where it has remained nearly stationary.

Duluth temperature at 7 a. m. today, 24 degrees; maximum 32 degrees; minimum 22 degrees.

Duluth, March 17.—Local forecast until 8 p. m. tomorrow: Fair Sunday; probably slightly cooler in western portion; southerly winds; for Minnesota: Probably fair Sunday; slightly cooler; winds becoming northwesterly.

WASHINGTON, March 17.—Forecast till 8 p. m. tomorrow: For Wisconsin: Showers today and tonight; fair Sunday; probably slightly cooler in western portion; southerly winds; for Minnesota: Probably fair Sunday; slightly cooler; winds becoming northwesterly.

Improved News Service.

Beginning on Monday next, The Herald will receive the full telegraphic service of the Associated Press, the greatest news gathering association in the world, which has extended its leased wire system from Chicago to Duluth. This service will place The Herald upon an equality with all the leading newspapers of the country.

The Herald has heretofore controlled the day franchises of the Associated Press and the United Press in Duluth, and it has been receiving the report of the latter association. The United Press service has become much crippled by the desertion of the leading papers, especially those in the West. The Chicago Tribune, Herald and Inter-Ocean are among those which have abandoned it and joined the Associated Press, thus leaving the United Press without a single paper in that great city. The St. Paul Pioneer Press, Globe and Dispatch, and the Minneapolis Tribune and Journal have followed this example, and in St. Louis, Kansas City, Omaha and many of the other principal cities of the West the leading papers have decided to use the Associated Press service.

The Associated Press is what its name implies—an association of the newspapers of the country for the collection, exchange and distribution of the world's news—and the advantage which it has over all other news gathering organizations, by reason of having access to the news gathered by all these journals, can be readily appreciated by any one who gives the subject a thought.

The United Press being now practically shut out of the West and having been exclusively an Eastern news bureau and likely to quit the West entirely at an early date, The Herald ceases today to use its report and will hereafter publish the full and complete report of the Associated Press.

The leased wire service of the Associated Press embraces an actual mileage of over 18,000 miles extending from New York to San Francisco and from Duluth to Galveston and reaching every important city in the entire country. Its cable service is the most complete that reaches America, and during the recent war in Brazil it has demonstrated the superiority of its South American service. The Herald will thus enjoy unequalled facilities for presenting all the news of the world promptly and fully to the people at the head of Lake Superior.

The Fury of a Woman.

A woman is at the bottom of the serious trouble now in Colorado. Governor Waite is led by the nose by his wife, who appears of a very bloodthirsty disposition and possessed with a desire to crush out of existence all those who dare dispute the power of the executive to do as he pleases.

It was Mrs. Waite, according to the dispatches today, who has been responsible for the calling out of the state militia and almost causing blood to flow in the streets of Denver. Had any blood been spilled, as at one time seemed probable, Mrs. Waite would likely have been a widow today, because there was a popular feeling that would have resulted in the lynching of the governor, disgraceful though such an occurrence would have been to the state.

The antics of this woman will not be likely to advance the cause of female suffrage, in Colorado at least. This case illustrates in a striking manner the great danger that would result from placing an excitable and passionate woman in a position of such great responsibility as that of governor.

The Herald has received, with the compliments of the Willamette Thread company of Hartford, Conn., a very handsome little book entitled "A Fairy at School." The author is Rose Terry Cooke and she has written a charming story that has been beautifully illustrated. The romance deals with the manufacture of thread in Willamette and it is so

well written and couched in such graceful language that it is a pleasure to read it.

The State Banks.

Public Examiner Kenyon has issued a report on the condition of the state banks of Duluth, St. Paul and Minneapolis at the close of business on Feb. 28. It shows that the per cent of reserve in each of the cities is far above the amount required by law, the Duluth banks being especially strong in this respect. In Duluth, on the date of the report, it was 30 per cent, while in St. Paul it was 29 and in Minneapolis 32.

There are seven state banks in Duluth, twelve in St. Paul and fourteen in Minneapolis. The amount of deposits in Duluth was \$17,899,939.95, the surplus fund reached \$158,000, while the other undivided profits were \$331,305.58. The deposits in Minneapolis amounted to \$7,337,388.42, the surplus fund to \$359,000 and other undivided profits to \$339,104.47. In St. Paul the deposits amounted to \$4,070,304.31; surplus fund to \$166,000, and other undivided profits to \$326,438.49. Of loans and discounts, the Duluth banks had \$2,371,709.83, Minneapolis \$8,459,237.30, and St. Paul \$5,811,208.32. Of stocks and bonds, other than government, Duluth had \$14,047.18, Minneapolis \$228,489.47, and St. Paul \$283,816.69. Of cash on hand, Duluth had \$241,659.30, Minneapolis \$1,217,169.50, and St. Paul \$677,331.31. The full statement for Duluth is as follows:

SOCIAL AND MUSICAL

All Society Rejoices That the Coming Week is the Last of the Lenten Season.

Lachmund Concert at the Temple Last Evening a Brilliant and Artistic Musical Success.

Unity Club Concert on Monday Evening a Popular Entertainment—Other Social and Musical Notes.

The coming week is the last of Lent and society will then emerge, bright and happy from the gloom and penance of the last forty days—return to the devil, some people are so mean as to say. But nevertheless, the release will be hailed with joy and social affairs will be even worse.

Two concerts, both exceptionally good, made this quite a notable week musically. Some fine soloists were prominent in the past week and altogether Duluth is acquiring a reputation as a musical center.

THE BETHEL CONCERT.

A Musical Evening of Rare Merit Was Last Evening's Event.

The concert given last evening at the Temple under the management of Ernest Lachmund was an event to which the music loving people of the city may revert with pride. The program consisted of selections from such eminent composers as Dvorak, Brahms, Viennese, Schubert and Beethoven, and the personnel of the artists was a guaranty of excellent presentation. At an early hour the theater was filled with a representative audience. Well known professional musicians and patrons of music occupied the boxes; the Bohemian club sent a delegation to the balcony and the parquette and circle were crowded with an attentive audience.

Miss Eva M. Alcott, of St. Paul, rendered Paterson's "Waltz Song," a difficult and technical gem, with elegant taste, and for encore responded with the "Sunrise" of Werckin, her pleasing interpretation of "A Summer Night," was also supplemented upon recall by "Gaily Chant the Summer Birds."

Theodore Lammeris was so well and so favorably known that it is needless to refer to the excellence of his selection of "The Wanderer" he responded with "The Palms."

Mrs. C. P. Craig and Mr. Lammeris sang a beautiful soprano and baritone duo from "Mignon" and were warmly applauded, giving upon a recall the melodious "Wanderer" of Schubert.

Robinson. Both numbers were noticeable on account of the delicacy of expression and the perfect blending of solo and ensemble.

One of the choice numbers was the closing quartet, "Good Night, Beloved," sung by Mrs. Craig, Miss Calvert, Mrs. W. R. Bullock, and Mr. Lammeris. Herr Carl Riedelberger, the violinist, captivated everyone. He played upon a genuine old Gaspar di Salo, a rare make of the hour. Duetto between the violinist and the pianist, played in the manner of the "Fantasia Caprice" of Viennese, one of the selections most frequently heard by the famous Sarasate—duet in touch, wined in modulations, hard to understand, hard to execute. The rendition of this solo gave Herr Riedelberger an opportunity to display two of the rarest acquisitions of the violinist, positive and perfect tone and delicate, delicate control of the bow. Next week Walter J. Johnson will be musical at the home of his sister, Mrs. W. B. Welles, to Miss Effie Watkins, of Brooklyn, N. Y.

Mr. and Mrs. W. R. Bullock left for the West on Tuesday. Mr. Bullock is going to Los Angeles, Cal., while his wife's destination is Baker City, Ore.

Mrs. E. Lindahl is visiting her parents at Sparta, Wis.

Miss Mabel Fulton, of Brainerd, is visiting friends in the city.

Mr. and Mrs. Charles Fisher, of Ashland, Wis., parents of J. C. Fisher, were in the city Tuesday.

Mrs. G. A. Tomlinson has returned from Bay City where she has been visiting her parents.

William Hackett and wife returned Tuesday from a two month's visit in the West. They visited the Midwinter fair.

Mr. and Mrs. J. F. Gardner left on Tuesday for Los Angeles, Cal.

Mr. and Mrs. W. J. Hates have returned from their wedding trip and are at home on West Second street.

Miss Isabel Deming will resign her position in the public school after Easter and return to her home in Michigan City, Ind.

Mrs. and Mrs. L. E. Judson will begin housekeeping soon on East First street.

Miss Kate Martin left last evening for Portland where she will visit with her sister.

Charles E. Marsden left last Monday for San Francisco.

Mr. and Mrs. F. A. Brewer left on Monday for California. They will visit the Yosemite valley and will also spend some time in the city.

Miss Hassenwikle, Miss Compton, and

eric Archer, the great organist, will be at the First M. E. church on March 20, and give a recital. Mr. Archer was the teacher of Clarence Eddy, the Chicago organist, who delighted everybody at the concert at the church about a year ago. He was organist of Henry Ward Beecher's church for some years.

On April 2, Miss Ellen Beach Yaw, of St. Paul, a soprano of phenomenal range, will give a concert at the Temple under the direction of the Duluth Conservatory of Music. She has sung in many concerts and has received the highest of praise.

It is understood that Messrs. Riedelberger, Flaaten, Trautvetter and Lachmund have organized a classic string quartet which will soon be heard.

Progressive Whist Party.
Mr. and Mrs. N. L. Sunderfield, of the West End, gave a progressive whist party on Wednesday evening. The first prize, a dozen nut picks, was won by Miss E. M. Alcott, of St. Paul.

Miss Florence Bassett and Miss Margaret McDonald gave solos. Mrs. D. H. Day and Gerald Tanning gave piano solos and Mrs. J. C. Fisher gave a vocal duet. A. L. Agatin was heard in a guitar solo, and Sydney Brown in a violin solo. The Bohemian club and Concordia quartet sang and Eric Hase and Franz Schultz sang a duet.

The Unity Concert.
The Unity concert was a musical event of note this week. It was given on Monday evening at Unity church and the literature was most excellent. A quartet from the Philharmonic club played several selections. The Avon quartet, through the illness of Mr. Shirik was prevented from singing. The Holian quartet was received with great favor and is becoming very popular.

Miss Florence Bassett and Miss Margaret McDonald gave solos. Mrs. D. H. Day and Gerald Tanning gave piano solos and Mrs. J. C. Fisher gave a vocal duet. A. L. Agatin was heard in a guitar solo, and Sydney Brown in a violin solo. The Bohemian club and Concordia quartet sang and Eric Hase and Franz Schultz sang a duet.

Booze Bonbons the Latest.
Have you never heard of booze bonbons, asks a New York paper. Well, really you are behind the times. They are called "bonbons" because they are so fashionable, and can consume a couple of pounds a day without any trouble.

Miss Lou Stevens returned on Tuesday to her home at Grand Rapids, spending a week with her sister, Mrs. J. L. Luber.

An informal reception was given by the ladies of the Presbyterian church on Wednesday evening at the home of Mrs. S. C. Brown on First avenue west, and a large number of people were entertained.

GET STRONG--'TIS SPRING.

Paine's Celery Compound the Remedy That

Makes People Well.

March is, in fact, the first month in the year.

January stands first in the calendar only for convenience in business.

Now is the time to get well!

Through the long winter most men and women do not taste fresh air nor drink in sunlight often than once a week or once a fortnight.

It is no wonder so many hard-working men and women approach spring with a feeling of weakness and debility and a languor of mind they cannot shake off without the assistance of a blood purifier and a true food for the nerves and brain.

Beyond a doubt the best spring medicine is Paine's Celery Compound. With its use diseases loosen their hold in the spring.

These are the favorable months for attacking rheumatism, lumbago, nervous diseases and weakness of the digestive system. It is the time when the system cures them where everything else fails.

The most eminent professor, and a man of tremendous experience, Professor E. J. Phelps, M.D., L.L.D., discovered the formula for Paine's Celery Compound in the famous laboratory connected with the Dartmouth Medical School. It is the remarkable outcome of the century's study of blood and nerves, and their close dependence upon each other for health.

Remember the time-worn text: "Spring comes but once a year." Take advantage of the favorable season. Get well and strong and free from all ailments that come from poor blood and worn-out nerves. Changes in the blood and nervous tissues take place very rapidly at this time. In March and April the blood is most capable of throwing off its impurities.

Purify the blood and invigorate the nervous system with Paine's Celery Compound!

HAUNTED!
A haunted house in these practical and unromantic times is something of a rarity, but an individual haunted with the idea that his ailment is incurable is a personage frequently met with. Disbelievers at the home of his sister, Mr. W. B. Welles, to Miss Effie Watkins, of Brooklyn, N. Y.

Mr. and Mrs. W. R. Bullock left for the West on Tuesday. Mr. Bullock is going to Los Angeles, Cal., while his wife's destination is Baker City, Ore.

Mrs. E. Lindahl is visiting her parents at Sparta, Wis.

Miss Mabel Fulton, of Brainerd, is visiting friends in the city.

Mr. and Mrs. Charles Fisher, of Ashland, Wis., parents of J. C. Fisher, were in the city Tuesday.

Mrs. G. A. Tomlinson has returned from Bay City where she has been visiting her parents.

William Hackett and wife returned Tuesday from a two month's visit in the West. They visited the Midwinter fair.

Mr. and Mrs. J. F. Gardner left on Tuesday for Los Angeles, Cal.

Mr. and Mrs. W. J. Hates have returned from their wedding trip and are at home on West Second street.

Miss Isabel Deming will resign her position in the public school after Easter and return to her home in Michigan City, Ind.

Mrs. and Mrs. L. E. Judson will begin housekeeping soon on East First street.

Miss Kate Martin left last evening for Portland where she will visit with her sister.

Charles E. Marsden left last Monday for San Francisco.

Mr. and Mrs. F. A. Brewer left on Monday for California. They will visit the Yosemite valley and will also spend some time in the city.

Miss Hassenwikle, Miss Compton, and

eric Archer, the great organist, will be at the First M. E. church on March 20, and give a recital. Mr. Archer was the teacher of Clarence Eddy, the Chicago organist, who delighted everybody at the concert at the church about a year ago. He was organist of Henry Ward Beecher's church for some years.

On April 2, Miss Ellen Beach Yaw, of St. Paul, a soprano of phenomenal range, will give a concert at the Temple under the direction of the Duluth Conservatory of Music. She has sung in many concerts and has received the highest of praise.

It is understood that Messrs. Riedelberger, Flaaten, Trautvetter and Lachmund have organized a classic string quartet which will soon be heard.

Progressive Whist Party.
Mr. and Mrs. N. L. Sunderfield, of the West End, gave a progressive whist party on Wednesday evening. The first prize, a dozen nut picks, was won by Miss E. M. Alcott, of St. Paul.

Miss Florence Bassett and Miss Margaret McDonald gave solos. Mrs. D. H. Day and Gerald Tanning gave piano solos and Mrs. J. C. Fisher gave a vocal duet. A. L. Agatin was heard in a guitar solo, and Sydney Brown in a violin solo. The Bohemian club and Concordia quartet sang and Eric Hase and Franz Schultz sang a duet.

The Unity Concert.
The Unity concert was a musical event of note this week. It was given on Monday evening at Unity church and the literature was most excellent. A quartet from the Philharmonic club played several selections. The Avon quartet, through the illness of Mr. Shirik was prevented from singing. The Holian quartet was received with great favor and is becoming very popular.

Miss Florence Bassett and Miss Margaret McDonald gave solos. Mrs. D. H. Day and Gerald Tanning gave piano solos and Mrs. J. C. Fisher gave a vocal duet. A. L. Agatin was heard in a guitar solo, and Sydney Brown in a violin solo. The Bohemian club and Concordia quartet sang and Eric Hase and Franz Schultz sang a duet.

Booze Bonbons the Latest.
Have you never heard of booze bonbons, asks a New York paper. Well, really you are behind the times. They are called "bonbons" because they are so fashionable, and can consume a couple of pounds a day without any trouble.

Miss Lou Stevens returned on Tuesday to her home at Grand Rapids, spending a week with her sister, Mrs. J. L. Luber.

An informal reception was given by the ladies of the Presbyterian church on Wednesday evening at the home of Mrs. S. C. Brown on First avenue west, and a large number of people were entertained.

The teachers and children of the Presbyterian Sunday school are preparing for an entertainment to be given in the church the latter part of the month. The program will consist of tableaux, music, and recitations by the children.

William Munro Tried to Pass a Check at the Banks Under Misrepresentations But Failed.

It Proved to Have Been Stolen From E. W. Barker and the Young Man Was Apprehended.

Given a Hearing This Morning and Bound Over to the Grand Jury—Other Police News.

The leading role in police court this morning was played by William Munro, a dark and sinister visaged young man, with a foreign accent and tones of voice suspiciously like those of a petty professional crook. William was up on a charge of grand larceny in the second degree and there was an array of witnesses from St. Paul's Episcopal church choir that put him badly in the hole.

In the latter part of the bottled month of February Edward W. Barker of this city received a check in the sum of \$74.40 on the Denver National bank from Bishop William M. Barker. The recipient placed it in his coat pocket and, on Feb. 25, went to church and sang in the choir as was his custom. When he donned his surplice he left his coat hanging on a peg in the basement of the church.

That day Munro was employed to "blow" the organ at St. Paul's sanctuary. During the sermon he reposed in the room below. The next day he entered the Iron Exchange bank and presented a check in the sum of \$74.40. In reply to Mr. DeWitt's questions he said that his name was William E. Barker, and that the check was sent him by his uncle. Identification was demanded and he spoke of Rev. C. C. Salter as one who knew him.

Charles B. Aske, of the National Bank of Commerce, said that the defendant entered that bank and presented the check. He gave his name as William E. Barker, and when asked why the check was made payable to E. W. Barker, said that his uncle must have made a mistake in writing his initials. Payment was refused without identification.

Mr. Barker had not missed the check until spoken to about it by Mr. DeWitt. Suspicion pointed at once to Munro as the thief. At the examination this morning Professor A. F. M. Custance appeared as a witness to prove the defendant's presence at the church as well as his presence in the cloak room below. Mr. Aske, a member of the choir, also gave testimony.

Munro took the stand and started to tell his life's history but was shut off. He denied the theft and the defendant said that he entered the two banks to negotiate it. Judge Winje decided to hold him to the grand jury and in default of \$20 he was committed to jail.

The common grist this morning was composed of two drunks and two vagrants. All were sent up for the customary periods.

Yesterday afternoon, Frank Davidson and Richard Bowden were examined on separate charges of burglary, one for entering the house of Mrs. McDougall, and the other for stealing a watch and some money. C. O. Baldwin defended, with the result that Bowden was held and Davidson was discharged.

Davidson being wanted in Superior, was escorted to the foot of Garfield avenue by Detective Kene. He was placed on the Noah's Ark that carries passengers over to the Wisconsin side. The superior officers were waiting to collar Davidson when he touched foot to the Badger shore, but he showed them a trick with a hole in it. When the ferry was in mid-channel, Mr. Davidson stepped off onto the ice, while yet within the boundaries of Minnesota, and the last seen of him, he was headed for the suburbs up the St. Louis river.

Yesterday afternoon about 2 o'clock, a report was turned in at police headquarters that the residence of F. Bain, No. 6 Piedmont terrace, had been burglarized a short time before and silverware valued at \$25 taken. Two hours later, John Doyle was behind the bars, and the stolen property had been recovered from a West Superior street pawn shop. Doyle has been hanging out at Friendly Inn.

New Family Hotel.
On April 1st, Nettie Lazier will open a first-class family hotel at 318-320 West Second street. The entire building has been furnished in an elegant manner, the location is convenient to the business section of the city and no more desirable place can be found in the city. Board with or without rooms will be given at rates to suit. For terms apply at 318-320 West Second street.

Nine cases were continued.

TENOR SINGER COMING.

Mark W. Baker, of Elmira, N. Y., to Lead the M. E. Church Singing.

Musicians will be delighted to hear that Duluth will soon have a fine tenor singer. Mark W. Baker, who has been a leading tenor in Rev. Thomas K. Beecher's church in Elmira, N. Y., will locate in Duluth on July 1, having been engaged to take charge of the music in the First M. E. church. Duluthians, however, will have an opportunity of hearing him before then. He will be here on March 20, and will sing at the organ recital to be given at the First M. E. church on that evening by the great Frederic Archer. He is said to possess a voice of remarkable sweetness and purity.

The Court Filings.

James McCabill has begun a suit against H. R. Volten to recover \$480 due on rent. F. W. Sullivan is plaintiff's attorney. The state bank has been garnished.

The Smith-See company has brought an action against the First National Bank, insolvent to compel the appointment of J. A. Waterworth, receiver, and the enforcement of the personal liability of the defendant's stockholders. The plaintiff claims to have an unsatisfied judgment.

A transcript of judgment for \$507.50 in favor of Edward Anderson against Ross McNearney has been filed.

The bond of C. T. Crandall, assignee of Leland and Leonard for \$16,500 was also filed.

The District Court.

The case of William Chanley & Co. vs. L. P. Mathews et al., was on trial before Judge Moer today. It is a suit to recover about \$2500 on lumber used in the construction of the ore dock at Two Harbors. The case had not been concluded at noon.

PERSONAL.

L. E. Chipman, who has had the typhoid fever for the past three weeks, is much improved and it is expected will be up and out in a few days.

Morris O'Meara has returned from San Francisco.

H. R. King, of Grand Rapids, is in the city.

Sheriff William McKinnon, of Carlton, was in the city last evening.

W. A. Wright, Sr., came down from Cloquet last evening.

C. H. Gibbs, of St. Paul, is in the city. Judge W. L. Kelly and W. L. Kelly, Jr., of St. Paul, are at Spaulding.

J. Charles Davis and W. J. Scanlan, in advance of Marie Tempest, are in the city.

Judge J. C. Nethaway, of St. Paul, was in the city last evening.

William Craig left yesterday for St. Paul and from there goes to Washington.

D. S. Forgy, who recently underwent an operation, is recovering.

Mrs. D. A. Irwin, of Winona, is a guest at the home of Mr. and James McCabill.

W. S. WOODBRIDGE SUES.

Friendly Suit to Test the Validity of the Water Bond.

W. S. Woodbridge has begun a friendly suit against the city of Duluth to prevent the issue of the \$300,000 water bonds. The suit is instituted presumably for the Duluth Trust company to definitely determine the legality of the bonds. Several points not raised in the suit begun by Michael Norris are made.

The allegation is made that this issue of bonds would increase the indebtedness of the city far above the 5 per cent charter limitation and would therefore be illegal; also, that the mayor neglected to fix the time and place for making the bids and that the bids were therefore not opened, and that therefore the bonds are invalid.

The question of the exclusiveness of the present company's franchise is also brought up. The claim is made that the city contracted with the Duluth Gas and Water company to put in a system of water works and agreed not to build or allow any corporation to build any other system within thirty years. The present company has complied with its portion of the agreement, it is claimed.

The city has demurred to the complaint on the ground that no cause of action is contained in the complaint. The main was to have come up in the special term today, but was continued and will come up before Judge Moer on Tuesday next.

ST. PATRICK'S DAY.

Green is Displayed Everywhere Today—Entertainment Tonight.

From the broad stretch of green in the city today, it is no wonder that a certain small boy of two summers thought spring came up from the half-melted snow drifts last night. Spring, gentle spring, with her verdant mantle is not here, but St. Patrick's day is and it is here in full force. Green ribbons, rosettes, buttons, neckties that look like a Dutch meadow in color and expanse, and beautifully decorated shop windows all proclaim the fact. And from the way in which a few of the boys are exhibiting their enthusiasm it will not be strange if some of them discover the original snake that the esteemed saint is supposed to have coaxed up and sank in the waters of Killarney.

Tonight at the Temple will be given a concert with addresses, this being the only public observance of the day. Judge Kelly, of St. Paul, will speak and Thomas E. Lyons, of West Superior.

Died.

Mrs. Jane Fields at the residence of her daughter, Mrs. W. G. Carter, of Lester Park, Minn., aged 63, from heart disease. Notice of funeral later.

A GREAT ENTERPRISE.

Thousands Afflicted With Chronic Catarrh Find Cure Free.

In order to bring his great remedy for chronic catarrh in reach of everybody Dr. Hartman invented the following method. Anyone wishing to become one of his regular patients should send name and address, when complete directions for treatment will be sent free of charge. Each patient is expected to report once a month. At no time is any charge made. The medicines can be obtained at any drug store. The result has been a great beneficence to thousands of catarrh sufferers. The following is a sample case:

Patient, No. 1, 627. Name, Lucius B. Cooper, of Biddle university, N. C. Commenced treatment Dec. 16, 1893. Writes Feb. 21, 1894: "I am thoroughly cured of catarrh which had been troubling me for eight years. I waited two weeks after I stopped the medicine to be sure I was thoroughly cured. I think that I would be doing wrong to keep such wonderful cure secret. I shall do what I can to make it known wherever I go. I do not know how to express my praise for Dr. Hartman or thanks to you."

Any one wishing to become a patient should send in his name and address at once, giving a list of the principal symptoms and the length of time the disease has run.

A Book Sent Free.

A medical book, treating of chronic catarrh, the grippe, colds and consumption will be sent, prepaid, for a short time to any address by The Peoria Drug Manufacturing company, of Columbus, Ohio.

HIGH SCHOOL NOTES.

Matters of Interest in Duluth's Temple of Learning This Week.

Participants for the junior exhibition are busy rehearsing for the final performance which takes place Monday, March 26, 1894.

A meeting of the Athletic association was called on Wednesday last. The association heartily endorsed the action taken by the boys for the protection of the school property and chose Hamilton Peyton and Clarence Taylor as delegates for the meeting at Minneapolis.

The school enjoyed a very pleasant treat Friday morning. Mr. Kitchin made an address on the subject of "Right Thinking." He made prominent the loving people of the world ought to be, and in order to do this successfully the school should not be grumble at the few little things which inconvenience them.

Rev. E. M. Noyes gave a very interesting and instructive lecture Tuesday evening on "Gothic Cathedrals of Europe."

The following program was very well received yesterday afternoon in the assembly room.

Piano solo.....Carrie Van Baalen
Oration.....William Covarty
Song.....Nellie Vetter
Essay.....Georgia Everett
Debate—Resolved, "That Clive's Action in India—Adam Seafort and Amelia Keopke.
Affirmative—Edna McFarlane and Ed Lucalle.
Negative in favor of Seafort.....Florence Williams

Rainy Lake Notes.

The rush to Rainy Lake continues increasing each day and there is no sign of abatement. Yesterday the Iron Range train carried forty people bound for the lake. Every man who comes in from outside says there is less heard of Rainy Lake in Duluth than anywhere else. All over the state nothing is talked of so much as the new gold fields and the great undeveloped wealth of this great region.

Yesterday there were, at one time, nine men every one from a different state, in W. C. Sherwood's office looking after the purchase of lots.

Two more sawmills are going in and this will relieve the lumber famine.

Are Themselves Again.

The authorities at St. Luke's hospital today report that Mrs. Wagner and child, who went through the experience of a dynamite explosion yesterday morning, are getting along very nicely. Mrs. Wagner's injuries are less severe than at first supposed and it is thought that no permanent injury to the eyes or disfigurement of the face will result. The boy who was an eye-witness of the accident was on the street last night selling newspapers and Wagner the elder, had recovered from his deafness and is in his usual physical condition.

CRIPPLE CREEK RIOT

Series Trouble Being Caused by Miners Who Are Out Owing to a Dispute Over Wages.

The Men Are Committing Acts of Violence and the Sheriff Has Called For Troops.

Camps in a Riotous Condition, and the Center of the Trouble at Battle Mountain.

CRIPPLE CREEK, Col., March 17.—There is serious trouble here and at Altman among the miners over a question of wages. The miners have been practically idle for thirty days. The men are doing violence to persons and property and Sheriff Powers, of El Paso county, has called upon the governor for troops to quell the riot.

The sheriff will await the arrival of the militia before moving. The miners are determined and will cause trouble. The United Press correspondent rode about the hills until 2 o'clock this morning, and was held up twice and was shot at several times from ambush by the strikers. The several small camps located on the rounded, sparsely timbered hills are in a riotous condition. Battle Mountain will be the center of trouble. The telephone line is still down.

THE FLAG OF IRELAND.

It Flies Over the City Hall at New York Today.

NEW YORK, March 17.—A green flag with a 7-stringed golden harp with a crown, otherwise known as the flag of Ireland, was raised at sunrise today on a line between the staffs on which the state and municipal flags fly on the city hall building. It is just in front of the dome, from which the stars and stripes were displayed.

The green flag is the one which was carried by the steamer Haze during the naval parade last year, and which was saluted by the visiting warships. This is a glorious St. Patrick's day and all Irish-Americans here are pleased to see the green flag, together with the stars and stripes, waving side by side at the city hall.

The sky is clear and the sun shines brightly, and Grand Marshal Patrick Costello says that the parade of the forty-seven divisions of the Ancient Order of Hibernians this afternoon will be the largest seen in years.

THE DOINGS OF CONGRESS.

The Sundry Civil Appropriation Bill Under Consideration.

WASHINGTON, March 17.—In the house today, Mr. Reilly made an unsuccessful effort to have the Beater resolution to institute suits against the Union Pacific railroad taken from the judiciary committee and referred to the committee on Pacific railroads. The matter went over until the committee on Pacific railroads can order the chairman to make the motion.

The house at 12:30 o'clock, on motion of Mr. Sayers, went into committee of the whole to consider the sundry civil appropriation bill. By unanimous consent the further discussion of the court river commission and soldier's home appropriation, was postponed until Monday. Judiciary committee amendments are being considered today.

THE WRIT WAS DENIED.

Attempt to Secure Andrew Wilson's Release From State Prison.

ST. PAUL, March 17.—[Special to The Herald.]—Chief Justice Gilfillan, of the supreme court, this morning denied the application for a writ of habeas corpus in the case of Andrew Wilson, sent from Duluth to the state prison for the larceny of a trunk of clothing, and remanded him to prison, but held the matter open until Tuesday by the police at Duluth to further affidavits by Wilson's attorneys.

A HUNGARIAN MURDERED.

He Was Shot in a Hotel and Carried to a Field Near By.

WILKESBARRE, Pa., March 17.—A quarrel between a party of Hungarians took place at the hotel of Lewis Rossecks in Plainsville, late last night. During the row John Role, a Hungarian, was shot twice and instantly killed. His body was carried from the hotel later on and thrown into a field near by. It was found by a party of street car men this morning. The murderer has escaped.

Every Store Robbed.

NASHVILLE, Tenn., March 17.—The town of Oglethwa, James county, was attacked by a gang of burglars last night and every store in the place, six in number, robbed. The chief of police at Chattanooga sent out detectives with bloodhounds this morning to trace the thieves.

Decorations for Capri.

FOR BREACH OF PROMISE.

An Action Against the Husband of Tennie Clavin on Trial.

LONDON, March 17.—The trial of the action brought by Mrs. Holland against Sir Francis Cook, the husband of Tennie Clavin, sister of Victoria Woodhull, for breach of promise and seduction, began in the court of queen's bench today.

The plaintiff charges that Sir Francis Cook, under a promise of marriage, induced her to become intimate with him in his house at Richmond, the promise of marriage to be fulfilled when his wife should die. This, she says, occurred in 1879.

She continued her relations with him, the promises being renewed from time to time, until in 1885 she found herself in a delicate condition. Sir Francis, she alleges, compelled her to undergo an operation, which, although successful, was almost fatal in its effects. In 1884 Lady Cook died and in 1885 Sir Francis, disregarding his promise to the plaintiff, married Tennie Clavin.

Sir Francis admits intimacy with the woman, but says he never promised to marry her and had no intention of doing so. He always paid for her favors and she invariably accepted the money.

DIED FROM HIS INJURIES.

A Young Lad Killed While Playing Football in Tennessee.

NASHVILLE, Tenn., March 17.—Percy Trueblood, a 14-year-old son of James Trueblood, a prominent citizen of Chattanooga, died this morning of injuries received yesterday afternoon from playing football.

An antagonist's knee struck him in the groin, causing a rupture. He suffered intense agony for twelve hours.

Big Fire Raging.

CLOUDESTON, Mass., March 17.—A fire is raging in the large brick block on Main street, owned by Thomas B. Ferguson of Brookline. The ground floor is occupied by C. W. Luce & Co., wholesale furniture dealers; the Naumkeag Clothing company, and F. A. Barker, wholesale and retail druggists; on the second floor are a number of offices. The fire is spreading. The City National bank building has caught, and it is feared that Tarrs large block will go down.

Five Bodies Found.

WILKESBARRE, Pa., March 17.—No more bodies have been found at the Gaylord mine since midnight last night. The fifth body was found. It has not yet been identified. The mine is again sealed, and several falls of rock and coal have taken place since the mine was sealed. The stench is so great this morning that it is almost impossible for them to continue work.

Justice Sutherland Located.

MONTREAL, March 17.—Justice Sutherland, of Brooklyn, convicted of complicity in the McKane matter, who disappeared this week, forfeiting his bail, is known to be in this city. Detectives are aware of his whereabouts, but as yet no instructions have been received to arrest him.

The Tariff Bill.

WASHINGTON, March 17.—The senate committee on finance remained at work closely all morning in an effort to dispose of as much of the bill as possible. The reporting of the bill is not expected before Wednesday at the earliest.

Work for Five Hundred.

SHAMOKIN, Pa., March 17.—The Northampton operations on Monday will thus be given employment.

A Piano Maker's Death.

PHILADELPHIA, March 17.—Charles Blasius, one of the largest piano manufacturers in the United States, died at his home in this city last night. He had been a piano dealer for over thirty years.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is cancer. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up his constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer \$100 for any case that it fails to cure. Send for list of testimonials. It is free. E. J. Clement & Co., Toledo, O. WAR IN VIRGINIA.

Virginia Oyster Police Schooner Attacked By Marylanders.

RICHMOND, Va., March 17.—The Richmond Dispatch this morning prints a telegram from the commander of the Virginia oyster schooner Tangier, stating that on Thursday night, at "Horse Hammock" in Virginia waters, the Virginia police schooner Tangier was attacked from the shore off Smith's island, Md., by twenty-five or thirty Marylanders armed with repeating rifles.

They fired on the schooner, and he returned the fire with rifles and then with a cannon. The Marylanders have sworn to kill the whole crew of the schooner Tangier, so that they cannot be witnesses against them.

TOO CONFIDENT.

The Case of a Lawyer Who Was Too Sure of Himself.

It is sometimes queried whether it would not save time and answer the ends of justice equally well with all argument to the jury. It might do occasionally, but the following instance shows that it is not always safe.

"I once had a case," said a member of the bar, "against a man in the country which was as clear as daylight in my favor—the fellow had not even the shadow of a defense for refusing to pay his debt—but by the cunning of his lawyer he had continued to avoid coming to trial for about two years in hopes that he might worry me into a compromise."

"At last the case was called, late in the term and late in the day, the court and jury tired and impatient. I stated the facts, produced the evidence, which was all on my side. The judge asked the counsel whether they wished to argue the case, stating that he hardly thought it necessary to do so in a matter. The lawyers agreed to submit it without argument. The jury went out and immediately returned with a verdict for the defendant. As soon as the court adjourned I sought the foreman of the jury, a worthy but not very brilliant man, and asked him how in the name of common sense they came to render such a verdict."

"Why, you see," said he, "we didn't think much of the lawyer against you, and it wasn't strange he didn't have nothing to say; but, square, the fact is, we thought you was about one of the smartest lawyers in the country, and if you couldn't find nothing to say on your side it must be a pretty hard case, and so we had to go against you!"

—Green Bag.

Wittie's Obsessy.

"People have been telling me for a long while that my boy Willie was getting too fat," said Mrs. Peyton. "I paid no special attention to such remarks, because foolish persons have a way of telling you that you are getting fatter or thinner. They seem to enjoy indulging in that sort of personal remark."

"But one morning last week when Willie sat down to breakfast I was suddenly struck with the fact that he was certainly becoming fatter. One does not observe changes that take place in members of one's own family. If they are altering in any respect, they do it so gradually that one does not take notice. But Willie was unquestionably growing fat."

"As he was engaged in consuming a plate of buckwheat cakes I gazed upon him critically and found myself becoming alarmed. He seemed to swell visibly before my eyes. His very cheeks were puffed out to such an abnormal extent as to make his mouth look like a mere pucker. That, however, did not interfere with his consumption of the buckwheats. At length I said: "Willie, I am afraid you eat entirely too much!"

"Why, mamma?" he asked.

"Because you are getting too fat. I feel so worried about it that I am going to take you to see a doctor this very morning."

"I took him to see the doctor and explained to him my alarm. My grandfather told him that Willie was getting fat, which I understood was a complaint that was likely to attack stout people. Was there not, I inquired, some medicine which would make Willie thinner?"

"The doctor looked Willie over carefully, punched him in the cheeks and in the stomach with his forefinger, looked at his tongue and asked him how he felt. Willie explained that he did not feel particularly well. I said that I supposed that he was indulging from eating so many buckwheat cakes."

"No, mamma," said the doctor. "It is not indulgence. It is a matter of give him this medicine for three days, keep him in the house, and this appearance of fatness which has alarmed you will depart." —Washington Star.

An Extraordinary Offer!

An Elegant Home for a Comparatively Small Cash Payment.

Almost anybody is willing to sell property in such times as these for half cash, or one-third cash, but I can do much better than that. I have for sale, at a sacrifice, a handsome and an unusually commodious 12-room house, with all modern conveniences, and a large barn adjacent, all situated on a beautiful 26-foot corner lot, in the East End and within one block of the street car line. This property cost me over nearly \$10,000, and it is really worth every dollar that it cost me. In view of the stringency of the times, it will be sold for \$5,000, and the next ten days, for the absolute sum of \$3,500, and only from \$2,000 to \$2,500 of this will be required in cash. Cash and deferred payments, terms can be given with which almost any purchaser can comply. If I cannot sell this property at once, as is offered at a price that will secure its speedy sale, I will sell it at a price that will be the biggest snap of the season. I would just add, that at such a sacrifice price as this, I must deal with principals direct.

Foremost Baking Powder in All the World.

1893
WORLD'S FAIR
MEDAL AND DIPLOMA
 AWARDED TO

Dr. Price's Cream Baking Powder.

The highest award was given on every claim, comprising superiority in leavening power, keeping properties, purity and excellence. The verdict has been given by the best jury ever assembled for such a purpose, backed by the recommendation of the Chief Chemist of the United States Department of Agriculture, Washington, D. C., who made an elaborate examination and test of all the baking powder. This is pre-eminently the highest authority on such matters in America.

This verdict conclusively settles the question and proves that Dr. Price's Cream Baking Powder is superior in every way to any other brand.

NOTE—The Chief Chemist rejected the Alum Powders, stating to the World's Fair jury that he considered them unwholesome.

"The Autocrat of the Breakfast Table."

DR. PRICE'S CREAM BAKING POWDER is the standard for purity and perfection the world over, and is beyond comparison. Its purity and goodness are household words. Always full weight. Never varies. Never disappoints.

Dr. Price's is peculiarly adapted for export, as neither long sea voyages nor climatic changes affect it. Will keep fresh and sweet for years.

It is a fact that certain envious manufacturers of Baking Powder, who lacked the temerity to even place their goods in competition with Dr. Price's Cream Baking Powder at the World's Fair, have, since it closed, advertised that they actually received an award. To an enlightened, appreciative public, comment on such an unfair and reprehensible act is quite unnecessary.

How Cream of Tartar is Made.

Cream of Tartar—which enters so largely into the manufacture of Dr. Price's Cream Baking Powder—is obtained from the tart wines of France, Germany, Austria, etc. The Crude Tartar, called Argols, is deposited on the sides of the wine casks during the fermentation of the wine. After the wine is drawn off this crystal deposit is removed, dried and exported to America, where the elaborate process of refining goes on, producing the snow-white crystals of Cream of Tartar. Specimens of this product, in all its conditions, from the crude Argols in its original wine cask to the purified and refined article embodied in Dr. Price's Cream Baking Powder, were shown at the Price Baking Powder Company's late exhibit in the Agricultural Building, World's Columbian Exposition.

NOTE—The Cream of Tartar Refinery controlled by the Price Baking Powder Company is the most complete and extensive in the world.

THE FENCING MASTER

Whitney Opera Company Coming to the
Lyceum for Two Nights in this
Famous Opera.

Dainty Marie Tempest, One of the Most
Widely Known Prima Donnas in
the Title Role.

Robert J. Burdette, the Inimitable Humorist
and Lecturer at the Lyceum Next
Thursday Evening.

One of the most important musical
events of the season will be the advent
of the Whitney Opera company at the
Lyceum theater on Monday and Tues-
day, March 26 and 27. This large and
thoroughly first-class organization is
headed by Miss Marie Tempest, who is
undoubtedly the most widely and favor-
ably known light opera prima donna
now before the public. She created the
part of Francesco, the court fencing
master, when De Koven and Smith's
work was originally sung at the New
York Casino, where it enjoyed a run
of over 250 nights, and she will continue to
sing it for the remainder of this season
only.

"The Fencing Master" is well known to
all music lovers and the fashionable
smart set who keep posted on the most
important musical events, and ever since
the engagement here was announced,
there has been a number of applications
each day for seats and boxes. An opera

engagement is always something that
causes a flutter in society, and when the
opera and organization is well known, the
season grows in importance. Nearly all
the large cities in this country have en-
joyed "The Fencing Master" and the
present engagement of the "Whitney
company will be the first time it is
seen here. The color of the opera is
Milanese and Venetian, and the scenery
used to mount it is as beautiful and
effective as the leading scenic artist
could turn out upon the stage of the
New York Casino, where it was origi-
nally used. The first act shows a square
or court in Milan, while the second is a
playa at the head of the Grand Canal
in Venice. The Venetian architecture
is imposing and effective in the
foreground a fleet of gon-
dolas with their ruddy-striped awnings
and many colored lanterns is seen riding
on the bosom of the lagoon, while the
state barge used in the annual ceremony
of the fires being quite strong enough
for grand opera and much above the
jungle of the comic opera of the day.

Among the prominent members of the
company are Miss Lily Post, prima donna
soprano, formerly of the McCaull
Opera company, Miss Thea Dorri,

prima contralto of the Royal Italian
Opera company, Milan; Miss Julia Spen-
cer, the Australian prima donna; Miss
Marion Langdon, soprano of the Carlton
Opera company; Julius Steyer, the
popular baritone of the Algerian Opera
company; Gerald Gerome, tenor,
late of the Carl Rees Opera
company; A. L. Holbrook,
formerly stage director and basso at
the New York Casino; Ole Norman, W.
West, H. Arthur Lieber, and the two
sterling comedians, Richard F. Carroll
and H. W. Fre Denick, together with a
remarkably strong chorus of fifty well
trained voices and an augmented orches-
tra under the directorship of Signor
Tomasi.

The scenery, costumes, and properties
used in the metropolitan production will
be carried on here and placed on the
stage of the Lyceum, Monday morning,
ready for the opening in the evening.

ROBERT J. BURDETTE.

The Great Humorist to Lecture at the Lyceum
Next Thursday

Bob Burdette will lecture at the
Lyceum on Thursday evening next on
"The Rise and Fall of a Mustache."
There are but few people in the country
today who have not read some of his
writings and all will be anxious to hear
him. The Utica, N. Y., Press says of him:

"There was much curiosity on the part
of many to hear the famous humorist. It
is some years since he last visited Utica.
He may have grown older, but he has
not grown dull. He sparkles and scintil-
lates. The large audience listened with
the most interested attention. First, he
had all the people laughing, and then
with some sentiment or pathetic
incident, he would excite feelings
of an opposite character. It was quite
evident from the lecture that Mr. Burdette
thoroughly understands a man and
appreciates his many good qualities.
The title of the lecture, 'The Rise and
Fall of the Mustache,' gives an idea

concerned to be the greatest vocal instructor
in the world and that she lives in Paris,
but beyond those facts the general public
is in the dark. She is responsible in a great
measure for the professional success of
Melba, Tetka Gerster, Emma Eames,
Emma Nevada and Ilma di Murska. She
has a half score of gold medals given to her
by kings and emperors, she is courted by
the leaders of the most exclusive artistic
salons in Paris, she enjoys an enormous an-
nual income, and in spite of all this she is
as unassuming and mild mannered as
though she were at the bottom instead of
the top of the ladder of fame.

Week inaugurates Marchesi in this country.
Are you to inform aspiring American
girls who are anxious to shine in grand
opera that if they go to Marchesi she will
give them a few high notes to which the
balance of the voice will be sacrificed. This
is a manifest absurdity and is a device fre-
quently practiced by impetuous vocal in-
structors who wish to squeeze the little
money out of the victim themselves. These
people simply exercise a voice. They re-
train or never develop it.

Marchesi and others like her, on the other
hand, make a point of finding out at once
in respect to which an individual's voice
is strongest or weakest and then develop
those qualities to the utmost. Necessarily
the singer is benefited by this policy. Few
artists can hope to excel in upper, middle

MRS. MATHILDE MARCHESI.

and lower registers alike. Some one of
these is apt to show off their powers to
special advantage, while in the others there
is nothing more than mediocre talent. After
a course of treatment with Marchesi or
other competent instructors, with accu-
racy of execution, Marchesi realizes that
the vocal lines to be started, and this she
has endeavored to do with her pupils. Natu-
rally she is careful not to destroy the very
thing which will produce the effect she de-
sires.

Marchesi is 55, of medium height, not
more than 5 feet 4 inches, and of still no-
tably fine proportions. Her hair is dark
expressive, bright eyes. The nose dark hair
of the small, shapely head is silvered over
a full forehead—one of those intelligent
brows which read character. "Like a book."
The lower part of the face indicates the
decisive, determined nature of the woman,
although the sensitive lips and dark
tremulous with feeling or in listening to
music.

This famous teacher of vocal art, who
was born in Germany, was educated in
England, married to an Italian and resides
in France, giving much of her time to the
cultivation of American voices.

Marchesi's father, Herr von Graumann,
a titled gentleman, believed that his chil-
dren's education should be directed with
a view to making them independent. Ma-
thilde accordingly went to London to study
music under the famous Garcia. Young
Salvatore de Carbone della Rajata March-
esi, a banished Neapolitan, who suffered
in the political cause of his king, had also
journeyed to London after a concert tour
through the United States and an operatic
engagement in New York to study under
Garcia. A love match followed the meet-
ing of these two pupils.

Upon graduating the young couple went
on a concert tour to Berlin, Leipzig, Vien-
na and Frankfurt-on-the-Main and were tri-
umphant everywhere. The critics of the
day describe the young Mathilde as strik-
ingly beautiful and her voice perfect. Her
husband was the most famous Meisopho-
phes of his time.

In 1858 Mrs. Marchesi accepted the pro-
fessorship in the vocal department at the
conservatory at Vienna, and there she
brought out Gabriella Kraus of the Paris
opera, Antoinette Ricci, Caroline Dory
and the late Ilma di Murska.

In 1865 she was appointed vocal director
of the conservatory at Cologne. She also
became a member of the leading vocal soci-
ety of Italy and spent years both in Italy and
France perfecting herself in their methods.
Marchesi once said, "For 20 years I taught
eight hours a day in the conservatories,
and my pupils were representatives of al-
most every nation in the world."

Her own famous Paris school was found-
ed in 1881, whence her pupils followed her
from Vienna.

This artistic woman in her rich garments,
every movement and every tone evincing
infinitesimal taste and taste, gains a pronoun-
ced sway over her pupils. Her conversation
with them is charming, with anecdotes of
the great singers who have studied in her
school, valuable facts relating to the art of
music, judicious advice, sparkling criticism
and always that last touch of fascination
in a great artist's voice.

A personal interest in each to whom she
speaks. While she is inflexible in her
judgments, unyielding in her decision re-
fusing the voice and the treatment.

A TEACHER OF SINGING.

Marchesi, the World's Foremost Vocal In-
structor.

The name Marchesi is familiar to every
person who reads the musical columns of
the newspapers. We all know that she is

training, she is really a very mother to her
pupils and a most changeable friend.
There is no prima donna, however cele-
brated, who is not ready to return for her
advice in undertaking a new composition or
role. One of her favorite pupils is Marie
Boska Gerster, who visits her old teacher
at every opportunity. Emma Nevada once
wrote to a friend who had just entered Mar-
chesi's school: "I'll absolutely obey you what
she says. If you have a professional voice—
that is, a voice for the opera—she will ad-
mit you, and you can count upon every
word. Do exactly as she tells you, and you
will never be sorry."

Many of the impulsive German girls al-
ways kiss her on both cheeks on entering
class, even her lands and dress, and Emma
Boska says that she will never forget state-
ly Antoinette de Fride, who for six years
after her graduation from the Marchesi
school was prima donna at the Royal Opera
House of Moscow, and her fervent, almost
worshipful manner to the woman who had
helped her to fame. Pretty Pauline Novak
of the Royal opera of Prague and Bada-
Death used to say in her ingrained Bohe-
mian way, "Oh, Marchesi will be my
only savior, for she embodies all the
lovable qualities, all the fascinations."

GREENROOM GOSSIP.

The New Dramatic News and The Illus-
trated Weekly Dramatic News are rival
publications in the dramatic world. As they are
both newly referred to as The Dramatic
News, a good deal of confusion necessarily
results.

Max Egan created the leading comedy
role in "Love's Extremity," which is now run-
ning at the Fifth Avenue theater, New
York.

Mario Baraglio will positively star next
season. Cultured Boston will receive the
first sample Oct. 23.

That ill-fated play, "Poor Girls," the au-
thorship of which was falsely attributed to
the Marchesi, is being referred to by the
theaters as "The Dumb Sisters."

Charles Coghlan is unquestionably the
best leading man in America, but he is also
the most unreliable.

Sadie Marchant recently refused an excel-
lent offer as the star of an important comic
opera organization which will tour the prin-
cipal cities of the United States.

Franklin MacLay of Wilson Barrett's
company is winning golden opinions from
the critics for his excellent work as Lago.

Judging from present appearances, there
will soon be many "double acts" in New
York as there are theaters, and there
is certainly a superfluity of the latter.

Business "on the road" is said to have
picked up at least 15 per cent since St.
Valentine's day.

Johnstone Bennett will be starred next
season in "The Amazons," the Pinner farce
which is now testing the capacity of the New
York Lyceum theater. She will play the
part of Tommy, which is now done excel-
lently by Bessie Tyne.

A New York endorsement of a new play
no longer seems necessary. The use of ap-
proval of either Chicago or Boston is now
just as efficacious for "house filling" pur-
poses.

Certain attractions which are playing the
popular price houses this season and are
glad to get into them would have, figu-
ratively speaking, turned up their noses at
the other year.

Edwin Cherry may yet take his "L'En-
fant Prodigue" company to St. Petersburg,
although he has definitely abandoned the
idea of a South American tour.

Charles Mayo, it is stated, has decided
to go to Europe at the end of her engage-
ment as prima donna of the "Princess Don-
na" company to study for grand opera.

Charles Bassett has temporarily suc-
ceeded Edwin Hoff as one of the tenors of the
Bostonians.

Several plays which have recently been
roundly scored by the New York critics
have developed into great successes never-
theless.

A. S. Holt of New York is one of the ris-
ing young baritones of the country. His
voice is deep, rich, and sweet and so flexible
that it is capable of expressing many shades
of feeling. Mr. Holt recently sang for the
New York Woman's Press club, and the
girls, young and old, applauded him boister-
ously.

The Philadelphia Dog Show.

The Philadelphia Kennel club has always
been very liberal in the amount of prize
money offered, and this year's premium
list is no exception from the rule. There
are 120 classes for 30 breeds, and with pre-
miums ranging from \$15 for first down to
\$3 for third. The more popular breeds and
the large dogs of course get the most money,
but all are liberally provided for.

The show will be held on March 27 and
the following days. It is anticipated that
the entries will be the largest ever made for
a show in Philadelphia, and as the shows
in the past have been successful in spite
of the inclement weather the Philadelphia
Kennel club committee look forward
with full confidence that the ensuing ex-
hibition will be a record one financially.

"A Night On."

BURIED ON AN ISLAND

Million of Silver Bullion and Precious Metals
Supposed to be Hidden on One
of the Bahamas.

A New England Nurse Confided the Secret to a
Sailor With Whom She Fell in
Love.

The Trip to the Island Was Made But the
Presence of Spaniards Upset
Matters.

This is a story about pirates with a big
P, but they do not appear to any great
extent personally in this story, which, not
so very long ago was told in a dreamy
sort of way by a sailor. He was and has
been a sailor in all senses of the word.
He can sail a ship or a fishing boat,
either across Lake Superior or the widest
ocean. Like all seamen, he is the least
big superstitious and credulous, and hav-
ing given ear to the tempter, he was per-
suaded to make a trip that might have
made him a millionaire. He went hunt-
ing after five tons of silver bullion and
other treasures of precious metal that
pirates had hidden years before on one
of the small islands known as the Ba-
hamas.

A few days ago, the press wires told
a story about a Minneapolis man making
a visit to an island in the West Indies
for the purpose of searching for hidden
Spanish treasure. The fact of the hid-
den wealth had been learned from a
friend, the betrayal of that friend's dis-
cretion ended in an unsuccessful search.
Traitors have been known to meet dis-
appointment in other cases. His was
the long ago and how did the story live
through all the years?

Some years ago down in the good old
state of Massachusetts, a railroad train
ran off the track and was wrecked. Several
passengers were injured. Among the
number was a seaman, a man who, in
the prime of life, was returning to the
home of his youth. His injuries were so
severe as to forbid a removal from the
scene of the accident and he became a
temporary inmate of a farm-house hard
by. He was a young man, well formed
and handsome to look upon. His nurse
was one of that class so plentiful in
Old England, commonly known as "Old
Maid." Like so many of her sisters, no
heart beat vibrated in unison with hers
and too long had she awaited the reviv-
ing touch of man. She looked upon this
handsome sailor. Not only did she
look, she also loved. Aside from the in-
fluence upon her of a quickened heart,
the stranger's quiet demeanor and gen-
tleness vibrated in unison with her and
the lonely daughter of New England and
she finally confided to him a secret worth
thousands.

"Thousands? Aye, millions! Five
tons of bullion and hidden treasure.
Tons of precious metal, wrung in the
past from the bowels of labor, driven
out by the cruel hand of the master,
and watched over by the cruel master—
each ounce representing so much
human sweat, so many groans,
so much luxury for the slave holder, and
so much power for the ecclesiastical
powers. Accursed as this treasure might
be, the New England virgin held the
secret, and moved by the charms and
apparent virtues of her patient, her heart
went out to him and unto him was re-
vealed the clue to the hidden hoard.

Years ago, long "befo' de wab," a sailor
lay dying in the old parish prison of
New Orleans. To him came a doctor—
a Yankee. When the grizzled man of
the seas felt the relentless clutch of the
angel of mankind at his throat, he
called the plain New England nurse of
medicine to his bedside and told unto
him a startling tale.

"Doctor," slowly and painfully spoke
the dying man, "I must soon leave
you with that which I must soon leave
behind me. For many a day my mates and I flew
the Jolly Roger and we made many a good
man walk the plank. I glory in my deeds
and I did just as I have lived—an
enemy to mankind. But you, doctor,
have done me a service, and I'll repay
you with that which I must soon leave
behind me. On— isle is the buried
cargo of bullion from a Spanish galleon
wrecked. We took her, the crew all
walked the plank, the treasure was
buried, but we never had a chance to
recover the precious prize. Here is a
chart. Make what use you can of it."

The unrepentant pirate passed away
and the doctor, in time returning to his
Northern home, brought the chart with
him, but nothing was ever done with it
except to hand it down through the fam-
ily as a relic of doubtful value.

The maiden lady who took so deep an
interest in the injured sea captain was
a grandchild of that old doctor and the
possessor of that time stained chart.
When she learned that her patient was a
sailor, she was moved with an idea that
he might be the man to test the truth
of the old pirate's tale. She laid the chart

before him but no steps were taken at
that time.

As soon as the victim of the railway
disaster recovered from his injuries he
came West, where he had been before,
and took a place with Capt. McDougall
on one of the whaleback fleet. All that
season he studied over the matter and
finally, when lake navigation closed, he
went East, fitted out a small schooner at
Boston and with a newspaper reporter,
an artist and a seaman none other than
Capt. Hector MacLeod, set sail for the
treasure island. The members of the
expedition found the place as designated
on the old pirate's chart. The treasure
was also located but it was impossible to
dig it up and bring it away. The Span-
ish government had granted a
concession to a company to
remove all the guano from
the island. The presence of many work-
men, made it seem unsafe to attempt a
removal, as suspicions would have been
aroused and a most certain confiscation
of the treasure would have followed. An
attempt, however, will again be made
and next time the possessors of the se-
cret feel that they will meet with com-
plete success.

The man who secured the chart from
his New England admirer, is captain of
the Colby, the whaleback vessel plying
the waters of the Atlantic coast. This
knowledge is shared by one who is this
winter his first mate, who is known in
Duluth as Capt. Hector MacLeod and
who told the story substantially as nar-
rated above. It may be simply the yarn
of a sailor but Capt. MacLeod, in telling
it, spoke as a man does when he tells
the truth, the whole truth and nothing
but the truth.

CHRISTIAN ENDEAVOR.

Topic For the Week Beginning March 18.
Comment by Rev. S. H. Doyle.

Topic.—Taming the Tongue. Jas. iii, 2-12.

It is not an unusual thing for man-
kind to neglect what is of great impor-
tance and to devote his time to trifling
and unimportant, and very often that
which is really of the greatest impor-
tance is looked upon as unimportant.
This is true with regard to speech.

What is more important than the power
of speech? How wonderful for good is
the tongue if used aright and how pro-
ductive of evil if used in a false way!

Taming the tongue may at the first
glance appear like an insignificant sub-
ject, but really it is very important.
Life may be made happy or miserable
by the way we use our power of speech.

The power of the tongue. The
tongue is one of the smallest members
of the body, and yet it is very powerful.
James uses three excellent illustrations
to picture the tongue's power: (1)
The horse bit. A wild horse is un-
controllable, but how easily by the use
of the bit—that part of the bridle which
the horse bites—man controls the tamed
animal! Through the mouth he controls
the whole body. Just so the man who
uses his tongue aright will find it a help
in controlling his entire nature. (2) The
ship's rudder. The ship's rudder is a
very small thing in comparison to the
ship, and yet it controls it—it guides it,
turning it constantly about from one
side to another. The faculty of speech
is the rudder of human nature. It
guides us through the storms of life if
used aright and wrecks us if used false-
ly. (3) The little fire. A spark of fire
is a little thing, but it may do irrepa-
rable damage. One single flame of fire
started the conflagration that laid the
entire city of Chicago low in ashes. Un-
suspected speech scorches and burns.
The liar sears his friends. The slan-
derer kindles unquenchable flames. The
profane swearer spits the fire of hell
into the face of God. How expressive
the thought—the tongue is a flame of
fire!

2. The necessity of taming the tongue.
The necessity of taming the tongue is
evident in its great power. If words had
no influence, then we might speak hap-
sily and thoughtlessly, but since they
may make or ruin life, since they may
elevate or ruin reputation, since they
improve or brighten our hopes for hap-
piness in eternity, it is certainly of the
vital importance that we learn to con-
trol our powers of speech. How that con-
trolled himself is brighter than he who
takes a mighty city, and the man who
can control his tongue can usually con-
trol himself.

Time Saved in a Consecration Meeting.
The society of the Second Presby-
terian church of Lincoln, Neb., has 84
active members. That gives to each less
than one hour of the consecration
bond, and so it became necessary for
them to economize time to the utmost in
their consecration meetings. Their lat-
est plan to this end is a most success-
ful one. Some one of the congregation
lectograph printed an exceedingly neat
and tasteful folder bearing the name of
all the active and associate members
arranged in alphabetical order, the as-

sociates, of course, by themselves. With
these folders in hand, and without any
call from the secretary or president, the
members took part in the order of their
names. Besides the saving of time this
plan links very plainly names and faces,
so that the members soon get to know
all who are in the society.—Exchange.

Endeavors Conduct a Mission Service.
The Christian Endeavor union of Se-
attle, Wash., has made itself respon-
sible for conducting a meeting at the
city mission one night in every week.
The societies take turns at this service.
They sing in front of the building for
about 15 minutes and then invite into
the building the large crowd which is
sure to gather. The Endeavorers then
conduct the entire service. These meet-
ings have grown from an attendance of
about 30 to one of 150.—Exchange.

Temperance Endeavor.
The Endeavorers of the Fourth Meth-
odist Protestant church of Pittsburgh
have a wide awake temperance com-
mittee, whose work certainly deserves in-
dication in competition for one of the Cleve-
land diplomas. During the last term of
the Allegheny county license court this
committee appeared before it with a
largely signed remonstrance against an ap-
plicant for a license and succeeded in
relieving the locality of the establish-
ment of that saloon.—Exchange.

Faithlessness.
As the flower is gnawed by frost, so
every human heart is gnawed by faith-
lessness. And as surely, as irrevocably,
as the fruit bud falls before the east
wind, so falls the power of the kindest
human heart if you meet it with poison.
—Ruskin.

Trust His Love.
